

# VEHICLE DYNAMICS INTERNATIONAL

The International Review of Next-Generation  
Automotive Suspension, Steering, Braking and  
Dynamics Electronics Technologies and Trends

# 2018

**Vehicle Dynamics International magazine,**  
is the world's only international review of next-generation  
automotive suspension, steering, braking, chassis simulation and  
testing, and vehicle dynamics electronics and technologies. The  
magazine is published twice a year and send to 10,000 senior  
vehicle dynamicists and programme chiefs.

**Topic areas covered in Vehicle Dynamics International magazine include:**

- Electronic retardation systems and developments
- Next-generation brake friction materials and designs
- Fully integrated electronic dynamic control devices
- Isolation and control systems and solutions: beyond rubber damping
- Advanced electronic and hydro-electronic driveline and transmission concepts
- Corner-engineering systems
- Intelligent tires for enhanced road-manners and secondary ride control
- Electromagnetic dampers and beyond
- Lightweight axle and spring materials
- Cutting-edge power steering technologies
- Next-generation dynamics software simulation systems
- Future kinetic rig designs and measurement solutions
- Advanced hydraulic system design

**Publishing schedule:**

Vehicle Dynamics International is published twice a year:

May: **Automotive Testing Expo Stuttgart Show Issue**  
November: **Annual Showcase Issue**

**Sponsorship of the Carrier Sheet**

Cost per issue 1 side: **£4,550**

Cost per issue 2 sides: **£5,950**

**App banner rates: £7,850 for 1 year**

**Advertising:**

Full or half-page advertisements

**Full-page £4,550**

**Half-page £3,750**

DPS and cover opportunities subject to availability.
