Welcome

PTE World – the world's leading international airport conference and exhibition returns to London – and is set to be another fantastic event!

"Having been part of PTE World for the past 28 years, I'm incredibly proud to be bringing the show back to London and to welcome the global airport community for what promises to be an outstanding event"
Andrzej Smith, portfolio director, PTE World

"PTE World Conference 2026 is jam-packed with insights from the industry's finest! We have a fantastic mix of speakers bringing fresh ideas, solutions and a wealth of experience to help you navigate your current and future role. If you've not attended the conference before, this is THE year to sign up and see what you've been missing!"
Janine McEvilly, conference director, PTE World

This year's exhibition hosts over 450 industry-leading exhibitors – showcasing the latest developments within the industry, including new products and technology for a seamless passenger journey, next-generation airport security solutions – and more – all on show on the show floor!

The conference has a line-up of over 400 expert speakers from airports, airlines, architectural companies, consultancies and leading aviation authorities. A brand-new track – Beyond the dashboard: Data strategy and culture – has also been added to the already impressive program!

Key speakers include:

Aletta Massenbach, CEO, Berlin Airport

Prof. Chris Luebkeman, futurist and founder, Strategic Foresight Hub, Switzerland

Roel Huinink, CEO, JFK International, USA

Luke Bugeja, CEO, Ferrovial, Netherlands

Pierre-Hugues Schmit, chief executive, London Gatwick, UK

Deborah Flint, president and CEO, Toronto Pearson International Airport, USA

A note for conference delegates:

Entrance and registration: The conference will be held in the ICC Capital Suite, with the Airport design, planning and development track located in Exhibition Hall N11. Delegates and speakers can print their badges at N4, N5 and N11. The main entrance and registration point for the Airport design, planning and development track is N11.

New for this year! Sign up to secure your delegate pass for 2027. The on-site booking rate is valid for three days only so book your pass early!

Conference catering: Delegates and speakers can enjoy early morning networking with coffee and pastries, refreshment breaks and networking lunches with a variety of food options available in the food courts at the back of the expo hall. **Conference attendees must collect a daily lunch voucher to redeem catering in the food court areas.**

Catering arrangements:

You can find a variety of catering outlets in the food court areas at the back of the expo hall. To view the locations and menus, please scan the QR code to download the event app.

SCAN THE QR CODE TO DOWNLOAD THE FREE EVENT APP

Opening Day Party:

Please join us for the **Opening Day Party** on Day 1 – open to all visitors and delegates in Food Court 2 by the Skytrax stage. With a DJ and drinks, it provides the perfect chance to network with industry peers!

Skytrax World Airport Awards:

Join us after the conference on Day 2 for the **Skytrax World Airport Awards,** to raise a toast to the winners! This is another a perfect opportunity to connect and network with industry peers in a celebratory setting.

Opening address:

The expo will open with a 30-minute keynote speech from Thomas Woldbye, CEO of London Heathrow Airport.

VIP lounge:

PTE World VIPs will be able to rest with refreshments in the fabulous VIP lounge!

Thank you to our host airport:

We would like to say a special thank you to London Heathrow Airport, our official host airport group and partner. You will be able to hear a number of speakers from London Heathrow Airport presenting at the conference.

Your PTE World team wishes you a fantastic and inspiring event!

Andrzej Smith
portfolio director, PTE World

Janine McEvilly
conference director, PTE World

Opening Day Drinks Party

Tuesday, March 17, 2026 from 17:00hrs

Taking place in Food Court 2 by the Skytrax stage – everyone is invited!

PTEWORLD
PASSENGER TERMINAL EXPO

AIRPORT SECURITY EQUIPMENT IS SMART.

INTEGRATED AIRPORT SECURITY SOLUTIONS ARE SMARTER.

Leidos facilitates secure and efficient passenger movement at security checkpoints, while also enhancing the passenger experience. The integration of our ProPassage™ Automated Tray Return System and ClearScan™ CT scanner provides a best-in-class, smarter security solution where throughput can exceed 500 passengers per hour, per lane.

11:00 - The missing link in travel connectivity

Aylin Alpay, chief of marketing and digital officer, TAV Operation Services, Turkey
Kerem Öztürk, CEO, TAV Technologies, Turkey

TAV | TECHNOLOGIES

11:30 - Intelligent airside operations: Optimized turns, safer movements, better utilization

Andy Bordass, chief business officer – Europe, Waisl Limited, UK

Waisl

14:00 - Presentation by Smart Airport Systems

Speaker to be announced, Smart Airport Systems, France
Please check the website or app for details

SAS SMART AIRPORT SYSTEMS

14:30 - Extraordinary by design: How people define the passenger experience

David Swain, operations director, Aviation & Rail, Ethos Farm, UK

ethos farm

15:00 - Presentation by Arcadis

Simon Swan, global director – airports and new mobility, Arcadis, UK

ARCADIS

15:30 - Airports as platforms for innovation

Lee Ebbutt, SVP technology and innovation – information technology, Hamad International Airport, Qatar

مطار حمد الدولي
Hamad International Airport
QATAR قطر

DAY 2, WEDNESDAY, MARCH 18

10:30 - How airports break the innovation deadlock

Shawn Richards, CEO and co-founder, Ink Innovation, Spain

ink

11:00 - The power of people + data: Driving smarter customer experiences

Mark Allen, innovation, data and IT director, Ethos Farm, UK
Ana Osuna, director – CSAT intelligence and strategy, Ethos Farm Americas, USA

PTE CONNECT

Exclusive networking

If targeted networking is what you need, PTE Connect gives you direct access to the people shaping the future of global aviation. This curated meeting space hosts focused one-hour sessions across two days of the show, allowing you to meet exactly the right groups, sectors and decision-makers without the noise. Please visit the website or scan the QR code to download the FREE event app for the latest updates.

SCAN THE QR CODE TO DOWNLOAD THE FREE EVENT APP

DAY 1, TUESDAY, MARCH 17

12:00 - 13:00
Hosted by Uber
Uber
Please check the website or app for details

14:00 - 15:00
Hosted by Sentrycs
sentrycs of ONDAS

14:00 - **The airport blind spot: Who controls the sky below 500 feet?**
Alon Shantzer, VP sales, Sentrycs

14:30 - **Q&A & networking**

DAY 2, WEDNESDAY, MARCH 18

10:00 - 11:00
Hosted by CVG Airports
CVG CINCINNATI/NORTHERN KENTUCKY INTERNATIONAL AIRPORT

10:00 - **Unexpectedly innovative: Rethinking how airports drive change**
10:15 - **Innovation departures lightning round**
10:25 - **Executive roundtables - gate discussions**

12:00 - 13:00
Hosted by ADB Safegate
ADB SAFEGATE

12:00 - **Intelligent apron: From prediction to action - opening address**
Regardt Willer, CMO and VP of business development, ADB Safegate

12:05 - **Panel discussion - How Europe's busiest airports are ending reactive turnarounds**
Peter Hakansson, head of product management, ADB Safegate
Neil Pritchard, efficient airport programme lead, Heathrow Airport Ltd
Wendy Griffiths, project manager, International Airlines Group
Aaron Martin, Heathrow innovation lead, British Airways

ADB SAFEGATE
Heathrow
IAG International Airlines Group
BRITISH AIRWAYS

12:20 - **Q&A**

12:30 - **Networking discussion with drinks**

14:00 - 15:00
Hosted by Smart Airport Systems
SAS SMART AIRPORT SYSTEMS
Please check the website or app for details

Exhibitor listings

+impact, Serco's advisory business
Booth: E135
Web: www.plusimpact.serco.com
+impact is an advisory business with a difference, combining practical insight with real-world, front-line operating experience gained through Serco. From passenger experience to resilience, digital transformation and sustainability, +impact helps aviation leaders solve complex challenges and deliver outcomes that matter most.

1Pax
Booth: C188
Web: www.1pax.com
1Pax is a forward-thinking architecture and innovation studio shaping the future of passenger experience. It integrates architecture, innovation, operations and sustainability into seamless, human-centered mobility ecosystems – anticipating needs, reducing friction and delivering scalable solutions that redefine how people move through infrastructure worldwide, guided by integrity, accountability and purpose at every scale.

A

A-Safe
Booth: D261
Web: www.asafe.com
A-Safe is the global leader in airport safety barriers. Its new barrier range delivers advanced protection for baggage halls, aprons and terminals, safeguarding people, vehicles and critical infrastructure. Independently tested to PAS 13 and TÜV Nord certified, A-Safe solutions are trusted by major international airports worldwide.

AAT Automation GmbH
Booth: D350B
Web: www.aat-gmbh.de
AAT Automation develops robotic baggage handling solutions for airports worldwide. Its systems automate baggage loading and unloading into aircraft containers, improving efficiency, ergonomics and turnaround times. With strong engineering expertise, AAT delivers reliable, scalable automation for modern airport operations.

Abomis Innovations Inc.
Booth: C275
Web: www.abomis.com
Visit the booth to see what Abomis can offer.

ACI
Booth: A8
Web: www.aci.aero
Airports Council International (ACI) World is dedicated to helping airports achieve operational excellence, safety and sustainability. It provides trusted industry data, policy advocacy, best-practice guidance and professional training that support continuous improvement. ACI's programs help airports deliver efficient operations and an enhanced travel experience for passengers around the world.

Acorel
Booth: B161
Web: www.acorel.com/en
Acorel's solutions provide real-time passenger flow management. Its Queue Management and Predictive Waiting Time System can be used in different places as it brings accurate and significant information for staff management optimization, customer experience improvement, passenger information, efficient passenger flow, checkout resources allocation, sizing toilet infrastructures, optimizing waiting time, etc.

Acquire Digital
Booth: B422
Web: acquiredigital.com
Acquire Digital delivers enterprise-grade digital signage and wayfinding software purpose-built for airports and transportation hubs. The company's platforms power pixel-perfect video playback, real-time information, advertising and intuitive passenger navigation across complex environments. Trusted by AV partners, Acquire Digital helps operators improve passenger experience, operational efficiency and commercial performance at scale worldwide today.

Actemium/TG Concept
Booth: B60
Web: tgconcept.com
TG Concept is the only French company covering the entire baggage handling value chain, from engineering to turnkey system integration, for both hold and cabin baggage. Driven by a team of experienced experts, TG delivers durable, low-carbon solutions. Actemium delivers bespoke services across 40 countries.

Actif Signal
Booth: B230
Web: www.actif-signal.com
Actif Signal designs, manufactures and installs airport signage, wayfinding and digital display solutions dedicated to optimizing passenger flow. From terminal facades to interior journeys, Actif's systems combine signage, static wayfinding and LED and LCD screens to deliver durable, high-visibility solutions tailored to complex, high-traffic airport environments, from curb to gate.

ADB Safegate
Booth: B239
Visit the booth to see what ADB Safegate can offer.

Adelte
Booth: B360
Web: www.adelte.com
Adelte is a leading international engineering company providing state-of-the-art equipment and services to airports and airlines worldwide. The company's complete line of highly effective and tailor-made solutions ranges from advanced passenger boarding bridges (PBB) and ground support equipment (GSE) to smart passenger terminal solutions and innovative global services.

AEC – Illuminazione Srl
Booth: C280/5
Web: www.aecilluminazione.com
Design and the pursuit of aesthetic and technical perfection have always been the essence of the AEC brand: a tradition in which the fusion of refined elegance, distinctive design and innovation guide the company's actions. The design of AEC's products is the perfect harmony between beauty, technology and performance.

AECOM
Booth: B269
Web: aecom.com/pte-world-2026/?utm_source=linkedin&utm_medium=event&utm_campaign=701pm00000qijqiy
Trusted by the world's leading airports, AECOM's global team of planners, architects, engineers and program management experts creates facilities that enhance operations, safety and performance for passengers, operators and communities. AECOM shapes future-ready, resilient aviation infrastructure and delivers certainty from concept through delivery. It is your strategic aviation infrastructure partner.

Aerivo
Booth: B120
Web: www.aerivo.com
60 years of experience and 400+ airports deployed. Aerivo Flightivity – total operational orchestration.

AeroCloud
Booth: C310
Web: www.aerocloudsystems.com
AeroCloud revolutionizes airport operations with modular, AI-driven solutions such as AOS for real-time management, PPS for seamless passenger processing and Optic for passenger flow insights using award-winning computer vision. Combining predictive analytics, biometric systems and robust cybersecurity, AeroCloud empowers airports to innovate, streamline processes and shape the future of aviation.

Aeroficial Intelligence
Booth: C149
Web: www.aeroficial.com
Aeroficial Intelligence provides the Cockpit Suite, a new software system supporting airport operations with real-time and predictive operational insights. Come visit the booth and explore!

Aeropax
Booth: E120
Web: www.aeropax.fr
Aeropax is a modular, foldable passenger boarding tunnel delivering fast deployment and premium flow anywhere. Lightweight, robust and aircraft-inspired, it installs without permanent infrastructure, protects passengers from weather, adapts to constraints and offers a cost-effective alternative to fixed jet bridges for airports.

Aertec
Booth: E280
Web: aertecsolutions.com/en/airports
Aertec is a strategic partner for airport operators, delivering efficient, sustainable and seamless airports through smart design and proven operational expertise. Aertec specializes in the airport sector, managing projects in all areas, from investment and design to operations consultancy and process improvement in terminals and airfields.

Agilent Technologies
Booth: C38
Web: www.agilent.com
Agilent, a global leader in analytical and clinical laboratory technologies, provides trusted answers that help scientists and clinicians solve scientific challenges, so they can bring great science to life.

AIA Life Designers
Booth: C188
Web: www.aialifedesigners.fr
Founded in 1965 by a team of architects and engineers, AIA Life Designers has grown into a leading multidisciplinary consultancy, uniting architecture, engineering, project management, urban planning and sustainable development within a single practice. It is today the leading architecture firm in France for the mobility sector.

AiQ Consulting
Booth: D190
Web: www.aiqconsulting.com
AiQ provides aviation consultancy including operations, efficiency, optimization, modeling and forecasting services. Working with airports and stakeholders to solve complex challenges, AiQ help clients understand and realize the impact of new disruptive technologies and business models, whether for investment decisions, infrastructure masterplanning, sustainability, achieving net zero or improving operational efficiency. Email adrian.todd@aiqconsulting.com or visit the booth.

AIR (Aviation Infrastructure and Resilience)
Booth: E135
Web: www.air-uk.net
AIR (Aviation Infrastructure & Resilience) is a new business media platform for aviation infrastructure operators, their stakeholders (including investors) and their upper tier supply chains. There is no equivalent open access platform in the UK.

Air Tech Italy
Booth: C280/11
Web: airtechitaly.com
Air Tech Italy is the association representing Italian companies that specialize in supplying products, technologies and services for airports, civil aviation authorities and air navigation service providers. The association's main goal is to support airport operators, civil aviation organizations and air traffic service providers with the right solutions – Made in Italy – for their needs.

Airport AI
Booth: B38
Web: www.airport.ai
Airport AI, now part of 15below, delivers instant, personalized passenger support across digital channels in any language. Built for complex airport environments, it automates routine queries while enabling human support when needed, helping airports improve service quality, reduce pressure on teams and create more connected passenger journeys.

Airport Innovation AS
Booth: E10
Web: www.airport-innovation.com
Airport Innovation designs solutions that integrate seamlessly with existing airport and airline systems, ensuring minimal disruption and maximum efficiency. By harnessing real-time data and predictive analytics, the company helps customers track bags more accurately, optimize operations through smart automation, and prevent costly errors before they happen.

Airport Intelligence
Booth: A50
Web: www.airportintelligence.com
Airport Intelligence powers smarter, more resilient airport operations, leveraging expertise in total airport management, passenger experience, sustainability and energy, safety compliance and risk and business continuity. Through co-development, it delivers data-driven solutions that optimize passenger, baggage, aircraft and cargo flows while empowering teams to sustain continuous improvement.

AirportCreators BV
Booth: C320
Web: www.airportcreators.com
A team of strategy consultants, project managers and principal engineers, AirportCreators clears the path for innovation and long-term value, putting forward non-traditional solutions that break with traditions. The company focuses on understanding and solving the real problem an airport is facing, realizing innovative and appraised concepts, end to end.

AirportLabs
Booth: C300
Web: www.airportlabs.com
AirportLabs is a global leader in aviation technology, delivering the industry's most advanced cloud-native SaaS suite. AirportLabs drives the operations of over 100 airports, including the world's busiest ones. It specializes in breaking down silos by providing a digital backbone to airports, airlines and ground handlers. Meet sales representative Ligiu Uiorean at the booth.

Airsphere GmbH
Booth: E249
Web: www.airsphere.de
Visit the booth to see what Airsphere can offer.

Airware
Booth: D151
Web: www.airware.aero
Airware is a mobile-first technology company dedicated to digital. Transforming airport passenger processing with a two-app vision: a seamless passenger smartphone journey and a powerful agent-facing mobile app. Together, these replace hardware-heavy systems with scalable software, enabling fast, efficient operations, lower infrastructure costs and better experiences for all.

Akto Space
Booth: E12
Web: www.aktospace.com
Akto Space designs autonomous, AI-powered mindfulness rooms for airports and high-traffic environments. The modular space offers short guided relaxation sessions using biometric feedback, lighting, sound and adaptive content to reduce passenger stress, improve well-being and enhance the overall terminal experience. Designed for seamless, unattended operation.

Alfyma
Booth: C122
Web: www.alfyma.fr
Alfyma specializes in baggage handling systems (BHS) and tray return systems (TRS), delivering efficiency and innovation to modern airports. Its automated solutions enhance passenger flow, improve security and optimize baggage processing for a seamless airport experience.

Alpha CIM
Booth: C188
Web: www.alpha-cim.com
Alpha-CIM provides SCADA and automation solutions dedicated to baggage handling systems (BHS), passenger boarding bridges (PBB), safety and security and airfield lighting. With more than 30 years of expertise in airport processes, the company delivers projects on time, ensuring seamless integration and no disruption to ongoing airport operations.

Alstef Group
Booth: C170
Web: www.alstefgroup.com
Alstef Group designs, integrates and maintains innovative baggage handling systems for airports worldwide. With over 60 years of expertise, it delivers efficient, reliable and future-ready automation solutions. The Alstef portfolio also includes advanced air cargo handling systems designed to optimize operations, enhance safety and improve overall airport performance.

Amadeus
Booth: D270
Web: www.amadeus.com/airport
Transform the airport experience. Ignite innovation. Build smarter – together. Join Amadeus at its booth for live solution demos, see what's new in the innovation showcase, and be part of the conversations that will shape the future of travel.

Ammeraal Beltech GmbH
Booth: C340D
Web: www.ammeraalbeltech.com
Ammeraal Beltech and Megadyne, being Ammega Group brands, have been supporting the airport industry for decades and understand its focus on improvement, mobility, customer service and the environment. They are developing belting solutions to help airports optimize their operations with a global network of manufacturing, distribution and service locations.

Amorph Systems GmbH
Booth: D370B
Web: www.amorphsys.com
Amorph Systems delivers proven software solutions for airport operators. Amorph.aero enables cloud-based terminal operations management with real-time passenger flow monitoring, prediction and planning. Amorph.senses adds lidar-based 3D perception for highly accurate, GDPR-compliant tracking of people and objects – supporting efficient, secure and cost-effective airport operations.

Analogic
Booth: B110
Web: www.analogic.com
Analogic is the leading provider of advanced CT aviation security solutions for airports and airlines worldwide. With 50 years of CT innovation, its imaging and detection algorithms enhance security, passenger experience and operational effectiveness. Analogic's systems, including ConneCT, eXpress and SeleCT, exemplify best-in-class solutions for explosives and prohibited items.

Anton Air Support
Booth: D64
Web: www.antonairsupport.com
Anton Air Support specializes in inspecting, refurbishing, maintaining and installing passenger boarding bridges (PBBs). With over 15 years of experience and independence from manufacturers, Anton delivers cost-effective, sustainable solutions that enhance efficiency and safety. The company's expertise ensures reliable, long-term performance for airports seeking to modernize and optimize infrastructure.

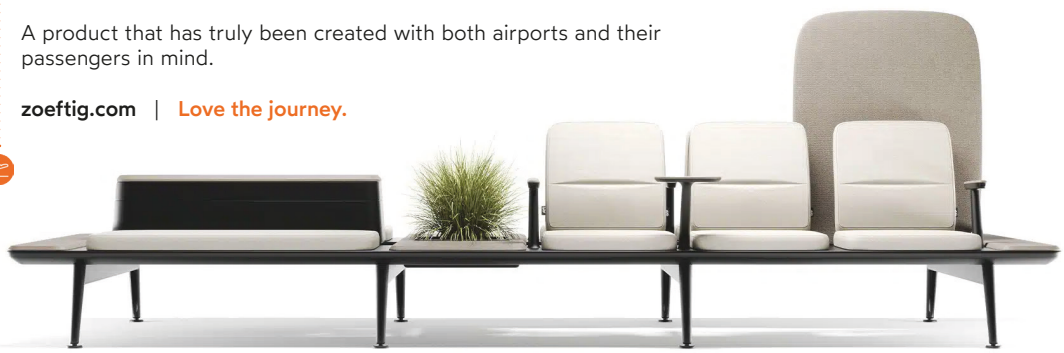

Stockholm Arlanda International Airport
Photography ©2026 Zoeftig Group

Vista by Zoeftig

Vista is the product that airports have been calling out for in modern times — a terminal seating option that's been purposely designed to meet the needs of all passenger profiles and offer them the ability to experience a first-class lounge feel, but in a general concourse setting.

A product that has truly been created with both airports and their passengers in mind.

zoeftig.com | **Love the journey.**

Aptaero
Booth: E240
Web: aptaero.com

Aptaero is the trusted link in every journey. It delivers departure control, offer management, digital identity, biometrics and airport visitor pass technology that makes travel efficient, secure and connected. Designed for ambitious operators, Aptaero's platform brings clarity, trust and performance to airports, airlines and ground handlers across the world.

Aqualex
Booth: C100
Web: www.aqualex.com/en

Aqualex: where water, design and convenience come together. The company provides drinking water systems and taps that supply perfectly filtered, chilled, sparkling and hot water whether you are at home or at work. Aqualex's water solutions combine innovation and design, tastefully bringing filtered drinking water into every environment.

ARC | CAST
Booth: E245
Web: www.arc.de

ARC is a global leader in airport simulation and process optimization. Its multi-award-winning CAST software delivers a powerful digital twin for strategic and tactical planning and operations. CAST solutions integrate with airport IT, enabling live data insights and real-time predictions for confident, data-driven decisions throughout daily operations.

Arcadis Consulting UK Ltd
Booth: D190
Web: www.arcadis.com

Arcadis is a global leader in sustainable design, engineering and consultancy for natural and built assets. With 36,000 professionals across 30+ countries, the company strives to improve quality of life through innovative, digital solutions. Arcadis' expertise includes delivering innovative asset and infrastructure solutions for airports and their stakeholders worldwide.

Arconas
Booth: D230
Web: www.arconas.com

Arconas is the leading manufacturer and distributor of high-performance furniture for airports and passenger terminals in North America. It is dedicated to enhancing the passenger experience from arrival to departure with a comprehensive suite of seating, power, waste, recycling and counter solutions.

Arlande Aviation
Booth: C15
Web: www.arlande.nl/aviation

For over 30 years, Arlande has partnered with international airports and suppliers to drive innovation and digital transformation, providing end-to-end consultancy, from strategy to implementation, that turns complex passenger and baggage challenges into secure, seamless and future-ready passenger experience.

Artelia
Booth: E210
Web: www.arteliagroup.com

Artelia is an international multidisciplinary consultancy, engineering and project management group specializing in mobility, water, energy, building and industry. With 10,100 employees and a consolidated turnover of €1.15bn in 2024, Artelia is one of Europe's leading engineering groups, present in over 40 countries worldwide.

Arup
Booth: A100
Web: www.arup.com

Arup has the global expertise to put forward-thinking strategy, design and technology into practice, whether advising on airport planning, policy or finance, or delivering smarter, sustainable aviation infrastructure and operations. Working collaboratively with clients, Arup solutions deliver significant business benefits by balancing the needs of people, processes, technology and environment.

Assa Abloy Entrance Systems AB
Booth: D251
Web: www.assaabloy.com/group/en

Truly global, uniquely local, offering cutting-edge biometric technology for businesses, governments, airports, hospitals, schools and more, Assa Abloy touches every part of every day. The company operates in over 70 countries and is specialized in secure passenger control, boarding gates, access control, biometrics, parking technology and much more.

Assaia International Ltd
Booth: D215
Web: www.assaia.com

Assaia offers AI-powered software solutions for airports, airlines and ground handlers to optimize turnaround and apron operations. Its platform uses video analytics to provide real-time visibility, predict delays and ensure safety and efficiency on the tarmac.

Astra Group
Booth: E272
Web: www.astragroup.co.uk

Astra Group, established in Manchester in 1984, is a UK leader in digital and architectural signage. It delivers innovative, world-class solutions for hospitality, retail, leisure, travel and out-of-home media. Trusted by major venues, Astra provides high-impact, bespoke visual solutions with a turnkey approach, integrating cutting-edge technology and robust production.

ATG Airports Limited
Booth: D66
Web: www.atgairports.com

ATG is a global specialist in airfield ground lighting, delivering intelligent AGL control and monitoring systems. Designed for operational confidence, ATG's solutions provide real-time visibility, automated fault detection and data-led maintenance, enhancing safety, regulatory compliance and whole-life value through long-term partnership and innovation.

AtkinsRéalis
Booth: E200
Web: www.atkinsrealis.com

Created by the integration of long-standing organizations dating back to 1911, AtkinsRéalis is a world-class engineering services company dedicated to engineering a better future for our planet and its people. It creates sustainable solutions that connect people, data and technology to transform the world's infrastructure and aviation systems.

Atlasavia GmbH
Booth: C340i
Web: www.atlasavia.de

Atlasavia provides ground handling training mock-ups and simulators, and supplies ground support equipment (GSE), including ambulifts and catering highloaders.

AtlasIED
Booth: A104
Web: www.atlasied.com

AtlasIED's Globalcom ecosystem has become an industry default for mass communication, notification and announcement control systems in airports globally. The company understands the importance of clear communication within public transportation facilities and it continues to push the innovation and reliability required to adhere to life safety standards.

Atos Information Technology GmbH
Booth: D335B

Web: atos.net

Atos enables digital excellence in aviation. Through AI, cloud, analytics and cybersecurity solutions, Atos helps airlines, airports and aerospace partners optimize operations, safety and sustainability. Visit the booth to discover how Atos drives smarter, safer and more efficient journeys across the aviation ecosystem. Contact Thomas Gawel, thomas.gawel@atos.net.

Atrius
Booth: E205

Web: atrius.com/solutions/indoor-maps-navigation-wayfinder

Atrius empowers its partners to deliver passenger experiences that are stress-free, accurate and intuitive. Whether helping an airline minimize missed connections or helping an airport operate more efficiently, Atrius Wayfinder transforms complex spaces into easy-to-navigate journeys.

Aurrigo
Booth: D262

Web: aurrigo.com

Aurrigo is a specialist in autonomous technology solutions for the aviation, ground handling and cargo industries. With seven vehicles developed to date, Aurigo tackles multiple use cases from moving passengers or crew, to baggage and cargo. These solutions can be utilized to reduce costs, resolve operational issues and tackle labor shortages.

Aurrigo International, plc
Booth: E165

Web: www.aurrigo.com

Aurrigo is a specialist in autonomous technology solutions for the aviation, ground handling and cargo industries. With seven vehicles developed to date, it can tackle multiple use cases from moving passengers or crew through to baggage and cargo. These solutions can reduce costs, resolve operational issues and increase sustainability.

Auweko GmbH
Booth: D230

Web: www.auweko.de/en

Auweko develops and manufactures high-quality stainless steel waste and recycling systems for airports and public spaces. In close cooperation with airports and safety experts, the company provides durable, fire-resistant and security-compliant solutions for all areas of the airport environment.

Aveo
Booth: D52

Web: www.aveo.is

The Orion Driver Airside Driving Simulator allows airports to train drivers safely and cost-effectively within a digital twin of their own airport. From daily operations to challenging weather and low visibility conditions, it prepares drivers for real-world scenarios without the risk of incidents or the disruption of operations.

Aviation Solutions by Schiphol Group
Booth: E265

Web: www.schiphol.nl/aviation-solutions

Known for Deep Turnaround and Travor, Aviation Solutions is an independent subsidiary of Schiphol Group delivering high-quality, reliable airport solutions globally. Deep Turnaround optimizes aircraft turnaround processes, while Travor enhances the experience for passengers in the terminal. Together, they drive efficiency, improve passenger satisfaction and accelerate airport innovation.

Aviation Supply Chain Ltd
Booth: D20

Web: www.aviationsupplychain.com

In airports, every connection matters. Aviation Supply Chain is the digital portal that brings the airport community together. It's a reliable route into airport projects and procurement, and a centralized hub to engage and collaborate, making it easier to contact the right businesses, build partnerships, discover opportunities and increase visibility.

AviaVox
Booth: B370

Web: aviavox.com

AviaVox transforms airport and airline communications with intelligent, natural-sounding automated announcements in 40+ languages. Seamlessly integrated with PA infrastructure and mobile channels, the technology delivers real-time, dynamic messages that enhance passenger experience and operational efficiency. Airports and airlines worldwide trust AviaVox for human-like voice clarity and proven reliability.

Aviramp Ltd
Booth: A16

Web: www.aviramp.com

Aviramp is the world's leading manufacturer of aircraft boarding ramps, revolutionizing passenger safety and accessibility at airports across the globe. The company's pioneering step-free, low-angle ramps provide a safe, dignified alternative to traditional stairs when aircraft are parked on remote stands.

Avius Ltd
Booth: D51

Web: avius.com

Avius helps airports capture real-time passenger feedback across the entire journey, from terminals and security to restrooms, retail and staff services. Its intuitive feedback solutions capture both positive and negative experiences, turning in-the-moment insights into actionable data with automated alerts and clear reporting dashboards for continuous improvement.

AvLogix Pty Ltd
Booth: A76

Web: www.avlogixsolutions.com

AvLogix Solutions is an independent engineering consultancy specializing in baggage, air cargo and parcel freight handling facilities. It provides advisory, design and project management services worldwide. From concept to live performance monitoring, AvLogix delivers innovative, cost-effective solutions using advanced engineering tools, data analysis and simulation platforms.

Avtura
Booth: D55

Web: avtura.com

Avtura is a provider of intuitive software solutions for airport operations in 100+ airports globally. Its mobile and web-based SaaS solutions help airports, airlines, and ground handlers automate and connect their operational processes across the vast array of ground handling operations and contract/invoice management, thereby improving performance and profits.

Axulus Reply
Booth: C113

Web: axulus.io

As an integrated toolchain, Axulus provides a step-by-step methodology to identify use case ideas, configure solutions and roll them out with scalable implementation workflows. It is based on a subscription model for users and partners and enables the definition, design and development of industrial projects.

AeroCloud

AeroCloud CUPPS

One Platform. One Airport. Every Airline Ready.

Airports are under pressure to do more with less. More airlines, more passengers, more change, without adding complexity. AeroCloud CUPPS is a modern, cloud-based Common Use Passenger Processing System designed to give airports total operational control, while enabling airlines to operate independently and securely from the same shared infrastructure.

Built for today's airport environments. Ready for tomorrow's growth.

Key Features

Simple Main Menu

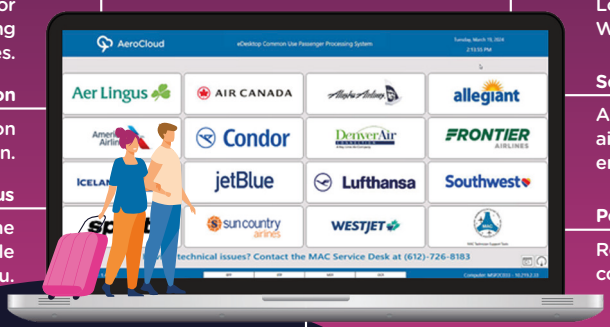

Intuitive airport interface for configuring and managing multiple airlines.

Multiple Airlines, One Workstation

Independent airline operations on the same shared workstation.

Airline App Sub-Menus

Launch multiple airline applications from a single controlled menu.

Secure Windows Environment

Locked-down, enterprise-grade Windows security built for airports.

Secure Airline Login

Authenticated access ensures airlines only see their own environment.

Peripheral Status Bar

Real-time visibility of device connectivity and fault status.

Built-In CUPPS / Serial Webpage

On-device CUPPS and serial management for fast support and troubleshooting.

Why AeroCloud CUPPS?

- **Designed for real airport operations**
- **Proven across complex multi-airline environments**
- **Reduces operational friction for airports and airlines**
- **Secure, scalable, and future-ready**

See it live...

Visit us at Stand C310 or www.aerocloudsystems.com

Azinq
Booth: C319
Web: www.azinq.com

Azinq specializes in software and IT services for airports. Its Airport Hive suite consists of modern applications including AODB, RMS, billing, FIDS and more, along with APIs and integrations designed to connect critical airport and airline systems. Airport Hive helps airport teams improve operational control, real-time visibility and day-to-day decision-making.

B

bagchain BV
Booth: A78
Web: www.bagchain.aero

bagchain is a leading provider of mobile baggage check-in solutions, enabling passengers to check in baggage remotely in a simple, fast and convenient way. bagchain's cloud-based ecosystem connects securely to airline systems and integrates seamlessly with the company's new self-bag-drop and hybrid self-bag-drop solutions at the airport.

Baggage Media
Booth: C90
Web: www.baggagemedia.com

Baggage Media is the marketing agency that speaks fluent baggage. It helps airports, airlines and tech suppliers turn complex operations into stories people understand and remember. Through content, PR and podcasts, Baggage Media connects baggage innovation with decision-makers who actually care. Curious? Come talk bags at the booth!

BagsID
Booth: A80
Web: www.bagsid.com

BagsID introduces a fundamentally new approach to managing both checked and carry-on baggage. By replacing error-prone physical tags and legacy tracking technologies with image-based tracking and advanced data analytics, BagsID delivers measurable improvements in cost efficiency, operational performance, security and the overall passenger experience.

Baker Bellfield
Booth: A14
Web: www.bakerbellfield.co.uk

Baker Bellfield is a global supplier of airport interior and furniture solutions, including ASIAD-compliant check-in counters, security preparation furniture, wall linings, wayfinding monoliths and beacons, passport control counters and airside works including retail frontages, gate counters, customer podiums, card reading shelves, security counters and passport control and immigration counters.

Barco Control Rooms
Booth: D335B
Web: www.barco.com/en/solutions/control-rooms

Empowering your excellence: that's Barco's ambition. Barco has been building control room workflow and visualization solutions since 1994, so it knows what matters to your operations. Today, it is still the number one choice for control room professionals who want to stay on top of their situational awareness.

Battocchio Srl
Booth: C280
Web: www.battocchio.com/it/home

Battocchio designs and manufactures membrane, touch and advanced HMI solutions for professional control systems and critical environments. In the airport sector, its interfaces support terminal management, control stations and self-service systems, ensuring reliability, precision and safety through durable materials, capacitive technologies and intuitive design. Battocchio holds ISO 9001 and 14001 certifications.

BB Computerteknikk AS
Booth: B340
Web: www.bbcairport.com

Tagomat, in combination with Bagomat and MyAirport Cloud DCS Gateway, contributes greatly to optimizing efficiency and improving passenger flows. BB Computerteknikk (BBC) has, since 2004, based the development of its self-service solutions on three key elements with the passenger, airline and airport in mind: quick, intuitive and easy.

Bechtel Limited
Booth: E135
Web: www.bechtel.com

Bechtel is a trusted engineering, construction and project management partner to industry and government. Driven by exceptional people, it aligns capabilities to client goals to deliver lasting impact. Since 1898, Bechtel has completed 25,000+ projects in 160 countries across the energy, infrastructure, mining, metals, nuclear, security and environmental markets.

Beltcon GmbH
Booth: C350C
Web: www.beltcon.de

Beltcon is a Germany-based manufacturer of baggage conveying systems for airports. It designs and delivers check-in conveyors, baggage carousels, vertical conveying solutions and system integrations. With in-house production and a flexible engineering approach, Beltcon provides fast, reliable and customized solutions for new installations, upgrades and retrofit projects worldwide.

Bemo Systems GmbH
Booth: C370E
Web: www.bemo.com

Bemo is your system partner for metal building envelopes of all sizes. Worldwide, the company creates unique roofs and façades in diverse materials, shapes and colors. Its 360° service covers engineering, individual consulting and production in the factory or mobile on-site for sophisticated architecture and special solutions.

Beonic
Booth: B420
Web: www.beonic.com

Beonic's AI-driven platform transforms airports into intelligent, adaptive environments. By analyzing billions of passenger journeys and real-time movement data, Beonic helps airport operators optimize passenger flow, enhance safety, improve operational efficiency and deliver seamless traveler experiences all while supporting sustainability and maximizing commercial performance.

Beumer Group
Booth: C150
Web: www.beumergroup.com

Beumer Group provides valuable insights into the capabilities of modern baggage handling systems. Its dedicated specialists will guide delegates in making informed choices regarding the right BHS technology. Additionally, they will display the new Sectro solution, which transforms passenger screening for both travelers and operators.

Bica
Booth: C32
Web: www.bicasolutions.uk

Bica empowers airports with intelligent, data-driven waste solutions. The technology cuts costs, streamlines operations and delivers full transparency on waste volumes. Bica develops high-quality waste solutions, customized to meet your exact requirements in the airport. Contact Flemming Rasmussen, CEO, +45 66449000, fr@bicasolutions.dk or visit the booth.

BigBear.ai
Booth: B81
Web: www.bigbear.ai

BigBear.ai fuses artificial intelligence with deep mission expertise, empowering decision-makers and operators to act with speed, precision and confidence. BigBear.ai is a pioneer in the operationalization of AI and ML for mission-critical environments, safeguarding national security and strengthening travel and trade across commercial, government and defense organizations.

BNP Group
Booth: D214
Web: thebnpgroup.com

BNP Group is a multidisciplinary consultancy providing expertise in airport infrastructure, operations, ICT and supply chain. Services span apron and gate planning, baggage and cargo systems, terminal logistics, operations optimization, technology integration and digital transformation. With 54+ years of experience, BNP Group delivers tailored, efficient, sustainable and cost-effective solutions.

Boplan
Booth: D89
Web: www.boplan.com/en-uk

Founded in 1999 in Wevelgem, Belgium, Boplan develops and manufactures high-quality polymer safety solutions for industrial environments and sports events. Active in more than 80 countries, Boplan is recognized for its innovative and sustainable impact protection systems, setting the benchmark for impact absorption. Boplan protects people, vehicles and infrastructure.

Bradshaw Electric Vehicles
Booth: D30
Web: www.bradshawev.com

Bradshaw Electric Vehicles designs airport-ready electric transportation for passengers, PRM assistance and terminal operations. Built for safety, comfort and controlled movement in high-footfall areas, its vehicles support efficient transfers, reduced emissions and reliable daily uptime. Trusted by airports and service providers, Bradshaw helps keep terminals moving smoothly every single day.

Bridge Technologies and Consultancy
Booth: B418
Web: www.bridgeist.com

Bridge delivers innovative aviation IT solutions tailored to airports, airlines, ground handlers and ANSPs. The company designs and implements flexible, scalable and configurable turnkey systems that optimize operations and reduce costs. Leveraging cutting-edge technologies, Bridge transforms complex requirements into sustainable, high-performance products supporting long-term operational excellence and strategic partnerships.

Brisk Group Consulting Limited
Booth: D190
Web: www.briskgrp.com

Brisk Group specializes in project and design management for airport design and construction projects. It facilitates the design process to maximize architect, engineering and client team efficiency in delivering complex multidisciplinary airport infrastructure. Brisk Group balances time, cost and quality to support successful project outcomes and optimize value for clients.

British Aviation Group
Booth: E135
Web: www.britishaviationgroup.co.uk

The British Aviation Group is the leading representative body for British companies involved in aviation and airport development and operations. It works with the UK Department for Business and Trade to help global aviation clients connect with the world-class expertise of the British aviation sector.

Brock Solutions
Booth: D75
Web: www.brocksolutions.com

Brock Solutions is transforming baggage and passenger systems for an evolved world. It provides industry-leading automation projects, software solutions, sustainment and consulting services that reduce operating costs and extend the life of existing systems. This improves operations in a way that drives measurable value for customers.

Bruker Optics GmbH & Co. KG
Booth: A26
Web: www.bruker.com/en/products-and-solutions/cbrne-detectors.html

Bruker, the gold standard in CBRNE, showcases two explosives trace detectors (ETD) for access and cargo control based on ion mobility spectrometry: the portable benchtop device DE-tector flex and the handheld instrument RoadRunner – both ECAC certified and trusted by a worldwide customer base.

BSI
Booth: D62
Web: www.bsigroup.com

BSI partners with airports and their supply chains worldwide, delivering 360° solutions across service excellence, sustainability, safety and resilience. From supporting London Luton Airport through the Service Excellence Kitemark to working with Gatwick Airport on PAS 2080 carbon management, BSI helps airports build trust, improve performance and enhance passenger experiences.

Buro Happold
Booth: G220
Web: www.burohappold.com

Buro Happold is an international, integrated consultancy of engineers, designers and advisers. For 50 years, it has built an unrivalled reputation by delivering creative, value-led solutions for the benefit of people, places and planet. The company's global network of experts helps clients solve complex challenges across terminal expansion or new-build projects.

C

Cabinet Louis Reynaud – CLR Labs
Booth: A4
Web: www.cabinet-louis-reynaud.fr

Your conformity assessment body (CAB) in the digital age! Cabinet Louis Reynaud is a conformity assessment body for the areas of digital identity, biometrics, cybersecurity of products and information systems, artificial intelligence and trusted service providers. CLR is an expert in entry/exit systems, automatic border management, DTC, MDL and mobile security.

CargoLEV BV
Booth: A93
Web: cargolev.com

CargoLEV designs fully electric, whisper-quiet vehicles for maximum maneuverability, ideal for PRM transportation. With 20+ years' experience, it delivers safe, comfortable and efficient solutions, fully developed and made in the Netherlands. CargoLEV also offers street-legal light electric vehicles for cargo transportation. Discover the future of PRM mobility at CargoLEV!

CASRI (Hainan) International Technology Development Co. Ltd
Booth: B58
Web: www.caacetc.com

CASRI (Hainan) International Technology Development, a subsidiary of CAET, serves as the international business platform under CASRI. It focuses on overseas market expansion, providing a full range of services including engineering construction, equipment sales, agency services, system integration and technical support for civil aviation airports, ports and related transportation links.

Cassioli Airport Division Srl
Booth: B92
Web: www.cassioli.com

Cassioli is an Italian leader in airport baggage handling and automation. The company designs, manufactures and integrates reliable solutions, combining innovation and efficiency: BHS (carousels, conveyors, check-in counters), ATRS (automatic tray return systems) and ULD stocking. Sales contact: Valerio Del Giorno, airport division sales manager, valerio.del.giorno@cassioli.com, mob: +39 335 7418041.

Cast Connex UK Ltd
Booth: G120
Web: www.castconnex.com

Cast Connex specializes in cast steel components that simplify design, enhance performance and elevate the architectural expression of structural steel. The company's standardized and custom castings are ideal for airport terminals, where exposed steel structures must meet demanding aesthetic, structural and fabrication requirements.

CCM Srl
Booth: B200
Web: www.ccmairports.com

Visit the booth to see what CCM can offer.

CEIA SpA
Booth: B130
Web: www.ceia.net

CEIA is a leading manufacturer of security screening equipment, offering walk-through metal detectors with extremely high performance in both detection and throughput, hand-held metal detectors and liquid explosive detection systems, as well as shoe metal and explosive detectors (Samdex) for automatic detection of explosives and metallic threats concealed in shoes.

Centre for Research and Technology Hellas, Information Technologies Institute
Booth: E14
Web: www.iti.gr

Einstein is proposing a pre-registration app that streamlines border crossings by allowing travelers to securely prepare their journey in advance. Using passport scanning, biometrics and NFC technology, it reduces waiting times, improves accuracy and enhances the overall traveler experience for border checks.

Ceventas
Booth: E130
Web: ceventas.com

Do you know what your workforce needs to look like tomorrow? From workforce analysis to training needs assessments, LMS implementation and a catalog of 150+ ACI-accredited online courses, Ceventas helps airports get the right people, with the right skills, in the right roles, every time.

Chapman Taylor LLP
Booth: D190
Web: www.chapmantaylor.com

Chapman Taylor is a global practice of architects, masterplanners and interior designers. A leader in design in the aviation sector for 40 years, Chapman Taylor has cultivated partnerships with many of the world's leading clients, contractors and investors. It designs commercially and operationally successful passenger-focused environments.

China-Card Information Technology Co. Ltd
Booth: A38
Web: www.ccitbj.com/

Founded in 2014, China-Card Information Technology specializes in industrial ID and document reading devices and systems. It serves key sectors including high-speed rail, civil aviation, banking, hotels and border control.

Cincinnati/Northern Kentucky International Airport
Booth: D262
Web: www.cvgairport.com

Cincinnati/Northern Kentucky International Airport (CVG) connects the region to the world through innovation and global service. With 55+ non-stop destinations, transatlantic flights to London and Paris and major cargo hubs for Amazon Air and DHL, CVG drives growth, tests new ideas and supports a US$10.5bn regional economy.

CLX Engineering
Booth: C90
Web: www.clxengineering.com

CLX Engineering is an industrial automation and software integration company serving airports, airlines and critical infrastructure. It designs, manufactures, installs and supports intelligent control systems that improve safety, efficiency and reliability. The team delivers turnkey solutions including autonomous docking, IoT monitoring, SCADA platforms, analytics, maintenance and real-time connectivity.

Cobot Lift
Booth: D335E
Web: cobotlift.com

Visit the booth to see what Cobot Lift can offer.

Cognex UK Ltd
Booth: C114
Web: www.cognex.com

Come experience the future of baggage tracking with Cognex at PTE 2026. Preview the latest automated tag reader (ATR) with superior scanning coverage for fewer lost bags, fast, efficient setup and deployment for simple installation, and Cognex's extensible platform for seamless upgrades and easy partner integration.

A NEW DIMENSION IN AIR TRAVEL

Gentilhomme is a creative, and an award-winning multimedia studio specializing in immersive environments, interactive installations and multimedia storytelling. The studio designs, strategizes and delivers end-to-end experiences that connect people and places through art, emotion and technology. From technical strategy to production and integration, the studio partners with clients brands and organizations as creative consultants, shaping every project with purpose and intention. Its work covers international airports, large-scale installations, events and brand activations, always with the goal of sparking imagination and emotions.

GENTILHOMME

Learn more about what
Gentilhomme can do for your Airport.
gentilhomme.com

Cognitec Systems
Booth: D370E

Web: www.cognitec.com

Cognitec is the only company worldwide that has worked exclusively on face recognition technology since its inception in 2002, offering products for facial image database search, recorded video investigation, real-time video screening and people analytics, border control, ISO-compliant photo capturing and facial image quality assessment.

Collins Aerospace
Booth: D179

Web: www.collinsaerospace.com

Collins Aerospace, an RTX business, is a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry. Collins Aerospace has the extensive capabilities, comprehensive portfolio and broad expertise to solve customers' toughest challenges and to meet the demands of a rapidly evolving global market.

Connected Places Catapult
Booth: D190

Web: cp.catapult.org.uk

The Connected Places Catapult is the UK's innovation accelerator for cities, transportation and the built environment. It helps grow the UK economy by driving the commercialization of emerging innovations and new technologies in transportation and the built environment in UK towns and cities.

Construct Invest
Booth: D9

Web: www.constructinvest.com

Construct Invest is revolutionizing sustainable airport ground transportation through cutting-edge autonomous vehicle technologies. Its innovative solutions deliver smarter, greener transit systems, enhancing the passenger experience while reducing costs by 80% compared to traditional systems. Construct Invest is shaping the future of airports with next-generation mobility solutions that prioritize efficiency and sustainability.

Copenhagen Optimization ApS
Booth: D213

Web: www.copopt.com

Copenhagen Optimization helps airports mitigate capacity constraints with insights only airport people can bring. The company's cloud-based software Better Airport uses data, AI and advanced mathematical algorithms to bring clarity and confidence to plans, data and complex decision-making. Better Airport is live in operations in about 50 medium and large airports globally.

Costain
Booth: D190

Web: www.costain.com

Costain creates connected, sustainable infrastructure that enables people and planet to thrive. With 160 years' experience, Costain supports the UK aviation sector across the full project lifecycle – providing consultancy, engineering and complex program delivery to optimize airport infrastructure, accelerate net zero, enhance passenger experience and deliver resilient, sustainable capacity.

Creative Triangle
Booth: C78

Web: www.creativetriangle.co.uk

Creative Triangle is an aviation communications specialist, helping to deliver seamless passenger experiences across the UK's leading airports and their partners, including Heathrow, MAG, Edinburgh and Birmingham. Creative Triangle delivers fully accessible, inclusive publications, campaigns, signage, maps, large-format graphics, animation, ORAT, HS&E and internal communications.

CSE Hospitality
Booth: B406

Web: cse.is/hospitality

CSE Hospitality delivers high-end active entertainment solutions for hotels, resorts, cruise ships and airports, creating unforgettable guest experiences. Pre-paid card access drives revenue through timed play, while placement in high-traffic areas boosts F&B sales. Engage guests, enhance stays and transform hospitality spaces into vibrant hubs of fun.

CU Phosco
Booth: E135

Web: www.cuphosco.com

CU Phosco is an airport lighting specialist offering an end-to-end lighting service, from design and manufacture to installation and maintenance. Established in 1923, the company supplies high masts, columns and luminaires worldwide, trusted across roads, airports, ports, telecoms and sports for performance in the most demanding environments.

Cubiquity Media Limited
Booth: C42

Web: www.cubiquitymedia.com

Cubiquity is an award-winning media procurement agency, delivering sustainable aviation print solutions, global logistics and online procurement systems backed by first-class creative design. Cubiquity supports over 20 airlines across 500 airports with bespoke print, design and logistics, driving efficiency and cost savings through industry expertise and innovative procurement technology.

Cundall
Booth: D190

Web: www.cundall.com

Cundall provides multidisciplinary consulting and design services for complex aviation projects, including end-to-end design of passenger terminals and auxiliary facilities such as maintenance bases, cargo hubs and bus and rail terminals. The company's expertise also covers estate management, systems integration, aircraft hangars, on-site hotels and premium passenger lounges.

Curie Technologies Inc.
Booth: A2

Web: www.curietechnologies.com

Curie Technologies: the future of security equipment management! Curie provides actionable insights on security availability and performance in a single platform. Connect equipment data with a universal equipment ID across internal and external stakeholders for the full picture on your mission-critical equipment.

Custom
Booth: C249

Web: www.custom.biz

Custom designs and delivers hardware and software solutions to support its customers' business needs in a variety of different vertical markets. Custom's complete solutions for the aviation industry simplify all printing and control processes in airports, especially when it comes to printing boarding cards, luggage labels and plane tickets.

D

DAAV
Booth: C15
Web: www.daav.ch
Visit the booth to see what DAAV can offer.

Daia
Booth: A13
Web: www.daia.tech
Airport OneSight gives your airport a unified 360° data view – operations, revenues, routes, parking – with instant history, improvement insights and short to long-term predictions. Optimize services, cut costs and unlock new revenue. Experience OneSight tracks daily passenger-journey quality. Visit the booth to discover fast, simple, cost-effective implementation.

Daifuku
Booth: D155
Web: www.daifukuatec.com
Daifuku delivers value for airports and airlines globally. It provides solutions for self-service technologies, baggage handling systems, checkpoint security screening, operations and maintenance, airport operating systems and baggage software. Stop by the booth to see Daifuku's end-to-end solutions and to discuss how the company can exceed your goals.

Daktronics – dvLED Solutions
Booth: A94
Web: www.daktronics.com/en-us/markets/transportation/airports
Daktronics supports airports worldwide with reliable, high-performance LED display solutions backed by global manufacturing, regional local expertise, and around-the-clock international service. From FIDS and wayfinding to experiential dvLED installations, Daktronics delivers clarity, efficiency and long-term value – empowering airports of all sizes to enhance operations and passenger experiences with dynamic video systems.

Damarel Systems International Ltd
Booth: A24
Web: www.damarel.com
Damarel is showcasing a full range of solutions to help airlines, airports and ground handlers automate and optimize their business. From its L-DCS airline departure control system to its class-leading FiNDnet turn management, service capture and airline billing suite, the company helps reduce costs and improve under- and over-wing operations.

Dan Dryer AS
Booth: D38
Web: www.dandryer.com
Dan Dryer designs and manufactures hygiene solutions for commercial and public restrooms worldwide along with customized hygiene solutions built to meet the toughest industry standards.

Danlex
Booth: E19
Web: www.danlex.bg
Danlex has over 30 years of experience as a service provider of x-ray systems, operating across the Bulgarian, Serbian and North Macedonian markets. Over the past seven years, the company has developed PM4X, the world's first AI-driven maintenance solution for x-ray systems.

Dataogic Srl
Booth: C280
Web: www.datalogic.com
Datalogic, a global leader in automatic data capture and industrial automation, offers comprehensive solutions to help airlines and airports address baggage traceability gaps while meeting IATA standards. Its offerings include handheld scanners for check-in, mobile computers for baggage reconciliation and stationary industrial barcode reading technology for automated belt tracking systems.

De-Wipe Limited
Booth: E16
Web: www.dewipe.com
De-Wipe manufactures scientifically proven decontamination solutions designed to help reduce the risk of occupational cancer. Airside workers are exposed to harmful ultra-fine particles (UFPs) that can embed themselves on the skin, increasing long-term health risks. De-Wipe's products effectively remove these contaminants to support safer working environments.

Deerns Group BV
Booth: D245
Web: www.deerns.com
Deerns is an engineering firm specializing in MEP design, airport building systems and integration. It creates the technical backbone for complex projects, enabling smart, sustainable infrastructure. The company's expertise in airport building services, special airport systems and systems integration ensures efficient, reliable operations through one design for diverse technical requirements.

Delabie UK Ltd
Booth: C70
Web: www.delabie.com
Delabie is Europe's leading manufacturer of water controls for commercial and public environments with over 30 years' experience of providing innovative, hygienic and sustainable solutions for education, healthcare and highly frequented places. Delabie also offers a complete range of washroom equipment to meet the needs of all users.

Derlot Group
Booth: F220
Web: www.derlot.com
Derlot is an Australian brand driven by collaboration, designing contemporary furniture for a global community. The company sees design as a force for shaping the way we live, work and move through the world. Derlot's philosophy is rooted in the belief that better environments lead to better experiences.

DESKO GmbH
Booth: C189
Web: www.desko.de
With 35 years of experience in the airline and airport sector, DESKO is your ideal partner for passport and boarding pass scanning, access control, security checks and passenger handling. For more information on its products and solutions, please visit www.desko.com.

Develop Consulting Limited
Booth: D190
Web: develop-consulting.co.uk
Develop Consulting is a UK-based operational improvement consultancy working with airports and aviation partners to improve performance across security, passenger flow, workforce and commercial operations. Using hands-on, Lean-based methods, Develop helps airports manage growing demand, improve efficiency and safety, increase profitability and deliver a better end-to-end passenger experience.

Digicon SA
Booth: B160
Visit the booth to see what Digicon can offer.

Dimaim Systems SL
Booth: B106
Web: www.dimaim.com

Dimaim Systems is a Spanish engineering company specialized in passenger boarding bridge (PBB) automation, modernization and control systems. It designs and manufactures in-house electrical panels, remote control solutions and SCADA systems, delivering reliable, flexible and cost-effective upgrades for international airports worldwide. Email: info@dimaim.com.

Dimark SA
Booth: B149
Web: www.dimark.eu

Dimark is an engineering-driven provider of advanced baggage handling systems for airports worldwide. The company designs, manufactures, integrates and commissions complete BHS solutions, combining proprietary software, in-house hardware and operational expertise. Dimark systems support greenfield and brownfield airports, delivering reliability, scalability and measurable operational impact.

Dinobus
Booth: C10
Web: dinobus.eu

Dinobus designs and manufactures 100% electric airport shuttle buses, combining high quality, competitive pricing and fast, responsive support. The company's zero-emission vehicles deliver reliable performance and operational efficiency. Dinobus focuses on long-term partnerships – taking care of you and your operation every step of the way.

Dolphin Solutions Ltd
Booth: B54
Web: dolphinsolutions.com

Dolphin Solutions transforms commercial washrooms with innovative, sustainable products and expert consultancy. Partnering with developers, architects and contractors, the company delivers bespoke designs, flawless performance and long-term value. From concept to completion, its durable, high-quality products and integrated solutions ensure standout washroom fitouts that exceed environmental and design standards.

dormakaba Deutschland GmbH
Booth: E230
Web: www.dormakaba.com

dormakaba is excited to showcase its cutting-edge access solutions that enhance security and streamline the passenger journey. The company's futureproof technologies prioritize automation, sustainability and mobility, ensuring smooth and secure airport experiences from check-in to boarding.

Drees & Sommer SE
Booth: C350F
Web: www.dreso.com

Drees & Sommer is a partner-managed, global consulting company that provides a single source of consultation and implementation services. It focuses on sustainable, innovative and economical solutions for the real estate, infrastructure and industry markets. Founded in 1970, today the company employs 6,500 people at over 70 offices.

DroneShield Group Pty Ltd
Booth: E295
Web: www.droneshield.com

DroneShield's advanced solutions provide seamless, reliable protection against drone threats, empowering military, law enforcement and commercial sectors to operate with confidence. With cutting-edge AI technology and seamless interoperability, DroneShield delivers precision and security in increasingly complex environments.

DS Brown
Booth: C36
Web: dsbrown.com

Established in 1890, DS Brown has a rich history of providing innovative products for bridges, highways, airports and other large-scale infrastructure projects. Engineered for durability and resilience, DS Brown products are a cornerstone in pavement preservation. Visit the booth to learn about the longest-lasting solutions for your airfield pavement.

DSA Detection LLC
Booth: A5
Web: www.dsadetection.com

DSA Detection is the leading manufacturer of ETD consumables worldwide. Its simulated IEDs and inert explosive simulants are second to none, both density and Zeff correct to the target materials, and compatible with all x-ray systems. Please visit the booth to discuss your requirements.

Duracryl Global Flooring
Booth: A34
Web: www.duracryl.com

Duracryl is a manufacturer of liquid applied flooring solutions. The focus is on sustainable products. Projects can be installed fully seamless.

DXC Technology
Booth: D190
Web: dxc.com/industries/travel-transportation

DXC is a trusted technology and innovation partner to the global aviation industry, delivering over 35 years of mission-critical expertise. With more than 100 aviation customers worldwide, DXC helps organizations modernize core platforms, harness data and AI and optimize operations to enhance safety, increase efficiency and elevate the passenger experience.

Dynell GmbH
Booth: B364
Web: www.dynell.at

Dynell's all-electric mobile ground power unit provides CO_2-free energy wherever it's needed, even in non-electrified locations. Its compact, modular design and efficient inverter technology make operation simple and safe. Scalable battery capacity ensures flexibility for changing demands, offering a sustainable and reliable solution for industrial and event power needs.

E

Easier
Booth: B148
Web: www.ier.com

Easier dedicates its energy to perfecting the airport experience. It delivers self-service technology that increases throughput and security while empowering passengers to feel in control. At PTE 2026, Easier will showcase new products and solutions that simplify the passenger journey from check-in to boarding.

Eezeetags BV

www.passengerterminaltoday.com

Egal Pads, Inc.
Booth: E70
Web: uk.padsonaroll.com

Egal is on a mission to make period products as accessible as toilet paper. Through the invention of Pads on a Roll, period products are freely available inside the cubicle, exactly where they are needed. This system improves passenger experience and embodies inclusive, modern airport infrastructure.

Egis
Booth: D130
Web: www.egis-group.com

Egis is a global leader in architecture, consulting, engineering and operations. With more than 55 years in aviation, the company combines deep sector knowledge with hands-on experience as an airport shareholder and operator. The 3,000 aviation experts help shape aviation regulations, improve operational performance and design major aviation infrastructure and systems worldwide.

ElectroAir
Booth: C76
Web: www.electroair.eu

ElectroAir, founded in Estonia in 2006, specializes in GSE and GPUs for aviation and chargers for GSE. Serving over 500 customers worldwide, ElectroAir offers reliable solutions for all aircraft types in different environmental conditions such as frequency converters, rectifiers, PIT systems, cable extenders and load banks.

Elenium Automation
Booth: D300
Web: www.elenium.com

Elenium is accelerating passenger journeys through the airport with fast, intuitive automation. Trusted around the world, the company's hardware and Voyager software solutions underpin 250 million passenger trips annually. Elenium specializes in intelligent kiosk and automated bag-drop solutions that reduce operational costs and remove complexity to deliver a seamless travel experience.

Elten Logistic Systems
Booth: B119
Web: www.eltonomous.com

Elten is an international family business. In 2022 it designed the Eltonomous, an automated ULD that is already in use at Schiphol. The company is continuously developing new solutions, utilizing the latest technologies, with its distinctive principle: Dutch simplicity. Meet two of the owners, Gerwin and Hilbert Achterberg, at the booth.

Embross
Booth: B350
Web: www.embross.com

Embross delivers end-to-end airport self-service solutions, combining advanced hardware and software under one roof. With 30+ years of experience and 150+ airline clients, it supports airports worldwide. Vertically integrated, Embross manages design to deployment – streamlining operations, accelerating passenger processing and blending innovation with proven reliability through its IBM legacy.

Emma Systems
Booth: C160
Web: www.emma.aero

Emma Systems provides data-driven airport operations solutions that improve collaboration, predictability and decision-making. By connecting fragmented systems into a single source of truth, Emma helps airports optimize performance across airside, landside and stakeholder coordination, supporting smarter, more efficient and more resilient airport operations.

Emse Mühendislik AŞ
Booth: D273
Web: www.quavis.aero

Quavis and EMSE are jointly delivering customizable airport self-service solutions at PTE 2026. The integrated hardware and software platforms optimize passenger flow while enabling ancillary revenue through branded interfaces, targeted upselling and flexible configurations – designed to enhance efficiency, scalability and overall passenger experience.

ESP Global Services
Booth: F260
Web: espglobalservices.com

ESP Global Services is setting the new standard in aviation support, delivering managed IT support services globally. AirportNow, ESP's revolutionary IT service management (ITSM) solution for airports, connects equipment failures directly to the nearest engineer, maximizing uptime for passenger-critical systems and enabling smarter, AI-driven support through performance data.

Ethos Farm
Booth: D60
Web: www.ethosfarm.com

Ethos Farm cultivates extraordinary experiences for employees, customers and clients. It puts people at the heart of every great experience, because brilliant employee experiences deliver exceptional customer experiences.

Excess Baggage Group Limited
Booth: D290
Web: www.excess-baggage.com

Excess Baggage Group has delivered passenger baggage services since the early 1990s. The company operates baggage wrapping, baggage storage, lost and found, luggage and travel accessories and delivery services for international airports and rail operators, handling millions of items annually through robust, efficient and profitable processes on a global scale.

Exolum Aviation SA
Booth: C80
Web: www.exolum.com

Exolum is a leading international company in the transportation and storage of fuels and other bulk liquids in Europe and one of the world's leading companies, providing energy where it is needed for more than 95 years in a sustainable and efficient way.

Feedbacknow
Booth: A22
Web: www.feedbacknow.com

Visit the booth to see what Feedbacknow can offer.

Finavia
Booth: C54
Web: www.finavia.fi

Finavia Oyj, formerly the Finnish Civil Aviation Administration, is the public limited company responsible for maintaining and developing Finland's airport network.

Finnish Meteorological Institute
Booth: C54
Web: www.fmi.fi

The FMI makes observations and research on the atmosphere, the near space and the seas. It provides services for public safety, business life and citizens.

Firstco
Booth: E305
Web: www.firstco.uk.com

Firstco is a London-based systems engineering company, specializing in mission-critical control and communication systems, predominantly within the transportation infrastructure sector. Firstco has developed the vertiport management system (VMS), which is the digital infrastructure required to enable the remote management of a distributed vertiport network from a single platform.

Flex Industries Srl
Booth: D144
Web: www.flexindustries.it

Flex Industries innovates wayfinding, digital signage and high-performance queuing solutions. Flex is a market leader in the design and development of wayfinding, digital signage and high-performance queuing solutions, with a primary focus on the airport and transportation sectors. Its cutting-edge technologies and premium products enhance efficiency in every sector.

Flexco Europe GmbH
Booth: D370C
Web: www.flexco.com

Flexco is the leading international specialist for mechanical conveyor belt fastener systems, belt cleaners, belt positioners, impact beds pulley lagging and skirting systems for light- and heavy-duty applications. With the company's innovative solutions, end users can substantially reduce downtime and increase productivity.

FMH – Motion06 GmbH
Booth: D350D
Web: www.motion06.at/de

Motion06 is a leading global provider of high-quality, precision technology for airport baggage handling, e-commerce and industrial applications. It develops and installs intelligent conveyor modules and offers complete solutions with the highest quality standards so that you can concentrate on your core competencies.

FMT Sweden AB
Booth: B336
Web: www.fmt.se

Visit the booth to see what FMT Sweden can offer.

Forbo Flooring Systems
Booth: F240
Web: www.forbo-flooring.com

Forbo Flooring is a global manufacturer of high-quality commercial floor coverings. Forbo delivers total flooring solutions for every project, assuring quality and accountability from one single supplier. In Forbo's portfolio, you will find high-performance entrance systems, linoleum flooring and flocked floor covering – all very suitable for heavy traffic areas.

Forbo Siegling GmbH
Booth: C340/C350/C370/D370/D350
Web: www.forbo.com/movement/en-gl/pe4af7

Forbo Movement Systems is the preferred conveyor-belt partner for airports. Its Amp Miser belts deliver up to 50% energy savings while boosting operational efficiency. Premium quality and a comprehensive service offering minimize downtime, keeping baggage handling fast, smooth and reliable. The payoff: happier passengers and a stronger airport reputation.

Foster + Partners
Booth: F200
Web: www.fosterandpartners.com

With extensive international aviation experience, Foster + Partners has built global airport gateways for cities from London to Beijing with terminals under construction in Kuwait, Riyadh and Warsaw. Underpinned by sustainability and innovation, its projects focus on passenger experience, with regular appearances in the top 10 Skytrax rankings.

Foursails Partnership Limited
Booth: E135
Web: foursailspartnership.com

Foursails Partnership is a professional services consultancy with a unique blend of deep specialist knowledge and decades of client-side experience. Established over five years ago, it operates globally, delivering measurable positive impact across the core pillars of operational transformation, capital programs and operational readiness, commercial growth and digital transformation.

Frequentis AG
Booth: B400
Web: www.frequentis.com

Frequentis airport solutions are key enablers for the most effective collaboration between airports and their partners to reduce costs for all stakeholders, achieve their performance objectives and increase passenger satisfaction. The company's portfolio supports local airport collaborative decision-making processes as well as the implementation of an airport operations plan.

Frontex (European Border and Coast Guard Agency)
Booth: E361
Web: www.frontex.europa.eu

ETIAS – the European Travel Information and Authorisation System – will further strengthen Europe's internal security. Expected to be launched in the last quarter of 2026, ETIAS will carry pre-travel screening of visa-free travelers to determine whether they pose a security, illegal immigration or public health risk.

Future Fibre Technologies (Europe) Limited
Booth: D190
Web: www.fftsecurity.com

FFT manufactures a complete portfolio of fiber-optic sensing solutions for the protection and monitoring of high-value assets and critical infrastructure.

G

g.on experience GmbH
Booth: C340/C350/C370/D370/D350
Web: www.gon.de/en

g.on experience provides digital airport solutions for infrastructure, operations and aeronautical data. g.on airport map delivers an operational digital twin supporting EASA, ADQ and CP1-aligned surface awareness. The aimPort, pm and field suite integrates data, workflows and inspections. Contact Craig Nicolay, craig.nicolay@gon.de, +49 173 5146744.

Gardiner & Theobald LLP
Booth: E135
Web: www.gardiner.com
Gardiner & Theobald (G&T) is a partner-led construction and property consultancy providing cost management, project management and infrastructure management services across the aviation sector. It supports airport operators and investors in delivering complex capital programs with certainty, operational sensitivity and data-led insight, ensuring resilient infrastructure and long-term performance.

Garrett
Booth: D190
Web: www.garrett.com
Garrett Metal Detectors, founded in 1964, is the leading American manufacturer of security and countermine metal detection equipment. Renowned for high quality and superior detection, Garrett is the globally trusted supplier of metal detectors for security deployed in aviation, government sites, events, loss prevention, law enforcement and many other industries.

GATE Pavilion
Booth: D335
Web: www.gate-alliance.com
GATE is a catalyst for global air traffic and a driver of innovation for airport operations. Together with the member companies, GATE offers airport operators, passengers, airlines, logistics service providers, authorities and politicians technologies and concepts. The focus is on ensuring a comfortable and sustainable journey for passengers and their luggage.

German Pavilion
Booth: C340/C350/C370/D370/D350
Web: passenger-terminal-expo.german-pavilion.com/en
The Federal Ministry for Economic Affairs and Energy (BMWE) in cooperation with AUMA, the Association of the German Trade Fair Industry, is at PTE hosting the 'German Pavilion', offering a professional brokerage service to help to establish contacts with German companies and comprehensive information on Germany as an important business location.

Gesnaer
Booth: B410
Web: www.gesnaer.es
Founded in 2004, Gesnaer is a Spanish engineering and consultancy company specializing in civil aviation in the airport and aeronautical field. At this year's PTE, Gesnaer will show its innovative solutions: GexoNAER (exoskeleton system for loading and unloading luggage) and Baggage2Pax (individualized luggage delivery system in airports).

Getriebebau Nord GmbH & Co. KG
Booth: C340/C350/C370/D370/D350
Web: www.nord.com
Getriebebau Nord is one of the world's leading manufacturers of drive technology – for mechanical and electronic solutions. The range of products includes geared motors, motors, industrial gear units, frequency inverters, motor starters and frequency inverters for decentralized drive control.

Gil Bartolomé Architects
Booth: G190
Web: www.gilbartolome.com
Gil Bartolomé Architects is an international architecture practice dedicated to the design of expressive and innovative airport terminals, delivered to the highest technical and professional standards. The company excels in collaborative processes with architects, clients and consultants, and can lead or support projects of any scale.

Gilardoni SpA a Socio Unico
Booth: C280/2
Web: www.gilardoni.it
Gilardoni is a leading manufacturer of x-ray and ultrasound equipment in the medical, security and non-destructive testing sectors. Its security unit offers a wide portfolio for the aviation and non-aviation sectors: x-ray scanners for baggage, parcels and goods on pallet screening, and automatic tray return systems to optimize throughput.

Green Furniture Concept
Booth: D230
Web: greenfc.com
Green Furniture Concept creates sustainable, modular furniture for public spaces, blending function, aesthetics and biophilic design. The company's seating and lighting transform airports into vibrant destinations using natural materials, calm forms and optimal seating density. Easy maintenance and replaceable parts extend product life, delivering lasting value and timeless design.

Grimshaw
Booth: G150
Web: www.grimshaw.global
Grimshaw is an architecture practice that has delivered aviation designs that transform the experience and operation of some of the world's best airports. With eight international studios, the company's global expertise and local knowledge shape its projects, creating intuitive journeys, exceptional commercial value and, through ingenuity, bringing beauty to everyday travel.

Groupe ADP
Booth: C200
Web: www.parisaeroport.fr/en/homepage-group
Groupe ADP is a leading airport operator with know-how in every aspect of the airport value chain, including engineering, optimizing operations, commissioning new infrastructure (terminals, runways, etc), retail and hospitality services, revenue and traffic development. It provides some of this expertise to other airport operators.

Guangdong Oshujian Furniture
Booth: B224
Web: www.osjterminal.com
Oshujian, or OSJ for short, is committed to leading the way in quality, safety and comfort in airport furniture, providing travelers with solutions from the terminal to boarding. With a 60% market share in China's airport seating market, it never stops exploring the endless possibilities of public area furniture.

Guinault
Booth: B271
Web: www.guinault.com/en
Guinault presents its new PCA temperature control mobile app and a next-generation operations and technical training platform. Discover automatic aircraft recognition, Guinault's unique telemetric ecosystem, and fully integrated turnkey APU OFF solutions. A complete suite designed to boost efficiency, sustainability and operational mastery for tomorrow's airside performance.

Gunnebo Entrance Control Ltd
Booth: B290
Visit the booth to see what Gunnebo Entrance Control can offer.

SKYTRAX
WORLD AIRPORT AWARDS

**Wednesday,
March 18, 2026
from 17:30hrs**

**Taking place in
Food Court 2**

PTEWORLD
PASSENGER TERMINAL EXPO

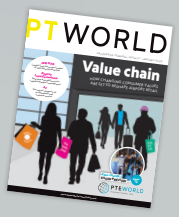

See **Gentilhomme** demo its AI booth in the conference area (ICC Capital Suite) at PTE World 2026!

PTEWORLD
PASSENGER TERMINAL EXPO

REIMAGINING THE AIRPORT EXPERIENCE: AI PHOTO BOOTH

Gentilhomme's AI-powered photo booth is giving airports a new tool to better engage and entertain passengers, helping to create more memorable journeys

Scan the QR code to read about the AI photo booth, featured in *PT World*

GENTILHOMME

Learn more about what Gentilhomme can do for your Airport.
gentilhomme.com

H

Halo X-ray Technologies
Booth: A20
Web: www.haloxray.com

Halo manufactures the only x-ray diffraction screening technology for the aviation security checkpoint. The HXT264 combines with all major CT vendor products and seamlessly integrates with automatic tray return systems. See Halo at the booth and discuss how XRD technology can reduce false alarms and improve operational efficiency.

Hansaconsult Ingenieurgesellschaft
Booth: C340E
Web: www.hansaconsult.com

Visit the booth to see what Hansaconsult Ingenieurgesellschaft can offer.

Haptic Architects
Booth: E135
Web: hapticarchitects.com

Haptic's love of design, rooted in Scandinavian values, inspires everything the company does. Based in London, Oslo and Bilbao, Haptic works all over the world, creating places that make people happy. It specializes in aviation, including terminal design and masterplanning.

Haute & Craft
Booth: D138
Web: www.hauteandcraft.com

Haute & Craft is an Italian brand focused on furnishing public spaces. Its core products include benches, planters, coffee tables and waste bins. Each piece combines artisanal customization with industrial precision, using natural materials and refined finishes to create spaces that feel both distinctive and enduring.

Hawkrose
Booth: E18
Web: hawkrose.com

Hawkrose applies advanced machine learning and optimization techniques to help aviation organizations analyze complex operational and planning scenarios. Its tailored analytical tools provide data-driven insight and support airport and airspace decision-makers, improving process efficiency, strategic planning and operations. Hawkrose optimizes airports and airspace.

HDR
Booth: E135
Web: www.hdrinc.com

Founded over a century ago, HDR is a 100% employee-owned global professional consulting firm specializing in architecture, engineering, environmental and construction services. HDR's aviation practice partners with airports and aviation organizations to deliver comprehensive airside and landside planning, design, construction and operational support, improving safety, performance and the passenger experience.

Hello Lamp Post
Booth: D262
Web: www.hlp.city/en-gb

Hello Lamp Post reimagines passengers' experiences via AI-powered digital assistants. Acting as digital staff, they deliver location-specific support 24/7 via two-way conversations while generating passenger insights. For global airports, Hello Lamp Post supports more travelers and staff, boosts operational efficiency and strengthens airport data capabilities.

Hill International, Inc.
Booth: E260
Web: www.hillintl.com

Hill International provides program management, project management, construction management and management consulting for construction projects around the world. As a pure project management firm, Hill has one focus: protecting client interests. The Hill aviation team spans the globe, with more than 600 airport professionals delivering projects on four continents.

Hoare Lea LLP
Booth: E135
Web: hoarelea.com

Hoare Lea is an award-winning engineering consultancy with a creative team of engineers, designers and technical specialists. It provides innovative solutions to complex engineering and design challenges for buildings. Whether a project is airside or landside, the company's proven track record helps it challenge, meet and exceed its many requirements.

Honeywell - Transnorm System
Booth: C370B
Web: automation.honeywell.com

Honeywell Transnorm is the airport industry's first choice for baggage handling modules such as belt curves, mergers and diverters, with over 100,000 modules delivered to more than 300 airports globally. The equipment is built to last and to minimize downtime while providing superior support and best-in-class energy consumption.

Honeywell Building Solutions
Booth: B335
Web: buildings.honeywell.com/gb/en/industries/airports

Honeywell provides a comprehensive suite of cybersecure technologies that enhance safety, security and efficiency at over 500 airports worldwide. By optimizing airside ground operations such as runways and taxiways, along with landside building management including terminals and perimeter access, Honeywell strives to improve operational effectiveness across the airport sector.

Hub Performance
Booth: B161
Web: www.hubperformance.com

For more than 20 years, Hub Performance experts have been dedicated to supporting industrial systems automation through planning and 3D simulation. The company's goal is to provide visibility in project development from design to operations, with digital solutions. Hub Performance supports the Industry 4.0 transition.

Hübner Group
Booth: C340F
Web: www.hubner-group.com

Visit the booth to see what Hübner can offer.

Hubway SAS
Booth: E17
Web: hubway.ai

Hubway.ai is an AI platform for airports that delivers personalized, human-quality passenger interactions at scale. Using conversational agents and indoor semantic maps, it provides intuitive wayfinding, real-time assistance and proactive guidance. Hubway boosts satisfaction, reduces frontline workload and drives non-aeronautical revenue, while delivering real-time insights to power intelligent, connected terminals.

Hwasung System Co. Ltd
Booth: A40
Web: hwasungt.co.kr

Hwasung System, founded in 2002, manufactures direct thermal printers, which are used for kiosks, POS, gaming equipment and systems and so on. Kiosk printers have a No. 1 market share in the Korean local market. They are also popular in parking, transportation (metro and bus), sports and entertainment.

I

IATA
Booth: A69
Web: www.iata.org

The International Air Transport Association (IATA) is the trade association for the world's airlines, representing some 360 airlines or 83% of total scheduled traffic. IATA supports many areas of aviation activity and helps formulate industry policy on critical aviation issues.

iboardings.com
Booth: E190
Web: www.iboardings.com

iboardings.com designs and manufactures software and hardware solutions to make life easier for those involved in processing passengers.

ICF
Booth: D190
Web: www.icf.com/aviation

ICF is a global strategic and technical advisory firm with deep sectoral expertise in aviation. Practice areas include airports, airlines/MRO, aviation finance and tourism, with cross-cutting expertise in sustainability and digital transformation. ICF helps clients – including governments, airports, airlines, trade organizations, investors and finance providers – solve their most complex challenges.

Ideagen Aviation Intelligence
Booth: C115
Web: casper.aero

Ideagen Aviation Intelligence is a powerhouse uniting Ideagen's industry-leading compliance expertise with Envirosuite and Casper's deep aviation intelligence heritage. It delivers advanced noise and flight tracking, real-time monitoring, analytics and community engagement that airports worldwide depend on. From operational efficiency to regulatory compliance to stakeholder trust – intelligence driving confidence.

Idemia Public Security France SAS
Booth: D259
Web: www.idemia.com

Idemia Public Security's travel and transportation business line has been pioneering innovative solutions that ensure secure and seamless travel experiences for over 40 years. The company's comprehensive set of solutions, processing 700+ million passengers annually, integrate breakthrough biometrics, ID management and data analytics technologies, enhancing the passenger journey without compromising security.

IDGateway
Booth: B39
Web: www.idgateway.co.uk

IDGateway provides security software that transforms airport ID card issuance by automating processes, managing identities, strengthening security and enhancing compliance. Its products, AirportGateway and VettingGateway, deliver integrated platforms using intelligent AI to enable digital verification, efficient operations and trusted decision-making across complex aviation.

IDOM
Booth: F246
Web: www.idom.com

Visit the booth to see what IDOM can offer.

IEE
Booth: D335C
Web: www.iee-sensing.com

Visit the booth to see what IEE can offer.

ImageHolders
Booth: D274
Web: www.imageholders.com/custom-kiosk-solutions/travel-kiosks

ImageHolders delivers modular, inclusive self-service kiosks that streamline every aviation touchpoint, from check-in and bag drop to security, wayfinding and boarding. The company's configurable solutions support biometrics, payments and assistive technology, helping airports enhance the passenger experience and meet global accessibility standards. Visit the booth or contact Sales@imageholders.com.

IN Groupe
Booth: D170
Web: www.ingroupe.com

IN Groupe is a global leader in secure identity and trust services, specializing in identity solutions, secure transactions and digital services. Building on a long-standing history of partnership with governments, the group also serves public and private organizations worldwide.

Incheon Airport
Booth: D145
Web: www.airport.kr

Incheon International Airport is showcasing its global expertise in overseas airport projects, including PPP projects, concession operations and consulting services. Additionally, K-Airport Solutions will be presented to enhance airport efficiency and passenger experience. Visit the booth to explore these innovative solutions shaping the future of aviation.

Indra
Booth: D314
Web: www.indragroup.com/en

Indra is one of the main global technology and consulting companies, a world leader in engineering technology for the aerospace, defense and mobility sectors. It has a unique track record in the transportation industry with more than 2,500 projects developed in more than 50 countries.

Ineco
Booth: D315
Web: www.ineco.com/ineco

Ineco is a leading global engineering and consultancy firm specializing in sustainable mobility and digital transformation. With over 56 years of expertise, Ineco's team of more than 6,000 employees delivers innovative and impactful solutions.
By leveraging technologies and deep knowledge, Ineco drives progress all around the world for a better-connected ecosystem.

Infologic Nederland BV
Booth: A66
Web: infologic.nl

Infologic Nederland is an expert in airport display systems. Its LUMIDS platform allows you to manage every screen in the terminal: FIDS, wayfinding and advertising. Combined with Infologic's check-in desk management and boarding management solutions, it covers the full passenger journey. Fully configurable, no-code, integrated or standalone. Deployed at 30+ airports, serving 150m+ passengers annually.

INFORM Institut für Operations Research und Management
Booth: D320

Web: www.inform-software.com/en/software/groundstar

INFORM is a German software provider that optimizes business processes using artificial intelligence and advanced operations research. With GroundStar, INFORM offers a comprehensive software suite that helps airlines, airports and ground handlers run operations smoothly and cost-efficiently. More than 200 installations worldwide reflect decades of expertise and long-term customer partnerships.

Infotap
Booth: D262

Web: infotap.com

Transform wi-fi into insights. Infotap's gamified surveys capture real-time passenger feedback in seconds. CVG has delivered 7,300+ weekly responses with a 72% completion rate and 45-second average – fueling smarter decisions for an airport serving 9.4 million passengers.

Innovative Technology
Booth: A68

Web: www.innovative-technology.com

Innovative Technology's Age and Identity Verification range uses facial analysis for age estimation and access control. Age estimation technology has various uses within an airport setting such as duty free, bar and restaurants and airport lounges, and the facial recognition technology can be used for secure access control systems and e-gates.

Intos
Booth: D335A

Web: intos.nl

Intos is a Netherlands-based specialist in airport interior products, with a strong focus on high-quality configurable products such as counters, desks and security-related products. With over 30 years of dedicated airport experience, it supports airports worldwide with proven solutions for new-build, refurbishment and expansion projects.

Isarsoft GmbH
Booth: A82

Web: www.isarsoft.com

Isarsoft empowers airport operators with intelligent video analytics that turn existing camera systems into powerful decision-making tools. The software enhances planning, operations and security by providing real-time insights without the need for additional sensors or infrastructure. With Isarsoft, queue management, turnaround processes and staff planning become more efficient, and measurable.

ISO-Gruppe
Booth: C26

Web: www.iso-gruppe.com

ISO-Gruppe's SKYport airport management suite, with its variety of customizable modules, covers the entire range of operational processes from flight planning and resource management to FIDS, PRM and aerobilling. In addition to a modernized SKYport GUI, ISO-Gruppe has launched AOCC, which enables airport operators to identify and resolve conflicts efficiently.

Istanbul DataForm
Booth: A3

Web: www.istanbulform.com

Founded in 1985, Istanbul DataForm Printing House produces a wide range of printed materials required by the transportation sector, exporting its products to more than 70 countries across five continents. The extensive production portfolio includes linerless baggage tags for the aviation industry, RFID tickets and labels, magnetic stripe tickets, etc.

iStrat Consulting
Booth: D190

Web: istratconsulting.co.uk

iStrat creates digital, data and AI strategies to improve airport operations and passenger experience. The company specializes in digital readiness, digital adoption and delivery operating models that enable airports to deliver projects successfully, strengthen operational resilience and transition innovations safely from capital programs into business-as-usual. Contact Emeka Okorocha at info@istratconsulting.co.uk or visit the booth.

ITA – Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane
Booth: C280/1

Web: www.ice.it/it

ITA – the Italian Trade Agency – is the governmental agency that supports the business development of Italian companies abroad and promotes the attraction of foreign investment in Italy. ITA London is located at Casa Italia (the new premises of the Italian Embassy), at 4-5 Buckingham Gate, London, SW1E 6JP. Call 0207 292 3910, email londra@ice.it or visit the booth.

Italcer SpA SB
Booth: C280

Web: www.gruppoitalcer.it

The Group's catalog of ceramic products comprises more than 209 collections, designed to suit different types of customers, including B2B, high-end distributors and large retail chains, worldwide. The Group's sales network serves around 125 countries worldwide, making it one of the leading players in the industry. Visit www.gruppoitalcer.it, email massimiliano.iacobone@gruppoitalcer.it or visit the booth.

ITW GSE
Booth: C130

Web: www.itwgse.com

ITW GSE's EcoGate unites GPUs, PCAs and chargers into one coordinated, efficient system that enhances gate economics and supports sustainable operations. From single gate upgrades to large airport projects, ITW GSE covers airports' needs with expert project management, GPUs, PCAs, cables, hoses and long-term support.

J

Jacobs
Booth: C129

Web: www.jacobs.com

Jacobs provides development services for existing and greenfield airport projects worldwide. With aviation facing new challenges arising from environmental, social, financial and digital changes, Jacobs is committed to helping transform clients' airport infrastructure, organizations and business practices to deliver world-class passenger service whilst moving toward net zero.

Jetpack.ai
Booth: A50

Web: www.jetpack.ai

Jetpack delivers AI-powered forecasting and decision-support software for airports. Its flagship product, Polaris, provides flight scheduling, passenger flow forecasting and scenario planning for budgeting and capacity management. Founded in 2017, the company serves European airports with data engineering, machine learning and operational optimization tools.

JLC Group Ltd
Booth: B107
Web: www.jlc-group.co.uk

JLC Group is a UK engineering specialist providing advanced aviation ground power, automated access control and blast-enhanced door systems. Trusted by major airports and global brands, JLC designs, manufactures and maintains bespoke, high-reliability solutions that enhance safety, efficiency and operational performance across the aviation, security and infrastructure sectors.

John Reid & Sons (Strucsteel) Ltd
Booth: D190
Web: www.reidsteel.com

John Reid & Sons is an award-winning structural engineering company and a specialist in the design, engineering, fabrication and installation of pre-engineered steel frame aircraft hangars, buildings and structures. Supplying steel buildings and envelope (steel, cladding and glazing), the company offers excellent component integration at the design stage. Email Chris Evans, the business development manager, at chrisevans@reidsteel.co.uk.

Johnson Controls Security Products
Booth: E135
Web: securityproducts.jci.com

Johnson Controls is a global leader in aviation security, protecting over 1 billion passengers each year. With CEM Systems AC2000 airport access control, American Dynamics video, Illustra AI-powered cameras and integrated radar-based perimeter detection, Johnson Controls delivers a unified, scalable security ecosystem that enhances aviation safety and airport operations worldwide.

K

Kognitive UK
Booth: D190
Web: www.kognitive-uk.com

Kognitive Airports delivers cost, commercial management and strategic business advisory services for the aviation sector, helping clients navigate industry complexity, unlock sustainable growth and achieve commercial and operational excellence. Its experienced team works with operators, airlines, governments and investors to create tailored, high-value solutions that drive long-term success.

Kohn Pedersen Fox
Booth: F216
Web: www.kpf.com

Visit the booth to see what Kohn Pedersen Fox can offer.

Kusch+Co.
Booth: E220
Web: www.kusch.com

Visit the booth to see what Kusch+Co. can offer.

L

LCM Digital
Booth: C350E
Web: www.lcmd.io

LCMD is a digital execution platform for complex airport construction projects. It connects planning, lean execution and field collaboration in real time, enabling predictable delivery of terminals, runways and infrastructure. By aligning teams, workflows and data, LCMD reduces risk, accelerates flow and supports safe, on-time operations across global aviation programs.

LEDture
Booth: B338
Web: www.ledture.co.uk

LEDture is a specialist manufacturer of high-performance masts and floodlighting systems designed for major infrastructure projects. It delivers robust, energy-efficient lighting solutions that enhance safety, visibility and operational efficiency across airports, ports, highways, rail networks and large industrial sites.

Leidos
Booth: D200
Web: www.leidos.com/security-detection

Leidos is a Fortune 500 innovation company rapidly addressing the world's most vexing challenges in national security and health. Leidos offers a comprehensive suite of fully integrated security solutions for aviation, ports, borders and critical infrastructure customers around the world, deploying more than 32,000 products across over 130 countries.

Lenze SE
Booth: C340/C350/C370/D370/D350
Web: www.lenze.com/en-de/solutions/industries/airport-logistics

A leading provider of innovative, energy-efficient drive and automation technology, Lenze has 75+ years of experience and about 3,600 employees worldwide. It powers applications across industries, especially airports, partnering with major OEMs. Lenze solutions are trusted globally and installed in airports around the world.

Leonardo
Booth: C120
Web: automation.leonardocompany.com/en/baggage-handling

Leonardo Automation, an Italian system integrator in baggage handling solutions, will showcase its innovations at PTE World, highlighting SortSight and advanced simulation tools with live demos and immersive Oculus experiences. A market leader in MBHS crossbelt sorter technology, this year Leonardo celebrates the milestone of 50 baggage sorting systems sold worldwide.

LG Electronics
Booth: D10
Web: www.lg.com/uk

Visit the booth to see what LG Electronics can offer.

Limak Group of Companies
Booth: D176
Web: www.limak.com.tr

Established in 1976, Limak Group of Companies has steadily expanded across various industries, including aviation. Today, Limak operates in aviation, construction, tourism, cement, infrastructure, investment, energy and food. The group's involvement in aviation reflects its commitment to sustainable growth and innovation across all sectors.

Lindner
Booth: C370D
Web: www.lindner-group.com

Lindner offers integrated, end-to-end building solutions for airports and commercial facilities worldwide. From building envelope and roofing to ceilings, floors, walls and interior fit-out, it provides tailored, complete packages. The company's expertise combines design, functionality and operational efficiency – turning complex challenges into innovative, fully realized buildings through close client collaboration.

Logo InfraConsult GmbH
Booth: C340/C350/C370/D370/D350

Web: www.logo-infraconsult.de/en

Logo InfraConsult supports airport operators, apron management providers and ground handling companies in enhancing their operational performance. With tailored, end-to-end consulting and comprehensive project management services, it helps clients optimize processes, strengthen infrastructure and successfully navigate the complexities of modern airport environments.

Logplan
Booth: B40

Web: www.logplan.com

Logplan is a trusted airport logistics engineering firm with over 35 years of experience in the aviation industry. Customers include airports, architects and general contractors who count on Logplan for its expertise in baggage handling systems, in-line baggage screening systems, automated people movers and airport cargo facilities.

Luggage Logistics
Booth: E275

Web: www.luggagelogistics.net

Luggage Logistics is a specialist IT solutions provider offering innovative baggage and ULD management systems for airports, airlines and ground handlers. The business focus is primarily on BRS, reflighting and transfers; IATA Resolution 753 compliance; dashboards and reporting; ramp loading – LIR compliance, CLC monitoring; ULD management – baggage and cargo; and message distribution.

Lynx Innovations
Booth: A18

Web: lynx-innovations.com

Lynx connects technology and efficiency in high-traffic environments, optimizing the interaction between people and systems. With an agile and visionary approach, Lynx enhances the user experience with intuitive solutions, reducing friction and simplifying access, ensuring every journey, checkpoint, or transaction is smoother, safer and more efficient.

M

Mace Ltd
Booth: D190

Web: www.macegroup.com

Mace is a consulting and contracting organization with 30 years of experience in the aviation sector. The company has worked in all areas of the live operational airport, delivering many services for airport operators and airlines alike.

Magnetic Autocontrol
Booth: D240

Web: www.magnetic-access.com/en

Magnetic is a technology leader in vehicle barriers and pedestrian gates. Developing drive and control systems in-house, Magnetic delivers fast, reliable access control for parking garages, transportation hubs, tolls, buildings and industry. High speeds reduce waiting times, while durable, safe, user-friendly solutions ensure efficient, economical operation long-term and worldwide, daily.

Magnetic Ticket & Label Corp
Booth: A60

Web: www.magticket.com

Visit the booth to see what Magnetic Ticket & Label Corp can offer.

Marcus Pedersen
Booth: B330

Web: www.marcuspedersen.dk

Marcus Pedersen is a Danish design and manufacturing company creating innovative airport service solutions. Its service desk, the Air.Go Assistant, is a mobile, height-adjustable workstation that brings check-in, gate support, document control and PRM services directly to passengers – helping airports reduce queues, improve flexibility and optimize operations.

Matrex
Booth: C34

Web: www.matrex-airport.com/en

Matrex, a French company, has been a specialist in baggage handling systems, passenger handling solutions and the integration of airport safety and security machines for 30 years. It offers a full product range of standard baggage handling equipment, which enables it to develop tailor-made and fully optimized solutions.

Maynard
Booth: E135

Web: www.maynard-design.com

Maynard is a global practice of strategists, designers and makers, dedicated to improving everyday life. With a legacy of over 400 transformative projects that span 17 countries, Maynard combines sharp thinking with creative making across user experience, signage and wayfinding, placemaking and product design.

Mechanica Sistemi Srl
Booth: B129

Web: msy.mechanica.com

Mechanica Sistemi is a leading provider of smart, modular solutions for postal, parcel and baggage handling systems. With 40+ years of experience, it delivers high-performance systems combining innovation, quality and full lifecycle support from design to installation. As part of MHS Group, Mechanica Sistemi serves global logistics hubs.

Mediclinics SA
Booth: F245

Web: www.mediclinics.com

Since 1974, Mediclinics has been transforming public washrooms into unique and functional spaces, manufacturing washroom equipment such as eco hand dryers, behind-the-mirror solutions, baby changing stations, intelligent taps, automatic soap dispensers and mobility aids. Present in more than 100 countries, Mediclinics is committed to delivering high-quality, durable and aesthetic products.

Metal Pless
Booth: D133

Web: www.metalpless.com

Metal Pless, through its AeroPless division, is a global leader in manufacturing the largest hydraulic snow plows. It provides airports worldwide with specialized equipment for efficient runway snow removal, ensuring safety and operational continuity. The company's solutions are renowned for their reliability and durability in this technical sector.

Mima
Booth: D190

Web: www.mimagroup.com

Mima is a human-centered and inclusive design agency. It has spent nearly 50 years helping organizations to create usable, inclusive and engaging environments and experiences working across airports, railways, museums, stadia and the urban realm. Mima works in customer experience, specializing in accessibility, wayfinding design, CX strategy and rethinking customer-centric operations.

Mion Technologies
Booth: C52
Web: miontechnologies.com

Mion is a Spanish company delivering advanced security solutions powered by its proprietary DMA technology. Offering exceptional vapor-phase detection, it enables fast, versatile screening of containers, vehicles, luggage and cargo. Its high sensitivity to explosives, chemical agents and illicit drugs makes it a comprehensive, reliable tool for today's security challenges.

Mobile Locker
Booth: C30
Web: www.mobilelocker.eu

Mobile Locker delivers smart, contactless locker solutions for airports and transportation hubs. Designed to optimize passenger flow, reduce queues and support security operations, the company's lockers create seamless, worry-free journeys. Built with European hardware and powered by in-house software, operated and supported from the heart of Europe.

Modaxo
Booth: B120
Web: www.modaxo.com

Modaxo offers owners a permanent home for their people transportation software business. It empowers companies to succeed through autonomous operation, global reach and financial backing. And Modaxo never sells its businesses, so everything it does is designed for long-term success. Modaxo is growing fast, with more than 25 brands.

Moderniek BV
Booth: B119
Web: www.moderniek.com

Experience the future of baggage automation with Moderniek. Discover the new Bagtipper G2: fully automatic, fast and designed for low-height installations under 2,900mm. Visit the booth and see how every tip makes baggage unloading smarter, safer and more efficient.

Modi
Booth: C350G
Web: www.modivision.net

Modi Vision is a leader in providing biometric systems and identity validation tools for commercial and government applications around the world. Its newest innovation is VisionBrain, ushering in a new era of facial recognition.

Monitoreal
Booth: B425
Web: www.monitoreal.com

Monitoreal delivers advanced video surveillance powered by on-device edge AI. The proprietary hardware integrates with existing CCTV systems to provide real-time object detection, smart alerts and reduced false alarms without cloud dependency. Designed for residential, commercial and enterprise environments, Monitoreal ensures accurate analytics, data privacy and complete control.

Mott MacDonald
Booth: D189
Web: www.mottmac.com/en-gb

Mott MacDonald is a global engineering, management and development consultancy helping airports plan, design, deliver and operate complex programs worldwide. With 1,000+ aviation specialists and true end-to-end capability, Mott MacDonald integrates strategy, design, digital and operations to solve today's pressures and realize tomorrow's airports.

Moviik
Booth: D173
Web: www.moviik.com

Moviik designs software-first queue management solutions that help organizations transform in-store service journeys. From ticket kiosks and digital check-ins to remote service and video attendance, Moviik connects physical and digital touchpoints into a single flow. Hardware-agnostic by design, the platform integrates with multiple devices and infrastructures.

Munich Airport International
Booth: D150
Web: www.munich-airport.com/international

With 30+ years of excellence, Munich Airport International (MAI) has been shaping the global aviation industry through innovation and expertise. Starting as a leading provider of ORAT (operational readiness and airport transfer) services, it has evolved into a recognized airport operator and advisor, delivering outstanding consulting, concession management and operational solutions.

Murrelektronik Ltd
Booth: A35
Web: www.murrelektronik.co.uk

Murrelektronik helps OEMs, integrators, consultants and airports find the simplest way to connect signals, power and data on baggage handling and ground support equipment. Visit the booth and speak with the company's connectivity specialists to increase efficiency and reduce errors in the manufacturing, deployment and maintenance of your equipment!

Musco Lighting
Booth: D49
Web: www.musco.com/solution/airport

Musco is the global leader in lighting solutions for transportation and infrastructure applications. Musco's TLC for LED system has been installed at international airports, rail yards, industrial sites, container terminals and major ports around the world, delivering unmatched light quality and control, reliability and glare reduction.

N

NACO, Netherlands Airport Consultants
Booth: E166
Web: www.naco.nl

NACO is a leading airport consultancy and engineering firm with over 75 years of experience, from major landmark designs to smaller airports. Its expertise includes masterplanning, building design, airport PPPs and civil engineering. From infrastructural and operational resilience to climate change, NACO embeds future-readiness into every project.

Naitec
Booth: C113
Web: www.naitec.aero/it

Naitec and Replay are showcasing ultimate next-generation solutions for airport technology. Combining advanced AI and video analytics, the integrated technologies enhance airport security, operational efficiency and passenger experience. From intelligent surveillance to real-time insights and automation, Naitec delivers scalable, future-ready solutions designed to meet the evolving needs of airports.

Nanolumens
Booth: A104
Web: www.nanoluments.com
For 20 years, Nanolumens has provided custom direct-viewLED (dvLED) displays in airport facilities around the world. Its bespoke systems are designed to help increase revenues, decrease operating expenses and improve the passenger experience. Land-side, airside, indoors and outside, Nanolumens systems are built to solve problems and exceed goals.

NBG Innovations Group
Booth: A56
Visit the booth to see what NBG Innovations Group can offer.

NEC
Booth: B310
Web: www.nec.com/aviation
NEC is a global leader in aviation, with more than 60 years of experience delivering innovative digital solutions. Trusted by over 150 airports, airlines and government partners worldwide, NEC provides biometric, AI and integrated IT solutions that streamline passenger journeys and improve operational efficiency across the aviation ecosystem.

Neura Robotics
Booth: C350D
Web: www.neura-robotics.com
Neura Robotics develops cognitive robotics solutions combining AI, advanced sensing and intuitive human-machine interaction. Made in Germany, its intelligent collaborative robots enable flexible automation in manufacturing, logistics and service environments, increasing productivity, safety and adaptability.

NG Aviation
Booth: C330
Web: www.ngaviation.eu
Visit the booth to see what NG Aviation can offer.

Nikken Sekkei
Booth: A92
Web: www.nikken.co.jp/en
As Japan's leading multidisciplinary design firm, Nikken Sekkei brings 125+ years of integrated expertise to aviation. Its pioneering team has shaped major gateways – Narita, Kansai and Central Japan – driving innovation, operational excellence and exceptional passenger experience while sharing Japan's world-class airport design insights globally.

Nord Drivesystems
Booth: D190
Web: www.nord.com/en/nord-group/about-us/nord-uk/cp_uk_aboutus.jsp
Nord Drivesystems produces high-quality, innovative drive technology for the use in baggage handling systems. Supporting new and existing systems, Nord leads the market with IE5 efficiency motors and energy-efficient solutions that reduce emissions and enable the repurposing of the saved energy for use throughout the airport.

Norder Design Associates Limited
Booth: E135
Web: norder.co.uk
Norder plans, designs and advises on airfield infrastructure and airport buildings. Working for airports, investors and constructors at all project stages, this includes commercial and military airfield planning and engineering; airfield capacity analyses; airfield pavements; MRO, FBO and cargo center design; and heliport/vertiport design.

Nordic Office of Architecture AS
Booth: G140
Web: www.nordicarch.com
With 400 architects and studios in Norway, Denmark and Iceland, Nordic Office of Architecture is one of the leading architectural practices in the Nordics, with clients and projects around the world. Inspired by the Nordic design tradition of simplicity, functionality and craftsmanship, it designs resilient and beautiful spaces, buildings and cities.

NOS Division of Cascina Costruzioni
Booth: C280/6
Web: www.lacascina.it/costruzioni
The NOS Division is a team of professionals with over 30 years of experience in wayfinding, signage, signs, furnishings and special projects. It combines the excellence of quality products with the utmost reliability in the services offered to customers, providing customized solutions.

Nuctech
Booth: B282
Web: www.nuctech.com
Nuctech is a leading provider of security inspection solutions and services, delivering state-of-the-art technologies, high-performance products and integrated solutions for the security sector. Visit the booth, where the company will showcase its innovative and intelligent aviation solutions.

O

Objective
Booth: D160
Web: www.objective.se
Objective delivers world-class self-service solutions to airports and airlines, including self-bag drop, CUSS kiosks, tagging machines and security checkpoints, as well as CUSS, mobile and web applications. Customers include every airport in Scandinavia, SAS, Wizzair, Norwegian, Sunclass, Air Greenland, IcelandAir and SITA.

OICE – Associazione delle organizzazioni di ingegneria, di architettura e consulenza tecnico-economica
Booth: C280
Web: www.oice.it/eng
OICE is the employers' association belonging to Confindustria (the Confederation of Italian Industry), which represents Italian engineering, architectural and technical economic consulting organizations. Founded in 1965, OICE unites 450 Italian engineering and architecture companies, and is a founding member of FIDIC and a member of EFCA.

OMK Design
Booth: D119
Web: www.omkdesign.com
OMK has been at the forefront of public seating design and manufacturing for over 60 years. Its seating systems have been installed in more than 370 projects worldwide. Combining timeless designs, durable construction, exceptional client service and unparalleled industry insight, OMK creates public seating that goes the distance.

Omnivex
Booth: B422
Visit the booth to see what Omnivex can offer.

OneFlash
Booth: C53
Web: www.oneflash.eu
OneFlash offers a phone charging solution for a better passenger experience, either as additional non-aero revenue or to reduce stress. It can connect with loyalty programs and more. Unlock a powerbank in 30 seconds.

Oneworks
Booth: C280
Web: www.one-works.com
Oneworks is one of Europe's leading aviation design and consultancy firms. It partners with airport operators, investors and government authorities around the world to improve their operations and guide their development.

Onwave UK
Booth: D190
Web: www.onwave.com
Onwave delivers secure networking services, resilient connectivity and advanced geofencing solutions for businesses. Its offerings include private managed networks, cybersecurity, fiber circuits, satellite internet and mobile data. OWL geofencing technology provides real-time visibility and safety insights for projects. Visit the booth to learn how Onwave keeps businesses connected and protected.

onysID
Booth: E160
Web: www.onysID.com
A Germany-based developer of passenger processing equipment, like onyScan BGR, a high-performance boarding gate reader for seamless BCBP scanning with a unique maintenance concept, or onySwipe CKI, a space-saving reader for CKI with an outstanding OCR/MSR quality for API data capture, onsysID is at PTE to present a brand-new passport scanner – onyScan Pro.

Oshkosh AeroTech
Booth: B280
Web: www.oshkoshaerotech.com
Oshkosh AeroTech leads in the design, manufacture and support of cutting-edge airport gate equipment, with Jetway steel or glass boarding bridges, Jetpower 400Hz ground power units, JetAire pre-conditioned air systems and the iOPS telematics monitoring service.

Ostrum
Booth: B408
Web: www.ostrumtech.com
Ostrum is dedicated to transforming passenger assistance at airports through digital innovation. Its cloud-based platform manages all aspects of PRM operations while bringing passengers, assistance teams, cabin crew and boarding agents together through real-time communication – improving efficiency and enhancing the passenger experience.

Otis Elevator Company
Booth: D25
Web: www.otis.com/en/uk
Otis is one of the world's largest manufacturers of elevators, escalators and moving walkways, serving residential, commercial and industrial buildings across more than 200 countries. Known for its reliability and engineering expertise, the company provides installation, modernization and maintenance services for millions of units globally.

Out of Limits
Booth: D48
Web: www.ool.pt
Out of Limits will showcase its world-class, end-to-end solutions for turnaround management and baggage data and analytics, including Neurostand and Bagstogo. By combining advanced AI, real-time data and deep operational expertise, Out of Limits delivers disruptive solutions that redefine how airports and airlines manage operations. Trusted by multiple customers.

Outsight
Booth: D174
Web: www.outsight.ai
From curb to gate, Outsight delivers spatial intelligence through motional digital twins, real-time replicas that continuously track passenger and vehicle movement across the airport. By combining spatial AI with 3D lidar, airport operators gain anonymous, uninterrupted visibility to optimize operations, reduce wait times and enhance passenger experience – without compromising privacy.

P

Paravision
Booth: C248
Web: www.paravision.ai
Visit the booth to see what Paravision can offer.

Parhelia Analytics
Booth: E14
Web: www.parhelia-analytics.com
ANSAI: An intuitive AI chatbot, fostering human-like conversations for seamless knowledge retrieval from corporate proprietary resources.

Pascall+Watson
Booth: D182
Web: www.pascalls.co.uk
Visit the booth to see what Pascall+Watson can offer.

Pattern Labs
Booth: B142
Web: www.patternlabs.ai
Visit the booth to see what Pattern Labs can offer.

PDC
Booth: G211
Web: www.pdc.com/pdc-aviation
PDC is a global leader in aviation planning software, with over four decades of experience across 70 countries. Its AirportSuite leverages advanced AI to transform complex data into actionable insights. Its scalable solutions ensure that airports of all sizes can modernize their infrastructure and improve the passenger journey.

PDS Infrastructure Systems Limited
Booth: E135
Web: pdslimited.co.uk
PDS specializes in turnkey SCADA and control and monitoring systems for critical transportation infrastructure. With 25 years of aviation sector experience, its expertise includes SCADA, PLCs, PAVA, CCTV, DTS, UPS, lighting, runway condition monitoring and other associated systems. PDS is a trusted partner for high-integrity, high-availability integrated solutions.

PHP Real Cezary Wojtkowiak
Booth: B118
Web: www.real.kalisz.pl
Real is a highly appreciated manufacturer of passenger seating for airports. Over 35 years of international experience and high-quality polyurethane and upholstered products with 100% Polish origin have contributed to the global success of the company.

Planeground Airport Consulting
Booth: D102
Web: www.planeground.com
Planeground Airport Consulting is an independent consulting company providing specialized analytics and planning services for the aviation industry. It was founded in 2011 by a group of experienced industry experts with a mission to improve airport planning and development solutions by leveraging real-data evidence.

PTE ASIA

PASSENGER TERMINAL EXPO

September 23-24, 2026
Sands Expo & Convention Centre, Singapore

PTE Asia lands this September!

Asia is the world's fastest-growing aviation market, with passenger numbers projected to double by 2043.

PTE Asia places you at the heart of APAC's airport expansion - connecting you with the innovators, suppliers and decision-makers shaping the region's future.

Meet us at the PTE Lounge at PTE World to find out more.

REGISTER TODAY!

www.pte-asia.com

Plaza Premium Group
Booth: C325

Web: www.plazapremiumgroup.com

Plaza Premium Group is a global leader in airport hospitality, delivering end-to-end passenger experiences across 600+ airports in 150 countries. With 14 brands, award-winning lounges, transit hotels, dining and digital platforms, PPG serves 30 million travelers annually and helps airlines and partners elevate travel worldwide with proven innovation and service.

Point FWD
Booth: B140

Web: www.pointfwd.com

Point FWD is an independent airport and security consultancy helping organizations move their security operations forward. The company combines operational expertise, data-driven insight and a holistic view of assets, processes and people to design, implement and optimize futureproof security solutions that work in real life.

Poltrona Frau
Booth: C156

Web: www.poltronafrau.com

Poltrona Frau designs and manufactures seating for airports, public spaces and bespoke lounge areas, continuing a tradition of iconic furniture since 1912. Guided by a sustainability strategy aligned with shareholders, the company is committed to reducing greenhouse gas emissions by 50% through responsible production, innovation and long-term environmental stewardship efforts.

PoppyPod
Booth: E80

Web: www.poppypod.com

PoppyPod is dedicated to revolutionizing the passenger experience by providing a standalone sensory pod solution. The company's core mission is articulated in its tagline: 'Calm where it's needed most.' The PoppyPod is designed to act as a private retreat from the relentless noise, crowds and stress inherent in travel.

Port Polska
Booth: D289

Web: portpolska.pl/en

Port Polska is a strategic transportation program developed by Centralny Port Komunikacyjny, creating an integrated air, rail and road hub between Warsaw and Łódź. Centered on a next-generation airport and high-speed rail, the program enhances connectivity, supports sustainable growth and positions Poland as a leader in central and Eastern Europe.

Portland
Booth: E135

Web: www.portland-design.com

Portland works with airport authorities, operators and investors to develop passenger experience vision and commercial masterplanning strategies to enhance the passenger experience and optimize commercial revenues while creating an authentic 'spirit of place.'

Power Stow
Booth: D90

Web: www.powerstow.com

Power Stow specializes in designing and manufacturing innovative baggage and cargo handling system solutions for airports, airlines and ground handlers. At PTE World, Power Stow will showcase the transfer belt, its innovative technology to assist in unloading baggage and cargo from containers and baggage carts to the arrival belt.

PowReady
Booth: C77

Web: www.powready.com

PowReady eliminates low-battery anxiety for travelers with portable power bank stations across airports. Partnering with airports, it delivers seamless, on-demand charging throughout terminals, letting passengers power devices while on the move instead of searching for sockets. Convenient, reliable and stress-free, PowReady keeps journeys connected so travelers stay charged anytime, anywhere.

Pressalit
Booth: D39

Web: www.pressalit.com

Pressalit is a Danish company specializing in innovative, high-quality solutions for bathrooms and kitchens, with a strong focus on accessibility and functionality. Since 1954, Pressalit has been a global leader in designing height-adjustable and fixed solutions.

Printronix
Booth: B415

Web: www.printronix.com

Printronix is the exclusive distributor of Fujitsu dot-matrix printers: best-in-class functionalities and performance to print passenger manifests at the boarding gates. Printronix manufactures industrial printing solutions, offering the most-trusted selection of ultra-dependable printers for demanding environments. Local contact: Lareen Kohler, +44 7876 548607.

PRM Assist
Booth: A46

Web: www.prmassist.com

Visit the booth to see what PRM Assist can offer.

Proavia
Booth: C188

Web: www.proavia.com

Proavia connects airports and aviation stakeholders with its 55+ members. Its members provide innovative solutions to support decarbonization, safety, cybersecurity and passenger experience. Through fairs, missions and workshops, Proavia brings airports the right partners to accelerate development projects and meet future challenges. With Proavia, you access trusted expertise and innovation.

ProGlove
Booth: A12

Web: www.proglove.com/de

ProGlove is a Munich-based technology company developing industrial wearables for human-centered productivity. Combining ergonomic hardware with intelligent software, ProGlove empowers frontline teams to work more safely, healthily and efficiently. Trusted by over 2,000 customers worldwide across logistics, manufacturing and retail environments.

PSI Software SE, logistics business unit
Booth: C340/C350/C370/D370/D350

Web: www.psi.de/en

PSIairport enables integrated passenger and baggage handling through end-to-end system networking. Built on over 50 years of logistics software expertise, it supports transparent and reliable airport processes. The solution benefits from global technology transfer within PSI Software SE and is backed by certified quality management and information security standards.

PTE Asia 2026
Booth: B250

Web: pte-asia.com

With the Asia-Pacific (APAC) region set to dominate global air passenger traffic growth over the next decade, *PT World* has launched a brand-new event dedicated to the region! PTE Asia 2026 will take place in Singapore on September 23-24. Please visit Booth B250 to discuss this year's event and enjoy a refreshment!

PTE World 2027
Booth: B250

Web: www.pte-world.com

The next edition of PTE World will take place in Amsterdam, April 6-8, 2027. Returning to the Dutch capital, the event is already shaping up to be an even bigger and better gathering for the global passenger terminal community. Please visit Booth B250 to discuss more.

PT World
Booth: B250

Web: www.passengerterminaltoday.com

Published by the organizer of PTE World (previously Passenger Terminal Expo), *PT World* (formerly *Passenger Terminal World*) is widely acknowledged as the most readable and best-designed publication in the sector. With a global audience of 34,000 key decision makers, come and meet the team to discover how *PT World* can tailor a package to meet your specific marketing needs.

Q

Quantum Aviation Solutions
Booth: B225

Web: quantum.aero

Visit the booth to see what Quantum Aviation Solutions can offer.

Quavis
Booth: D273

Web: www.quavis.aero

Emse and Quavis have been designing, manufacturing and innovating self-service passenger automation systems for over 10 years. With offices in Germany and Turkey, they offer catalog products and tailored solutions, specializing in CUSS-compliant and retrofit devices that accelerate passenger flows and enhance ancillary revenue for airlines.

R

Rapiscan Systems
Booth: C219

Web: www.rapiscansystems.com

Rapiscan Systems is a leading global provider of security inspection solutions, with an extensive portfolio of baggage and parcel inspection, cargo and vehicle inspection, hold baggage screening, people screening, trace detection, radiation detection, tray return systems and enhanced security solutions, operating in the world's most demanding security environments.

Rate Now
Booth: B417

Web: www.ratenow.es

Visit the booth to see what Rate Now can offer.

Reco 3.26 Srl
Booth: C280/10

Web: www.reco326.com/en

At PTE World 2026, Reco 3.26 will present its new smart airport solutions based on AI, designed to support passenger flow management, border control and airport security. Reco 3.26 offers innovative technologies aimed at improving efficiency, safety and the passenger experience across the entire airport ecosystem.

Reel GmbH
Booth: C340J

Web: www.nkmnoell.com

Reel, part of the French Reel Group, specializes in innovative lifting, handling and transportation solutions for high-safety industries like aerospace, nuclear and metals. With 3,400 employees, Reel delivers tailored, sustainable systems focusing on automation, digitalization and modernization, ensuring maximum safety, efficiency and compliance with stringent quality standards worldwide.

Regula
Booth: A64

Web: www.regulaforensics.com

Regula is a one-stop shop company with decades of experience in the design and development of ID verification solutions and forensic hardware. Guided by three core principles – innovation, accuracy and reliability – Regula provides its customers with trustworthy solutions used in border control, travel, aviation, forensics, hospitality, banking, etc.

RESA
Booth: C140

Web: www.resa.aero

With 30+ years of expertise, RESA is one of the world's IT leaders for airport and handler systems. RESA develops, markets and maintains a wide range of integrated software solutions covering all airport IT needs, from passenger check-in, boarding and tracking, to baggage reconciliation, biometrics, business intelligence and automated hardware.

Rodeco
Booth: D138

Web: www.rodeco.se

Rodeco designs, manufactures and delivers attractive and safe playgrounds to airports worldwide so that a pleasant family journey can begin with a playful moment.

Rohde & Schwarz
Booth: E250

Web: www.rohde-schwarz.com

The QPS Walk2000 represents a significant advance in security technology as the world's first walk-through millimeter-wave scanner approved for passenger screening by the European Civil Aviation Conference (ECAC). This certification confirms that the scanner adheres to stringent aviation security standards, making it applicable in various fields, including loss prevention.

S

Saab
Booth: C260

Web: www.saab.com

Since Saab was founded, it has striven to keep people and society safe. It is a basic human need to feel safe and, as Saab sees it, a human right. Through systems and solutions that increase security, Saab can make this possible.

Sandalyeci
Booth: D110

Web: www.sandalyeci.com/int

Visit the booth to see what Sandalyeci can offer.

Satya Digital Ltd
Booth: E11

Web: www.satya.digital

Satya Digital's open-source intelligence helps governments and border agencies detect risk and manage borders more effectively, providing an added layer of insight that extends beyond standard passenger checks to help them identify potential risks earlier and respond with greater confidence. CEO: Ofer Ronen; sales director: Nath Dadon.

Scanna MSC
Booth: D50

Web: www.scanna-msc.com

Scanna is exhibiting advanced aviation security solutions. The ScanPlex Shoe Scanner enables fast, intuitive step-on, step-off explosive detection for passenger footwear screening. The Scanmax range of cabinet x-ray systems resolves primary alarms, providing high-resolution images; the Scansilc enables rapid assessment of unattended baggage left in public areas of the airport.

ScanTech AI Systems Inc.
Booth: C110

Web: nvestor.scantechais.com

ScanTech AI Systems (NASDAQ: STAI) is revolutionizing security with cutting-edge, AI-driven screening technologies designed for critical infrastructure worldwide. The company's next-generation fixed gantry CT systems provide advanced threat detection, equipping airport operators, transportation hubs and high-security facilities with the ability to identify prohibited items with speed and accuracy.

Scheidt & Bachmann Parking Solutions
Booth: E296

Web: www.scheidt-bachmann.com

Scheidt & Bachmann is a leading provider of integrated, modular parking systems for facilities of all sizes, from local airports to major international hubs. With over 110 airport installations worldwide, futureproof technologies enable seamless access, various payment options, camera-based kiss-and-fly zones, and efficient, sustainable parking operations.

Schneider Electric
Booth: C188

Web: www.se.com

Airports must modernize to stay resilient and competitive. By unifying operations, strengthening electrical infrastructure, enhancing cybersecurity and accelerating decarbonization, Schneider Electric enables airports to operate more reliably, efficiently and sustainably, supporting safer passenger journeys and advancing the industry's transition to net zero.

Scott Brownrigg
Booth: E135

Web: www.scottbrownrigg.com

Scott Brownrigg is a global design leader with a long history in aviation design. Recent schemes include Heathrow Terminal 6 – Heathrow West, the Medina Airport Extension, Bandaranaike Airport, Istanbul Airport and airports across Africa. Scott Brownrigg delivers efficient, visionary and commercially successful airports to be enjoyed by all.

Searidge Technologies
Booth: E360

Web: www.searidgetech.com

Searidge Technologies is a global leader in advanced airport solutions and digital towers. It helps airports improve safety, efficiency and collaboration through AI-powered technologies and real-time data. Visit the booth to explore how the company's open, scalable platform, AI-turnaround and real-time situational awareness drive intelligent, connected airside operations.

Secunet Security Networks
Booth: D255

Web: www.secunet.com

Secunet offers border control solutions that put a smile on every passenger's face: ABC gates, self-service kiosks, biometric middleware and PKI – each component of the border gears portfolio helps to simplify and speed up processes at borders. Secunet will give live demonstrations of how smart and easy border control can be.

SeeTrue
Booth: D165

Web: www.seetrue.ai

SeeTrue provides an AI-based automatic threat detection software solution on top of x-ray and CT systems at airports, seaports, urban security checkpoints, customs and shipment centers. The company's solution makes the security process and travel as fast and secure as possible, while also improving operational efficiency. Learn more at www.seetrue.ai.

Seikodo Corp
Booth: B42

Web: seikodonet.com

Seikodo is showcasing the upgraded Linerless Tag 2.0, which has been made more environmentally friendly utilizing a sustainable, silicone-free, recycled PET bottle backing material. With the merits of the former linerless bag tag (no liner, no garbage and easy to attach), it is now more CS and CX oriented.

Self Trust (CITCOnveyors)
Booth: B300

Web: www.airportconveyors.eu

CITCOnveyors is an airport conveyor manufacturer with 25 years of experience, delivering projects across Europe, Africa, the Middle East, Asia and the Americas. The company specializes in airport baggage handling systems, providing reliable, flexible, competitive solutions tailored to international airport requirements.

Selfcair UK
Booth: B100

Web: www.selfcair.com

Selfcair is a UK-based engineering company delivering innovative airport security solutions. Founded in 2015, the team has deployed nearly 200 operational lanes worldwide. Its latest innovation, the AI-powered Secure Flow TrAI System, enhances efficiency, safety and passenger experience through smarter, faster and more consistent security processing.

Sentrycs
Booth: D63

Web: www.sentrycs.com

Sentrycs provides cyber-based counter-UAS solutions for the detection, identification, tracking and mitigation of unauthorized drones. Using protocol-level interaction, Sentrycs enables controlled drone outcomes in sensitive and complex operational environments. The solution supports defense, homeland security and critical infrastructure operators worldwide.

Servefirst
Booth: B57

Web: servefirst.co.uk

Visit the booth to see what Servefirst can offer.

ServiceTec Airport Services International
Booth: B138

Web: www.servicetec.com

With over three decades of knowledge and experience, ServiceTec is the world's leading independent provider of managed IT services for airports and airlines. Its ability to optimize these services creates a better passenger experience, protects your reputation and revenue, and ensures your airport is the go-to choice for passengers.

SEW-Eurodrive GmbH & Co. KG
Booth: D350C

Web: www.sew-eurodrive.de

SEW-Eurodrive delivers advanced drive and automation solutions for airport operations, from baggage handling systems to air cargo logistics. With 22,000+ employees and over 90 years of expertise, the family-owned company shapes the future of reliable, efficient motion technology worldwide. Founded in 1931, it remains headquartered in Bruchsal, Germany.

SFMM Architects
Booth: B402
Web: www.sfmm.biz

SFMM is a multidisciplinary design consultancy specializing in aviation and large-scale projects worldwide. SFMM provides comprehensive design consultancy services from concept to construction, mainly for operators and contractors. With its expertise in airport design and a BIM-driven project delivery approach, SFMM ensures seamless execution, transforming visionary airport designs into reality.

Shabstec
Booth: C187
Web: www.shabstec.com

Founded in 2015, Shabstec was established to address the lack of innovation and slow progress within the aviation sector, particularly in baggage handling logistics and associated IT solution capabilities. The company focuses on delivering targeted solutions that help customers improve operational efficiency while progressing toward net zero emissions.

Shanghai Aviation Printing
Booth: E110
Web: www.sapc1.com

Shanghai Aviation Printing entered the RFID industry in 2009, introducing advanced RFID production equipment from Germany, and providing RFID baggage labels and RFID baggage tags for major airlines. In 2017 it updated to an IATA Strategic Partnership and became an IATA RFID subworking group member.

Sharp Display Solutions Europe
Booth: B261
Web: www.sharpdisplays.eu

Sharp Europe helps organizations thrive in a rapidly changing working world. By connecting people and technology, it delivers trusted, tailored solutions for the workplace and public spaces that increase efficiency and enhance performance, while freeing up customers to focus on what they do best.

Shenzhen CIMC-Tianda Airport Support
Booth: B220
Web: www.cimc-tianda.com

CIMC Tianda is a leading supplier of airport equipment that provides advanced and reliable products and services for its customers. It offers numerous high-quality products, such as PBB, PCA, food trucks, Aeroabus, travel inspection systems, fire trucks, rescue equipment and automatic logistics equipment.

Sick
Booth: C350A
Web: www.sick.co.uk

Sick's sensor solutions drive airport logistics. A technology and market leader, Sick delivers intelligent sensors and application solutions that ensure smooth operations across airports, integrated into passenger boarding bridges, ground vehicles, baggage and air freight handling, access control, building and perimeter monitoring, and catering.

Sidara
Booth: D239
Web: www.sidaracollaborative.com

Sidara is a global network of specialist firms united by a shared purpose: shaping a better world through expertise, creativity and collaboration. With 21 companies, 308 offices and 20,000 professionals worldwide, Sidara leads aviation design, partnering with 300+ clients to deliver innovative, responsive environments that enhance performance and passenger experience.

SignAgent
Booth: A36
Web: www.signagent.com

SignAgent is a wayfinding and sign asset management platform used to design, build and manage wayfinding and signage programs. Take control of your sign data by knowing where your signs are and what they say with a complete user-friendly database of all exterior and interior signs in your airport.

Signapse
Booth: D262
Web: www.signapse.ai

Signapse delivers real-time AI sign language translation for airports, transforming announcements, emergency messaging and passenger information into photorealistic sign language. Its scalable API integrates with FIDS, wayfinding screens and live systems, helping airports meet accessibility obligations, transform the passenger experience and futureproof inclusive communications at scale.

Siili Solutions Oyj
Booth: C54
Web: www.siili.com

Impact driven, AI-powered. Siili Solutions offers AI-powered end-to-end digital development – from strategy and design to innovation, data, engineering, platforms and continuous solutions.

SIS Systems (UK)
Booth: C60
Web: sis.systems

SIS Systems is a next-generation baggage handling conveyor manufacturer focused on sustainability. Its systems combine energy-efficient motors, smart controls and recyclable materials to deliver reliable, high-throughput performance while significantly lowering carbon emissions and total cost of ownership. Built for performance. Designed for the planet.

SITA Inc. UK
Booth: C240
Web: www.sita.aero

Don't miss SITA at PTE World: come see how intelligent airports are redefining air travel. Beyond the exhibition floor, it's about conversations that spark ideas and turn complexity into clarity. Join SITA in shaping smarter, more connected journeys. Meet SITA at the booth to explore innovations that move airports forward.

Sittig Technologies
Booth: B422
Web: www.sittig-tech.com

Sittig Technologies provides advanced automated announcement software for airports worldwide. Its PAXGuide platform delivers fully automated, high-quality announcements in 149+ languages to enhance passenger experience and operational efficiency. Trusted by major international airports, Sittig combines AI-driven T2S with deep PA integration to support reliable, accessible, future-ready airport communication.

SJ Group
Booth: F201

SJ Group helps its clients navigate the complexities of the modern aviation landscape, meeting the needs of modern aircraft and passengers, enhancing operational efficiency and supporting the industry's ambitious environmental goals. The company provides a range of services from innovative aviation planning to terminal systems to landside developments and pre-construction solutions.

Smart Airport Systems (SAS)
Booth: D156
Web: www.smart-airport-systems.com
Smart Airport Systems is globally recognized as the undisputed pioneering leader in aircraft turbine shutdown on the ground, deploying revolutionary aviation solutions. Through its advanced technologies, including APU Off and Eng Off, SAS actively contributes to emission reductions airside, implementing its zero ground emissions strategy adopted by international airports.

Smarte Carte
Booth: D120
Web: www.smartecarte.com
Smarte Carte partners with airports worldwide to deliver integrated trolley management, passenger services and revenue-generating amenities. From paid and managed trolley programs to secure bag storage, lost-and-found software, porter services and premium massage chairs, Smarte Carte enhances passenger flow, operational efficiency and non-aeronautical revenue performance.

Smarter Airports
Booth: C270
Web: www.smarterairports.com
Airhart is an airport operations orchestration platform that connects systems, people and data across the airport ecosystem. Replacing fragmented legacy architectures, it enables real-time collaboration, predictive insight and coordinated decision-making. From daily operations to disruption management, Airhart provides the digital backbone for resilient, efficient, future-ready airport operations at scale.

Smiths Detection
Booth: B259
Web: www.smithsdetection.com
Smiths Detection is a global leader in threat detection and screening technologies for aviation, ports and borders, urban security and defense. With more than 70 years of field-tested experience, Smiths Detection delivers the solutions needed to protect society from the threats.

SOS Lab Co. Ltd
Booth: C18
Web: soslab.co/en
SOS Lab is a leading lidar solution provider specializing in smart mobility and infrastructure. Its solid-state lidar sensors deliver high performance, a compact design and cost efficiency for a range of urban applications, LPGS SPOT and LCAS QMAP.

Special Mobility
Booth: D70
Web: www.specialmobility.eu
Special Mobility designs and supplies practical PRM transportation solutions for airports worldwide. Its products are developed for intensive daily use, focusing on reliability, ergonomics and ease of maintenance. Working closely with airports and service providers, Special Mobility supports consistent, dignified passenger assistance through robust equipment and scalable, data-driven options.

SSTLabs
Booth: D65
Web: www.sstlabs.net
SSTLabs is a leading provider of AI-driven x-ray baggage screening solutions and full-body scanners. Its DICOS-compliant Made in Korea technologies ensure seamless interoperability and superior threat detection for global airports. SSTLabs is dedicated to creating safer, more efficient, future-ready security environments through innovative hardware and intelligent algorithms.

STI Security Training International GmbH
Booth: D370D
Web: www.sti-training.com
STI Security Training International delivers high-quality security training, consulting, IT solutions and services worldwide. With decades of aviation security expertise, it provides classroom courses, online training and advanced CBT software. Over 320 specialists support organizations in aviation, industry, supply chain and critical infrastructure. STI trains your security.

Stolcomfort
Booth: D370A
Web: www.stolcomfort.com
Stolcomfort develops premium ergonomic 24/7 seating solutions under the Svenstol brand for safety-critical airport and control room environments. At PTE World, Stolcomfort will present the new Svenstol S7 chair, combining advanced ergonomics, active sitting and exceptional durability to support focus, comfort and performance during long-duty operations.

Stretta Imaging
Booth: B222
Web: www.strettaimaging.com
Visit the booth to see what Stretta Imaging can offer.

SuitX by Ottobock/ Ottobock SE & Co. KGaA
Booth: C340G
Web: www.suitx.com/de/startseite
For over a decade, SuitX has been driven by one clear mission: to make everyday work easier in physically demanding environments, through smart, human-centered wearable technology such as exoskeletons. Meet product specialist Max Herzog and ergonomic specialist Birte Vester at the booth.

SureScan
Booth: D109
Web: surescaneds.com
SureScan Corporation designs and manufactures advanced, cost-effective security screening systems for aviation and high-security environments. Its CT-based solutions support cabin, checked baggage, pallet screening and automated tray return systems, helping operators achieve reliable performance, efficient operations and compliance with evolving global security requirements.

Suzhou Legate Intelligent Equipment
Booth: C259
Web: www.legateglobal.com
Suzhou Legate Intelligent Equipment delivers high-performance smart access gates and self-service terminals for passengers. Its customized, reliable smart access and service solutions boost operational efficiency and elevate the passenger travel experience.

Synaptic Aviation
Booth: D322
Web: www.synapticaviation.com
Synaptic Aviation delivers AI and computer vision solutions that optimize airport ramp operations. Its technology improves safety, efficiency and sustainability by enhancing ground handling, reducing turnaround times, and enabling smarter operational decisions for airlines and airports worldwide.

SyncroPro
Booth: A84
Web: www.syncro.pro

SyncroPro is a Swiss airport operations technology company delivering passenger services management software for PRM and passenger and crew bus transportation. The platform synchronizes real-time operational data (e.g. AODB), and enables task allocation, automated workflows and mobile integration. A full audit trail proves execution and ensures SLA performance monitoring.

Systra Limited
Booth: C19
Web: www.systra.com/uk

Systra leads the delivery of sustainable infrastructure and environments through specialist engineering and consultancy services. A world leader in mobility and mass transit, it delivers planning and development consultancy, engineering design, project management and specialist technical services that enable the safe and efficient movement of people, goods and essential services.

T

T-Systems International GmbH
Booth: B400
Web: www.t-systems.com/gb/en

T-Systems is a leading global provider of airport IT solutions, with over 40 years of experience. Its solutions and services have been implemented across 35 countries, in more than 100 airports worldwide, including 30% of the world's busiest airports. The company's airport management platform seamlessly integrates airport IT operations, enhancing collaboration.

Tadera
Booth: B120
Web: www.tadera.com

Tadera empowers airports to improve their safety, efficiency and financial performance through the delivery of purpose-built airport management software and integrated technology solutions.

Tagger Tech
Booth: A84
Web: www.taggertech.com

Visit the booth to see what Tagger Tech can offer.

Tahaluf Al Emarat Technical Solutions
Booth: C259
Web: www.tahaluf.ai

Tahaluf is a leading UAE technology innovator delivering advanced border control and identity solutions that streamline passenger movement and enhance national security. Through biometric verification, smart e-gates, pre-clearance systems and seamless integration with government and international databases, Tahaluf enables faster, safer, frictionless border experiences.

Tango Check
Booth: D57
Web: www.tangocheck.co.uk

Tango Check specializes in airside ID pass applications and background checks for staff and contractors working at all UK airports. It delivers a one-to-one service with UK-based staff only, no hidden costs and no resubmission fees. Trusted, transparent and highly rated, Tango Check saves clients time and money.

Taqt
Booth: C188
Web: www.taqt.com

Taqt provides simple, on-site solutions to make operational work visible and valuable. Using TaqtOne connected devices and SafeQod secure QR codes, managers capture reliable proof of presence without intrusive surveillance. Taqt transforms invisible human interventions into actionable data, ensuring fluidity and recognition for teams in prestigious global hubs.

TAV Technologies
Booth: C210
Web: www.tavtechnologies.aero

TAV Technologies is a global provider of airport technology solutions, delivering end-to-end systems that enhance operational efficiency, passenger experience and decision-making. Operating at more than 50 airports across 20+ countries, with expertise in airport management systems, AI-driven solutions and digital platforms, TAV Technologies supports airports in building smarter, sustainable operations.

Tawi AB
Booth: B320
Web: www.tawi.com/industries/airports-ports

Tawi provides ergonomic, flexible lifting solutions to improve baggage handling in airports, reducing employee injuries and increasing efficiency. Tawi's vacuum lifters streamline processes like loading, unloading and screening, supporting safe and productive operations across the industry. Tawi has over 650 baggage lift units installed in more than 65 airports worldwide.

Technology Reply
Booth: C113
Web: www.reply.com/technology-reply/en

Naitec, Technology Reply and Axulus Reply are showcasing their ultimate next-generation solutions for airport technology. By combining advanced AI and video analytics, the companies' integrated technologies enhance airport security, operational efficiency and passenger experience. From intelligent surveillance to real-time insights and automation, they deliver scalable and future-ready solutions.

Teknik Döküm
Booth: B240
Web: www.teknikdokum.com

With its 40-year experience in metalworking, Teknik Döküm manufactures and supplies quality products for airports. Discover high-quality tray return systems, conveyors and custom metal solutions for airports. Visit the booth to explore innovative designs and discuss your unique project needs.

Telent
Booth: B135
Web: www.telent.com

Telent, part of M Group, delivers and supports critical digital infrastructure across the UK. In aviation, it provides resilient communications, passenger information, security and operational systems that enhance safety, efficiency and real-time decision-making, helping airports manage rising demand and move toward more sustainable, reliable and connected operations.

TeleSecurity Sciences
Booth: E180

Web: www.telesecuritysciences.com

TeleSecurity Sciences (TSS) is a US-based company developing advanced algorithms for aviation security scanners. Its products include AI-powered automated threat recognition (CATR); the TSA-supervised Common Workstation (CW) for alarm adjudication; and the Officer Training System (OTS), delivering efficient, compliant, multiplatform screener training worldwide for airports, regulators and security operators.

Tellabs
Booth: D312

Web: www.tellabs.com

Tellabs leads the industry in fiber networking solutions, helping you save time, money and space. With streamlined installation and lower operational costs, its remarkably compact technology helps companies improve productivity. Tellabs delivers unmatched cybersecurity, superior reliability and greater bandwidth for the business needs of today and tomorrow.

Tensator
Booth: B285

Web: www.tensator.com

Tensator supports airports worldwide with innovative queue management solutions, combining over 50 years of heritage with intelligent technology. From physical barrier systems to digital queuing and wayfinding, Tensator helps optimize passenger flow, improve safety, enhance experience and deliver data-led operational performance.

Terberg DTS UK
Booth: B271

Web: www.terbergdts.co.uk

Terberg Aviation, part of Terberg DTS UK, offers premier support solutions for the GSE industry. Its OEM-trained technicians provide unparalleled service, from minor repairs to full refurbishments. Discover Terberg's high-quality GSE units and parts, tailored to meet your specific needs, with flexible purchase and leasing options available.

Tetra Tech
Booth: E135

Web: www.tetratech.com

Tetra Tech delivers comprehensive aviation services to enhance the planning, design and operation of airports and airspace systems across airside and landside environments. As a global provider of high-end consulting and engineering services, Tetra Tech is leading with science to provide clients with data-driven, market-leading water, environment and infrastructure solutions.

Thales
Booth: C116

Web: www.thalesgroup.com/en

Seamless airport journeys rely on advanced integration behind the scenes. Thales unifies biometric, self-service and border technologies with robust back-end systems, ensuring secure identity verification, multi-agency cooperation and cyber resilience. The visible ease at touchpoints is enabled by invisible, secure infrastructures, delivering both efficiency and safety in airport operation.

The Splash Lab
Booth: C50

Web: www.thesplashlab.com

Washrooms are the most used spaces and the least considered. The Splash Lab is changing that. The Splash Lab uses thoughtful materials, smart sustainability and holistic design principles to create exceptional products for high-footfall washroom spaces worldwide, helping designers balance structural complexity with a memorable user experience.

TK Airport Solutions
Booth: D175

Web: www.airportsolutions.tkelevator.com

TK Airport Solutions empowers airports worldwide with smart mobility and digital solutions. From passenger boarding bridges to MAX Automate and next-generation docking guidance systems, the company moves beyond expectations, using precision sensing to monitor apron activity, reduce turnaround times and enhance efficiency, sustainability and safety. TK Airport Solutions' passion is creating smarter airport experiences.

To70 Aviation
Booth: C101

Web: www.to70.com

To70 is an independent aviation consultancy founded in the Netherlands in 2000. It helps airports, air navigation service providers and authorities worldwide design safe, efficient and future-ready aviation systems through data-driven expertise in air traffic management, airport planning, operations, flight procedures and sustainability. Please contact Ella Soltani at ella.soltani@to70.eu, +32470117928 or visit the booth.

TrackIT Solutions
Booth: A92a

Web: www.trackit.aero

TrackIT is a reliable partner for visibility in aviation. The company empowers airports, ground handlers and cargo operators with real-time operational intelligence. Its patented platforms optimize GSE utilization, streamline terminal assets, strengthen customs baggage screening and digitalize cargo workflows, enabling faster turnarounds, higher productivity, improved compliance and smarter, data-driven airport operations.

Tramak GmbH
Booth: C350B

Web: www.tramak.de

Vertical transportation of solid products in high capacity, such as airport baggage, cartons, crates, barrels, sacks, etc, is Tramak's expertise. The company's continuous vertical conveyor, tailored to local dimension requirements, operates with rubber blockchains, with very low noise and no greasing. So do Tramak's reciprocating lifts for multilevel service.

Transoft Solutions
Booth: E215

Web: www.transoftsolutions.com

Transoft Solutions offers specialized airport planning, design and fast-time simulation products for the aviation industry. The company looks forward to meeting you in person at PTE World 2026.

Trueform
Booth: F214

Web: trueform.com

Trueform, a pioneering technology and manufacturing company with extensive knowledge and international experience, provides design innovation, manufacturing and specialist engineering solutions within the air passenger transportation sector. Working with clients, architects and designers, it develops and harnesses cutting-edge technology and advanced manufacturing techniques to create progressive, market-leading products.

Turner & Townsend
Booth: B260
Web: www.turnerandtownsend.com
Turner & Townsend is a global professional services company with over 22,000 people in more than 60 countries, working with clients across real estate, infrastructure, energy and natural resources. It specializes in major programs; project, cost and commercial management; project controls and performance; net zero; and digital solutions.

TXT E-Solutions
Booth: C280/9
Web: www.txtgroup.com
TXT delivers a full spectrum of aerodrome services, supporting airport operators, airlines, ground handlers, air traffic services providers and civil aviation authorities. With over 30 years of hands-on experience in the aviation domain, TXT combines technical excellence with deep regulatory knowledge, including EASA and FAA certification standards.

Typsa
Booth: D190
Web: www.typsa.com/en
Typsa Group is an independent consulting and engineering services group with extensive global experience in planning, design and construction supervision with more than 300 airport references. Examples include masterplans, airfield and terminal building designs, control towers, power plants, hangars and heliports and all types of aeronautical infrastructure.

U

UFA, Inc.
Booth: E350
Web: www.ufainc.com
UFA delivers advanced training solutions for airport operators, airlines and ANSPs. The company's pushback and airside driving simulators with voice recognition provide safe, effective training. Integrated with a learning management system (LMS), they streamline processes, enhance performance, and support safety and efficiency across airside operations and the broader aviation industry.

Ulma Handling Systems
Booth: B170
Web: www.ulmahandling.com/es/intralogistica-automatizada/sector-aeropuertos
Ulma Handling Systems' baggage handling division designs and delivers end-to-end baggage handling systems (BHS), covering check-in, transportation, inspection, storage, sorting and reclaim. With 150+ installations in 40+ countries, it is part of Ulma Group, a global organization of nine businesses, 6,000 professionals and over €1.2bn in annual revenue worldwide.

USM Airportsystems
Booth: D230
Web: www.airport.usm.com
USM Airportsystems designs and manufactures robust, fire-resistant steel furniture for airports including check-in desks, security and boarding control points, gate counters, lounge furniture and other passenger touchpoints, offering a cost-effective solution that combines durability with high-quality design.

V

Vaisala Oyj
Booth: C54
Web: www.vaisala.com/aviation
For over 50 years, Vaisala has set the global standard in aviation weather technology, trusted by 2,000 airports in 170+ countries. Every commercial flight relies on the company's observations at some point in its journey. Explore Vaisala's AWOS, RVR and windshear systems engineered for safety, efficiency and sustainability.

Vanderlande
Booth: B180 & B180A
Web: www.vanderlande.com
Vanderlande is a leading provider of innovative automation and digital solutions for smooth end-to-end airport operations. Customers benefit from smart technologies and deep expertise, boosting baggage-handling efficiency and reliability while supporting long-term, data-driven performance. In addition, Vanderlande's integrated hardware, software and lifecycle services help customers run baggage systems more sustainably.

Vangenhassend, the baggage sizer company
Booth: C340B
Web: www.baggage-sizer.com
Vangenhassend's solutions have been shaping airport environments for decades, often unnoticed but always reliable, design-driven and technically sophisticated. The company is widely known in the aviation industry for its mobile, autonomous baggage sizers. Vangenhassend's portfolio extends from comprehensive signage and airport signage systems to information totems and digital solutions.

Veovo
Booth: C250
Web: www.veovo.com
Veovo joins up data, predictions and decisions across the airport. Its AI-powered operations platform provides a smarter way to manage check-in, security, gates, immigration and baggage reclaim, so passengers can go brilliantly. 140 airports are advancing toward total airport management with Veovo. Join them! AODB. RMS. Passenger flow. Forecasting. Capacity planning...

VFM Facility Experts
Booth: C15
Web: www.vfm.nl
VFM Facility Experts is an independent facility management consultancy founded in 1998. With a no-nonsense, people-focused approach, it provides advisory, sourcing, workplace and performance services, plus interim and recruitment solutions. Its consultants deliver practical, sustainable improvements that enhance organizations' work environments and overall facility performance.

Via Guide GmbH
Booth: C370C
Web: www.viaguide.com
Via Guide is the one-stop expert for passenger flow technologies. It transforms the passenger journey through digitalization and automation. Passengers are dynamically guided within queues and to service points, improving throughput, efficiency and the overall passenger experience, transforming queuing from a necessary inconvenience into a finely-tuned logistical process.

ViaDirect
Booth: C188
Web: www.viadirect.com

ViaDirect designs and operates digital wayfinding solutions for airports, including interactive kiosks and mobile and web maps. Fully WCAG and ADA compliant, ViaDirect integrates with FIDS, queue management and commercial systems to improve passenger flow, reduce congestion and enhance the overall airport experience.

Viarium Group
Booth: D316
Web: viarium.es

Viarium is dedicated to the design, development and management of large-scale airport infrastructures. Its work covers all phases of the project lifecycle, from initial studies and planning to site supervision and operational management, always with a global and integrated vision. Contact Celia Laborda at celia.laborda@viarium.es, +34628024815, or visit the booth.

Victaulic
Booth: G130
Web: www.victaulic.com

Victaulic is a global leader in mechanical pipe-joining solutions, delivering advanced technologies and engineering services to address complex piping challenges faced by engineers, site owners and contractors. Since 1919, its innovative solutions have improved construction productivity and reduced risks, ensuring projects are completed safely, on time and within budget.

VidTroniX LLC
Booth: A48
Web: www.vidtronix.com

VidTroniX's goal is to work directly with clients to develop products fitting the specific needs of their companies. Since 1999, VidTroniX has installed over 105,000 ATP and MAP printers and has expanded its global presence in the marketplace with major installations in the Middle East and Africa.

Vilagrasa SA
Booth: B405
Web: www.vilagrasa.com

Visit the booth to see what Vilagrasa SA can offer.

Vitra International AG
Booth: F230
Web: www.vitra.com/en-gb/product/category/airport-seating

For decades, Vitra has dedicated itself to the subject of seating, supporting the airport industry with innovative, inspiring and durable solutions. Vitra's products can be used in diverse operational areas: from gate seating, check-in and information desks to passport and air traffic control, business lounges, food courts and back offices.

vLogix
Booth: A58
Web: www.vlogix.co.uk

vLogix is an independent aviation consultancy specializing in the planning, design and assurance of airport baggage handling systems. With more than 15 years of experience supporting major international and regional airports, it provides senior decision-makers with clear, evidence-led guidance that reduces program risk and accelerates delivery.

Volan Technology
Booth: D262
Web: www.volan.ai

Volan Span improved customer satisfaction at JFK International Airport Terminal 4 by 63% and cut escort costs at a major US airport by 80%, while increasing span of control. Volan's wireless network delivers real-time location intelligence for people and equipment across entire airports. No IT involvement, no GPS. Just results.

W

Waisl
Booth: B90
Web: www.waisl.in

Waisl drives digital transformation by applying advanced technologies to optimize complex operations. Following the success of its digital-twin-powered AeroWise command center, Waisl returns to PTE World to present TurnWise, a unified airside management platform enhancing safety, operational clarity and efficiency across airport operations.

Wallgate
Booth: G210
Web: www.wallgate.com

Wallgate is a market leader and specialist in the design and manufacture of robust, innovative and efficient washrooms and sanitary ware solutions. With over 50 years' experience, the company's bespoke manufacturing capabilities and efficient water management systems ensure you get highly effective washrooms and bathrooms.

Wanzl
Booth: C340A
Web: www.wanzl.com

Visit the booth to see what Wanzl can offer.

Waterless Scandinavia
Booth: A49
Web: www.waterless.dk

Waterless Scandinavia exhibits the world's most widely used system for waterless urinals. Every day, the company helps save the world millions of liters of clean drinking water. Contact www.waterless.dk, Jim Skov +4530950559, or visit the booth.

Waterman Group
Booth: E135
Web: www.watermangroup.com

Waterman has extensive experience in the aviation sector, providing expert advice on the acquisition, planning, development and ongoing operation and maintenance of aviation assets and infrastructure. Its innovative team of engineers, transportation planners and environmental specialists has delivered sustainable projects worldwide, supporting investors, developers and airport operators.

WeKnow Group
Booth: B80
Web: www.weknowgroup.com

WeKnow Group is redefining onward travel in airports. Live at London Heathrow, Sydney Airport and Prague Airport, the company's self-service kiosks let arriving passengers instantly compare every transportation option to their destination and buy tickets on the spot. One screen. Every journey. A faster, smoother passenger experience.

Wemap
Booth: E13
Web: www.getwemap.com

Wemap is an innovative company specializing in spatial computing, combining interactive mapping and intelligent geolocation. It supports airports and transportation hubs with interactive maps, seamless navigation, multimodal route planning and augmented reality. Deployed worldwide, its high-performance solutions enhance orientation, operational efficiency and the overall passenger experience across all devices.

WePlan Software
Booth: D59
Web: www.weplan.info

WePlan and WorkAxle deliver integrated workforce planning for airport and cargo operations: year ahead, day of ops and retrospectively. Together, they provide automated planning, rostering, real-time shift updates and employee-centric scheduling, reducing manual effort, increasing planning accuracy and improving transparency. It's a solution designed for operators facing rising operational complexity.

WhiffAway
Booth: D40
Web: www.whiffaway.com

Using its experience as a market leader in sustainable, efficient and connected washrooms, WhiffAway Group developed the world's first connected washroom platform. Delivered as a turnkey solution through consultation, installation and ongoing support, WhiffAway's agnostic solution uses best-in-class sensors to provide a holistic understanding of washrooms.

Wittra
Booth: D335F
Web: www.wittra.io

Wittra Networks builds hybrid connectivity infrastructure to enable physical AI in the real world. It digitalizes airports and complex environments through resilient, secure, scalable networks. Wittra's Unified Gateway integrates private 5G, Wi-SUN mesh, LoRa, mioty and UWB, supporting real-time positioning and sensor data for autonomous, intelligent operations.

WorkAxle
Booth: D59
Web: www.workaxle.com

WePlan and WorkAxle deliver integrated workforce planning for airport and cargo operations: year ahead, day of ops and retrospectively. Together, they provide automated planning, rostering, real-time shift updates and employee-centric scheduling, reducing manual effort, increasing planning accuracy and improving transparency. It's a solution designed for operators facing rising operational complexity.

WorkRelax
Booth: B36
Web: www.workrelax.fi

Visit the booth to see what WorkRelax can offer.

WSP
Booth: D101
Web: www.wsp.com/aviation

WSP has successfully planned, designed and managed over 8,000 airport projects worldwide over the past 80 years. It continues to be at the forefront of the aviation industry, advising on climate adaption, decarbonization, advanced air mobility, modular construction, PFAS, energy transition, digital transformation, capacity expansion, ORAT and seamless travel.

X

Xovis AG
Booth: C220
Web: www.xovis.com

Solutions for people flow – Xovis' effective and tailored solutions keep track of people flow. From passengers at airport terminals to train platforms and from visitors at shopping malls to smart buildings, the company enhances a smooth and safe journey.

Xperix Inc.
Booth: B270
Web: www.xperix.com

Xperix provides digital identity solutions worldwide, utilizing its proprietary biometric technology and document reading (OCR) technology, which has been proven in 130 countries. From B2G to B2B industries, based on its differentiated technology and market power, Xperix can set the standard to empower digital identity.

Y

Yonder
Booth: E15
Web: yonder.info

Yonder offers a powerful content management solution designed specifically for airports. The platform streamlines the creation, import, updating, distribution and compliance tracking of airport manuals.

Ypush – Brintal Limited
Booth: D61
Web: www.ypush.com

A world launch at PTE World 2026: the revolutionary Airport Ypush electric-powered wheelchair transits passengers with reduced mobility effortlessly, comfortably and efficiently, while the powered luggage trolley and porter's powercart take the strain with all the baggage on board – no pushing, no strain.

Zafire Aviation Software Ltd
Booth: B225
Web: www.zafire.aero

Visit the booth to see what Zafire Aviation Software can offer.

Zaha Hadid Limited
Booth: C274
Web: www.zaha-hadid.com

Zaha Hadid Architects (ZHA) delivers innovative, sustainable architecture worldwide, integrating advanced technologies and ecological materials. With over 70 acclaimed projects, ZHA sets new standards in design, efficiency and user experience, including major international airports in Beijing, Chongqing, Mumbai and Western Sydney, with upcoming projects in Vilnius, Damascus and Addis Ababa.

ZestIoT Technologies Pvt Ltd
Booth: D310
Web: www.zestiot.com

Visit the booth to see what ZestIoT Technologies can offer.

Zoeftig Limited
Booth: C230
Web: www.zoeftig.com

For over 50 years, Zoeftig has laid down its principles of product innovation, design ingenuity, aesthetic appeal and exceptional quality – characteristics that have shaped its seating solutions ever since. Zoeftig now focuses its efforts on the design and supply of seating for airports and various other public settings.

PTE World Conference*

Welcome to PTE World Conference 2026. Great opportunities for ideas, learning and networking await you, enjoy!

Please visit the Conference section of our website or scan the QR code to download the FREE event app for the very latest updates (schedule is subject to change).

A limited number of conference passes are still available to buy for 2026. Visit the main registration desk for details.

New for this year: Sign up to secure your delegate pass for 2027. On-site booking rate valid for three days only so book your pass early!

PTE World Conference 2027: If you're interested in speaking at next year's conference, please contact Janine McEvilly, conference director, janine.mcevilly@ukimediaevents.com.

Conference plan

PTEWORLD
PASSENGER TERMINAL EXPO

Show Floor Conference Theatre, Hall N11, Ground floor

ICC Capital Suite, Level 3

Conference catering

- **Complimentary food and beverages for all conference attendees!**
- **Welcome refreshments and pastries will be available:** March 17, from 08:00 in the delegate coffee area in the expo hall; March 18 & 19, from 08:00 outside the conference rooms in the ICC Capital Suite.
- **Refreshment breaks:** Complimentary beverages and an afternoon snack are available for delegates outside the conference rooms in the ICC Capital Suite.
- **Prepaid lunch vouchers for conference attendees:** Delegates and speakers should collect a lunch voucher from the main collection desk in the foyer on Level 3 of the ICC Suite. Please note that a new voucher should be collected for each day of conference attendance.
- **Lunch vouchers at Food Courts 1 and 2 in the expo hall:** Food Courts 1 and 2 offer a variety of food and drink options. Scan the QR code to download the app and view the menus. Your lunch vouchers can be used at the checkouts. A voucher will provide one main meal and a drink on one day.
- **Free refillable water bottle:** Please collect your free refillable water bottle from Join the Pipe – available in the ICC Suite. Re-fill stations are available nearby.

DAY 1, TUESDAY, MARCH 17

09:00 - 10:00 WELCOME TO PTE WORLD CONFERENCE 2026!

SHOW FLOOR CONFERENCE THEATRE

09:00 - **Welcome to PTE World 2026: Opening address**
Peter Massey, commercial director, UKi Media & Events, UK

09:20 - **Keynote speech**
Thomas Woldbye, chief executive officer, Heathrow Airport, UK

09:50 - 10:00 - 10-MINUTE BREAK TO MAKE YOUR WAY TO YOUR CONFERENCE TRACK OF CHOICE

10:00 - 17:15 AIRPORT CITIES,REGIONS AND CONNECTIONS

ROOM 17

INTRODUCTION BY CONFERENCE CHAIRS
Alena Maximova, communications and EU projects officer, Airport Regions Council, Belgium
Sergi Alegre Calero, director general, ARC – Airport Regions Conference, Belgium

10:05 - 10:50 - **Panel discussion: Measuring the success of airport cities**
Peter de Leeuw, head of airport city development, Vienna International Airport, Austria
Mira de Grande, director – commercial real estate, Brussels Airport, Belgium
René Droese, managing director, LabCampus, Germany

PANEL MODERATOR:
Henrik Rothe, course director, airport planning and management, Cranfield University, Cranfield University, UK

10:50 - 11:35 - **Panel discussion - LAC airport cities**
Fernando Echegaray, chairman ADP International, Groupe ADP (Aéroports de Paris), France
Francisco Medela, industry affairs director, ACI-LAC, Panama
Ignasi Ragas Prat, director, IR Economy, Logistics and Territory (IRELT), Spain

PANEL MODERATOR:
Sergi Alegre Calero, director general, ARC – Airport Regions Conference, Belgium

11:35 - 11:55 - BREAK

11:55 - **Airport city real estate: Strategy, development models and value creation**
John Arbuckle, partner and head of aviation, Newmark, UK

12:20 - 13:10 - **Panel discussion: Airport cities connecting multimodality, economic development and community integration**
Askin Demir, CEO, Blaise Diagne International Airport, Senegal
Filip Czernicki, CEO, Centralny Port Komunikacyjny, Poland
Shannon James, president and CEO, Aerotropolis Atlanta Alliance, USA
Prof. Laurence Liauw, principal director, SPADA (Hong Kong), Hong Kong
Speaker to be announced – see website or app for details

PANEL MODERATOR:
Ulla Ruuskanen, senior advisor, manager for Avia Network, City of Vantaa and Helsinki Uusimaa Regional Council, Finland

13:10 - 14:15 - LUNCH

14:15 - 15:00 - **Panel discussion: Mind the gap – rethinking airport access and disruption management**
Barbara Melotti, mobility manager, Bologna Airport, Italy
Christian Spaak, landside management, Berlin Airport, Germany
Karl-Heinz Keller, head of aviation, Zühlke Group, Germany

PANEL MODERATOR:
Tine Haas, task force leader, multimodality study/director airports, ACI Europe/Dornier Consulting, Germany

15:00 - **MXP North Rail Access: 15 years of PPP for sustainable connectivity**
Massimo Corradi, head of funded initiatives, SEA Milan Airports, Italy

15:30 - **Airports as catalysts for sustainable and resilient urban growth**
Dr Viktoriia Ivannikova, assistant professor and program chair for BSc in aviation management, Dublin City University Business School, Ireland

16:00 - 16:20 - BREAK

16:20 - **Overview: EU-funded OLGA, TULIPS AND STARGATE projects – 15+ EU projects achieving real sustainability**
Sergi Alegre Calero, director general, ARC – Airport Regions Conference, Belgium

16:35 - 17:15 - **Panel discussion: Airports as energy hubs**
Jordi Candela, CEO, Aeroports de Catalunya, Government of Catalunya, Spain
Massimo Corradi, head of funded initiatives, SEA Milan Airports, Italy
Nadine Richter-Muecklich, team lead and project manager, Fraunhofer IML, Germany

PANEL MODERATOR:
Alena Maximova, communications and EU projects officer, Airport Regions Council, Belgium

10:00 - 17:15 AIRPORT DESIGN, PLANNING AND DEVELOPMENT

SHOW FLOOR CONFERENCE THEATRE

SPONSORS:

ARCADIS LYNX

INTRODUCTION BY CONFERENCE CHAIRS
Mark Wolfe, director, aviation, WSP, UK
Nancy Stern, in-house architect, Vancouver Airport Authority, Canada

10:05 - 10:50 - Panel discussion: Unlocking UK aviation potential – shared goals for growth and expansion

Andrew Bell, CEO, Regional & City Airports, UK
Andy Cliffe, CEO, London City Airport, UK
Chris Woodroofe, managing director, Manchester Airport, UK
Pierre-Hugues Schmit, chief executive, London Gatwick, UK
Spokesperson, Heathrow Airport, UK

PANEL MODERATOR:
Tim Walder, chair, British Aviation Group (BAG), UK

10:50 - Manchester Airport: Designing for growth

Chris Woodroofe, managing director, Manchester Airport, UK

11:20 - Expanding Heathrow: Holding the vision through uncertain time

Ross Dickie, head of masterplanning, Heathrow, UK
Jolyon Brewis, partner, Grimshaw, UK

11:50 - 12:10 - BREAK

12:10 - The new Heraklion International Airport: A sustainable gateway for growth

Nikos Anastasiou, CEO, International Airport Heraklion Crete, Greece

12:40 - What's next for O'Hare Airport

Michael McMurray, commissioner, Chicago Department of Aviation, USA
Scott Duncan, design partner, SOM, USA

13:10 - 14:15 - LUNCH

14:15 - Port Polska: Planning and delivering a multimodal hub for future growth

Robert Szymczak, airport capacity and development strategy team manager – Port Polska Programme, Centralny Port Komunikacyjny, Poland
Artur Mazurek, operational and commercial director – Port Polska Programme, Centralny Port Komunikacyjny, Poland

14:45 - DUS Masterplan 2045 – smart growth in a limited environment

Gözde Kaygusuz, director – masterplan/planning and construction, Düsseldorf Airport, Germany
Robert Brinkmann, senior manager, amd.sigma Strategic Airport Development, G

15:15 - Adding capacity while growing at record pace

Eriola Tola, asset management and environment director, Tirana International Airport, Albania

15:40 - 16:00 - BREAK

16:00 - Runways to resilience: MRY's pathway to net zero terminal design

Katie Franco, director of communications, Monterey Regional Airport, USA
Bart van Vliet, practice leader, aviation + transportation, HOK, USA

16:30 - 17:15 - Panel discussion: Design-building the largest unitized modular concourse

Brenda Premenko, vice president and construction executive, Turner Construction Company, USA
Erik Logan, vice president and director of national aviation, The Walsh Group, USA
Michael Lloyd, principal, PGAL, USA

PANEL MODERATOR:
Mohamed Charkas, executive vice president chief infrastructure and development officer, Dallas Fort Worth International Airport, USA

JOIN US AFTER THE CONFERENCE FOR THE OPENING DAY PARTY!

10:00 - 17:15 AIRSIDE MANAGEMENT AND OPERATIONS

ROOM 12

SPONSORS:

Waisl SAS SMART AIRPORT SYSTEMS

INTRODUCTION BY CONFERENCE CHAIRS
Etienne van Zuijlen, managing director, e10CDM, Netherlands
Velissarios Eleftheriou, CEO, TotalCDM, Greece

10:05 - 11:05 - Panel discussion: The future operational challenges of airports

Albert Van Veen, vice president of innovation and chief information officer, Vancouver Airport Authority, Canada
Giovanni Russo, COO, Geneva Airport, Switzerland
István Szabó, chief operating officer, Berlin Brandenburg Airport, Germany
Kristoffer Plenge-Brandt, COO, Copenhagen Airports AS, Denmark

PANEL MODERATOR:
Etienne van Zuijlen, managing director, e10CDM, Netherlands

11:05 - 11:25 - BREAK

11:25 - 12:40 - Panel discussion: APOC physical versus virtual? Which wins?

Korijn Defever, general manager, Airport Intelligence, Belgium
Jani Ceder, head of APOC, Finavia, Finland
Neil Harvey, head of stable operations and performance, London Gatwick, UK
Scott Goodwin, assistant vice president – airport operations, Greater Orlando Aviation Authority, USA
Speaker to be announced – see website or app for details

PANEL MODERATOR:
Velissarios Eleftheriou, CEO, TotalCDM, Greece

12:40 - Growing together: A validated cross-partner framework for data-driven airport operations

Lorenz Wolf, ICT cloud solution architect, Zurich Airport, Switzerland
Mike Brügger, senior project leader/product manager TTMS, Zurich Airport, Switzerland

13:10 - 14:15 - LUNCH

14:15 - 15:25 - Panel discussion: The digital airport – apron management services and surface operations

Jaroslaw Niewinski, airport operations expert, Eurocontrol, Belgium
Julia Egerer, section manager aerodrome and ground handling safety, EASA (European Union Aviation Safety Agency), Germany
Marc Imfeld, expert AMS unit, Zurich Airport Ltd, Switzerland
Wojciech Ociesa, airport operations team manager, Centralny Port Komunikacyjny, Poland
Anja Schneidewind, branch director Peru, DFS Aviation Services, Germany

PANEL MODERATOR:
Graham Lake, director, Five Aero, UK

15:25 - 15:45 - BREAK

15:45 - Transforming airport operations with AI-powered RMS at MAG (Manchester Airports Group)

Jayne Bagley, product manager – Airfield Technology, Manchester Airport Group, UK
Kasper Hounsgaard, president and founder, Copenhagen Optimization, Denmark

16:15 - Transitioning from lagging to leading performance management at airports

Jeffrey Schäfer, process owner aircraft turnaround, Royal Schiphol Group, Netherlands

DAY 2, WEDNESDAY, MARCH 18

09:00 - 17:15
AIRPORT DESIGN, PLANNING AND DEVELOPMENT

SHOW FLOOR CONFERENCE THEATRE

SPONSORS:

ARCADIS LYNX

INTRODUCTION BY CONFERENCE CHAIRS
Alexandria Perotti, managing director – corporate real estate planning and development, United Airlines, USA
Tim Walder, chair, British Aviation Group (BAG), UK

09:05 - 09:35 - Panel discussion: Future-ready airports – building resilience and profitability globally
Kjell Kloosterziel, director of strategy and airport planning / director – Schiphol International, Royal Schiphol Group, Netherlands
Maria Laidlaw, CIO, Brisbane Airport Corporation, Australia

PANEL MODERATOR:
Shakir Khaja, aviation sector director, Arcadis, UK

09:35 - Heathrow West: An alternative vision for an affordable Heathrow expansion
Carlton Brown, CEO, Heathrow West Limited, UK
Steve Riano, aviation division manager, Bechtel Corporation, USA

10:05 - 10:50 - Panel discussion: Delivering private airport development programs in a capacity-constrained environment
Patrick Heck, vice president, Vantage Group, USA
Robert Walker, managing director – corporate real estate, United Airlines, USA
Gerrard Bushell, partner and chair, Carlyle Airport Group, USA

PANEL MODERATOR:
Navin Nitish, vice president, aviation growth and strategy lead, US East+LATAM, AECOM, USA

10:50 - 11:10 - BREAK

11:10 - 11:55 - Panel discussion: Measuring what matters on mega projects – lessons from SFO
Eva Cheong, managing director of airport services, San Francisco International Airport, USA
Gary Brandau, senior design manager, Hensel Phelps, USA
Ryan Fetters, principal, Gensler, USA

PANEL MODERATOR:
Kristin Allen, SFO program manager West Field Redevelopment Program, San Francisco International Airport, USA

11:55 - Stansted transformation a year later – beyond concept design
Mike Hardaker, chief asset and development officer, Stansted Airport, UK
Manuel Cruz, project director, Pascall+Watson Architects, UK

12:25 - Beyond the blueprints: Rethinking collaboration to design a terminal
Tony O'Brian, vice president of real estate, Tampa International Airport, USA
Douglas Wycoff, director of digital technologies and innovation, Tampa International Airport, USA

12:55 - 14:00 - LUNCH

14:00 - 14:45 - Panel discussion: One award, two airports – Marseille and Portland win Prix Versailles
Thomas Busser, head of communications and marketing, Aéroport Marseille Provence, France
Vince Granato, chief projects officer, Port of Portland, USA
Sharron Van der Meulen, managing director, ZGF Architects, USA

PANEL MODERATOR:
Francois-Pierre Curato, architect – partner, Foster + Partners, UK

14:45 - Capturing the heart of Texas in San Antonio
Timothy O'Krongley, deputy aviation director, San Antonio Airport System, USA
John Trupiano, principal, Corgan, USA

15:15 - Creating the JFKT1 cultural experience: Art, branding, film and digital
Quentin Brathwaite, design lead, JFK New Terminal One, USA
Gideon D'Arcangelo, principal, Arup, USA

15:45 - 16:00 - BREAK

16:00 - Beyond the terminal: Reimagining satellite spaces at Heathrow
Gianluca Maestri, senior masterplanning manager, Heathrow Airport Ltd, UK
William Li, principal – airport planning, AtkinsRéalis, UK

16:30 - 17:15 - Panel discussion: Planning for the long term for airports and airlines
Jessica Collins, airport affairs regional manager, Southwest Airlines, USA
Robert Ramsey, EVP and chief development officer, Nashville International Airport (Metropolitan Nashville Airport Authority), USA

PANEL MODERATOR:
Ross Payton, principal, Corgan, USA

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15
AIRPORT DESIGN, PLANNING AND DEVELOPMENT – MIDDLE EAST AND ASIA PACIFIC

ROOM 9

SPONSOR:

مـطـار حـمـد الـدولـي
Hamad International Airport
QATAR قـطـر

INTRODUCTION BY CONFERENCE CHAIRS
Carole Aramouni, director of aviation and architecture, Dar/Sidara, United Arab Emirates
Satyaki Raghunath, former chief operating officer, Bangalore International Airport Limited, India

09:05 - 09:45 - **Panel discussion: Fast-track development of greenfield airports**
Nicolas Schenk, chief development officer, Noida International Airport (a Zurich Airport company), India
Lee Lawrence, vice president, Vision Invest, United Arab Emirates

PANEL MODERATOR:
Alisa Silven, airport planner, NACO Netherlands Airport Consultants, Netherlands

09:45 - **Navi Mumbai International Airport: A new gateway to India**
Pankaj Mhatre, general manager, Navi Mumbai International Airport Pvt Ltd, India
Cristiano Ceccato de Sabata, director, Zaha Hadid Architects, UK

10:15 - **Expanding capacity at DOH**
Peter Daley, senior project director – major projects department, Hamad International Airport, Qatar

10:45 - 11:05 - BREAK

11:05 - **Terminal.0 Haneda: Turning R&D into passenger impact from curb to gate**
Yutaka Kuratomi, vice president, business marketing division, Japan Airport Terminal Co. Ltd, Japan
Masaya Shimizu, associate, Innovation Lab member, Azusa Sekkei Co. Ltd, Japan

11:35 - **Transforming HKIA: Innovation, seamlessness and excellence in passenger experience**
Steven Yiu, executive director of airport operations, Airport Authority Hong Kong, Hong Kong

12:05 - **Digital transformation at Changi: the making of Terminal T**
Jeffrey Loke, senior vice president – pricing and commercial strategy, Changi Airport Group, Singapore

12:35 - 13:45 - LUNCH

13:45 - **The changing face of Indian airports – modernization and development on a mass scale**
Vipin Kumar, chairman, Airports Authority of India, India

14:10 - **Elevating Mactan-Cebu International Airport as the Philippines' premier gateway**
Athanasios Titonis, chief executive officer, Aboitiz Operating Airports, Philippines
Hendrik Orsinger, director, Ricondo & Associates, UK

14:40 - 15:25 - **Panel discussion: Hub development across Asia and the Middle East**
Athanasios Titonis, chief executive officer, Aboitiz Operating Airports, Philippines
Videh Kumar Jaipuriar, CEO, Delhi International Airport, India
Speaker to be announced – see website or app for details

PANEL MODERATOR:
Satyaki Raghunath, former chief operating officer, Bangalore International Airport Limited, India

15:25 - 15:45 - BREAK

15:45 - **To be announced**
Speaker to be announced – see website or app for details

16:15 - **Managing expansion: Auckland Airport's tech blueprint for resilient, adaptive operations**
Richard Wilkinson, chief digital officer, Auckland Airport, New Zealand
James Williamson, CEO, Veovo, UK

16:45 - **DXN ORAT: Delivering airport operations before completion**
Jasmine Reis, head of finishes and ORAT infrastructure, Noida International Airport, India
Jan Wicki, head of program management and ORAT, Noida International Airport, India

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15
AIRPORT MANAGEMENT – LEADERSHIP AND STRATEGY

ROOM 12

INTRODUCTION BY CONFERENCE CHAIRS
Antoine Rostworowski, senior vice president – programs and commercial services, ACI World, Canada
Claire Donnellan, director, Customer Centric Consulting, Australia

09:05 - 09:50 - **Panel discussion: Airport CEOs – a new breed of influencers**
Aletta von Massenbach, CEO, Flughafen Berlin Brandenburg, Germany
Jost Lammers, president and CEO, Munich Airport, Germany
Justin Erbacci, director general, Airports Council International (ACI) World, Canada
Luke Bugeja, CEO, Ferrovial, Netherlands
R J Steenstra, president and CEO, Toronto Port Authority, Canada

PANEL MODERATOR:
Claire Donnellan, director, Customer Centric Consulting, Australia

09:50 - **Airports as catalysts: Leadership and strategy for the next era of aviation**
Christina Cassotis, CEO, Pittsburgh International Airport, USA

10:20 - 10:50 - **Fireside chat: Navigating hypergrowth with GTAA**
Deborah Flint, president and CEO, Toronto Pearson International Airport, Canada
Dwight Pullen, senior vice president, global market leader, surface transportation and aviation, AECOM, USA

10:50 - 11:10 - BREAK

11:10 - 11:55 - **Panel discussion: Private airport groups driving sustainable growth and digital innovations for airside development**
Göker Köse, president/CEO, Almaty International Airport, Kazakhstan
Régis Lacote, executive vice president in charge of operations/innovation and managing director of Paris-Charles de Gaulle Airport, Groupe ADP, France
Videh Kumar Jaipuriar, CEO, Delhi International Airport, India

PANEL MODERATOR:
Helena Jurado López, senior airport engineer and planner, NACO, Netherlands Airport Consultants, Netherlands

11:55 - **Airports' role in facilitating air connectivity in the Caribbean**
Jo-Anne Arends, aviation business development executive, Aruba Airport Authority, Aruba
Ricardo Hernández, CEO, Curaçao Airport Partners, Curaçao

12:25 - **Regional airports versus hubs in the aviation market of CEE**
Dr Tomasz Szymczak, acting CEO/SVP commercial, Warsaw Modlin Airport, Poland

12:55 - 14:00 - LUNCH

14:00 - **Managing a global airport network in a changing world**
Fernando Echegaray, chairman ADP International, Groupe ADP (Aéroports de Paris), France

14:30 - **Argentina: A success story in airport infrastructure investment**
Daniel Ketchibachian, CEO, Aeropuertos Argentina, Argentina

15:00 - 15:45 - **Panel discussion: From gatekeepers to game-changers – rewriting the global airport CEO agenda**
Adel El Fakir, CEO, Moroccan Airports Authority, Morocco
Armando Brunini, CEO, SEA Società Esercizi Aeroportuali, Italy
John Ackerman, chief executive officer, Los Angeles World Airports, USA
Roel Huinink, chief executive officer, JFK International Air Terminal, USA

PANEL MODERATOR:
Suresh Subudhi, managing director and senior partner, Boston Consulting Group, United Arab Emirates

15:45 - 16:05 - BREAK

16:05 - **Transforming culture and leadership for strategic renewal**
Maria Fyrstén, senior vice president – human resources, Finavia Corporation, Finland

16:30 - 17:15 - **Panel discussion: Future-ready airports – inspiring and empowering the people who power travel**
Andrea Caporale, director of people, performance and development, San Francisco International Airport (SFO), USA
Jason Inniss, director of airport operations, Bermuda Skyport Corporation, Bermuda
Michael Rudzinski, aviation buildings regional leader, RS&H, USA

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15
AVIATION SECURITY AND FACILITATION
ROOM 7

INTRODUCTION BY CONFERENCE CHAIRS
Johnnie Müller, founding partner, Copenhagen Security Excellence, Denmark
Neville Hay, director of training, Interportpolice, UK

09:05 - **Aviation security and facilitation – an outlook from Pakistan**
Faisal Imran, deputy director, Airports Security Force, Ministry of Defense, Pakistan

09:35 - **Security planning for airports amid regional instability**
Saif Ben Ammar, engineering and maintenance director, Airport International Group – AIG, Jordan
Jorge Cañete, airport business development manager, Airport Gurus, Spain

10:05 - **Preparing an airport/hub to operate under missiles/rockets/UAV threats**
Udi Baroz, manging director – Ben-Gurion International Airport (TLV), Israel Airports Authority, Israel

10:35 - 10:55 - BREAK

10:55 - Strengthening airports against hybrid threats in Europe

Johnnie Müller, founding partner, Copenhagen Security Excellence, Denmark

11:25 - 12:10 - Panel discussion: Hybrid attacks – dare to discuss; everyone is talking but no one is discussing

Mathew Mileham, security intelligence lead, Heathrow Airport, UK
Steve Luxford, aviation intelligence manager, NPCC Aviation Security and Airport Policing Portfolio, UK
Tarald Johansen, director safety, security and contingency, Avinor, Norway
Tiina Ranta, vice president, safety and security, Finavia, Finland

PANEL MODERATOR:
Johnnie Müller, founding partner, Copenhagen Security Excellence, Denmark

12:10 - 13:15 - LUNCH

13:15 - 14:00 - Panel discussion: When the circus comes to town: Planning for major events

Jim Szczesniak, airport director, Houston Airport System/ Houston Spaceport, USA
Martin Elam, deputy executive director – public safety and security, Los Angeles World Airports (LAWA), USA
Philip Bamber, assistant vice president of airport security, Hamad International Airport, Qatar

PANEL MODERATOR:
Don Zoufal, president, CrowZnest Consulting, USA

14:00 - 14:30 - Fireside chat: CBP's efforts to advance secure, seamless travel through public-private partnerships

Jody Hardin, executive director – Office of Innovation and Strategy Directorate, US Customs and Border Protection (CBP), USA
Patrick Sgueglia, senior product manager airport experience, partnerships and biometrics, Lufthansa, Germany

14:30 - Transforming staff access control for better security and productivity using biometrics

Alan Tan, senior vice president for aerodrome safety and aviation security, Changi Airport Group, Singapore

15:00 - 15:20 - BREAK

15:20 - 16:15 - Panel discussion: Crime prevention and disruptive passengers – why it's everyone's problem

Alan Tan, senior vice president for aerodrome safety and aviation security, Changi Airport Group, Singapore
Diana Marta Ruka, ground instructor manager, airBaltic, Latvia
Navaid Ahsan, head of aviation security operations, Etihad Airways, United Arab Emirates
Simon Dobinson, deputy chief constable, NPCC lead for aviation security and airport policing, National Police Chiefs' Council, UK
Steve Luxford, aviation intelligence manager, NPCC Aviation Security and Airport Policing Portfolio, UK

PANEL MODERATOR:
Neville Hay, director of training, Interportpolice, UK

16:15 - 17:15 - Panel discussion: Security equipment testing and certification: Trends and the future

Dr Kate Khan, principal scientist, Defence Science and Technology Laboratory (DSTL), UK
Dr Christopher Smith, director, DHS Transportation Security Laboratory, US Department of Homeland Security, USA
Denis Perron, senior director, screening technology, Canadian Air Transport Security Authority (CATSA), Canada
Paul Evans, security technology manager, Heathrow Airport, UK

PANEL MODERATOR:
Keith Goll, managing principal, Keith Goll Consulting, USA
Anne Marie Pellerin, CEO, Curie Technologies, USA

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 13:00 BARRIER-FREE AND INCLUSIVE TRAVEL

ROOM 10

INTRODUCTION BY CONFERENCE CHAIRS
Emily Yates, head of accessibility and inclusive design, Mima, UK
Dr Kirk Goodlet, vice president, InterVistas Consulting, Canada

09:05 - 09:50 - Panel discussion: Frankfurt Airport's Auracast pilot – a blueprint for inclusive passenger communication

Marcel Brühne, passenger and IT solutions terminal operations specialist, Fraport, Germany
Thomas Olsgaard, principal engineer, GN Hearing, Denmark
Johannes Sittig, CEO – Sittig US, Sittig Technologies, Germany

PANEL MODERATOR:
Jens Grabeleu, Leader Consulting and Strategy, FraAlliance GmbH, Germany

09:50 - Integrating autonomous wheelchair services into airport operations at Frankfurt Airport

Verena Dollberg, program director corporate strategy and digitalization, Fraport, Germany
Dr Mohsen Falahi, CEO, DAAV, Switzerland

10:20 - 11:05 - Panel discussion: Latin America perspective on accessibility in air travel

Bertha Alicia Pérez Báez, passenger experience lead, Grupo Aeroportuario del Pacífico, Mexico
Victor Sánchez, service and experience director, EL Dorado International Airport/Opain, Colombia
Federico Cabrera, COO, Aeropuertos Uruguay, Uruguay

PANEL MODERATOR:
Kirk Goodlet, vice president, InterVistas Consulting, Canada

11:05 - 11:25 - BREAK

11:25 - **Neurodiversity and sensory comfort in aviation buildings**
Jean Hewitt, technical author of PAS6463 for British Standards Institute, Buro Happold, UK

11:55 - **Operationalizing accessibility: Bridging the gap between strategy and frontline teams**
Caitlin Thomas, accessibility programs coordinator, Calgary Airports, Canada

12:25 - **Want a barrier-free terminal? Engage the community early**
Timothy O'Krongley, deputy aviation director, San Antonio Airport System, USA

13:00 - 14:00 - LUNCH

09:00 - 17:15 COMMERCIAL REVENUE – PLANNING, OPTIMIZING AND MANAGING NON-AERO ACTIVITIES

ROOM 3

INTRODUCTION BY CONFERENCE CHAIRS
Jeremy Corfield, partner, CPI, Australia
Susan Gray, managing director/partner, Concession Planning International, Australia

09:05 - **Concessions 2.0: How PIT is reimagining its airport retail program**
Bryan Dietz, senior vice president, air service and commercial development, Pittsburgh International Airport, USA
Barry Weekes, director, Three Compasses Consulting, UK

09:35 - **Reimagining new retail concepts**
Sergio Aparicio, CCO, Opain – Bogotá El Dorado Airport, Colombia

Séverine Patureau, chief commercial and merchandising officer, Groupe ADP, France

10:35 - 10:55 - BREAK

10:55 - 11:25 - **Fireside chat: Airports as experience hubs: A conversation with Vienna Airport**
Julian Jäger, joint CEO and COO, Vienna International Airport, Austria
Ibrahim Ibrahim, managing director, Portland Design, UK

11:25 - 12:10 - **Panel discussion: The power of the quaternity – how London Heathrow redefined airport commerce collaboration**
Nancy Stewart, head of category – duty free, luxury, fashion, gift and shopping services, Heathrow, UK
Eve Fifer, commercial director UK, Avolta, UK
Kaatje Noens, executive VP global travel retail, Puig, Switzerland
Richard Simkins, commercial and partnerships director, JCDecaux UK, UK
PANEL MODERATOR:
Martijn Steur, managing director, Kinetic Consultancy, Netherlands

12:10 - 13:15 - LUNCH

13:15 - **Concessions that transform: Brazilian insights for US airports**
Caio Cesar Moreira do Livramento, civil aviation regulation specialist, National Civil Aviation Agency (ANAC – Brazil), Brazil
Thiago Nykiel, CEO, Infraway Engenharia, Brazil

13:45 - 14:30 - **Panel discussion: Commercial strategy of a greenfield airport: Port Polska Programme case study**
Filip Czernicki, CEO, Port Polska Programme, Centralny Port Komunikacyjny, Poland
Dr Paweł Zagrajek, commercial deputy director, Port Polska Programme, CPK Centralny Port Komunikacyjny, Poland
Antoinette Erickson, senior partner, Foster + Partners, UK
PANEL MODERATOR:
Jeremy Corfield, partner, CPI, Australia

14:30 - **New topic – please see website or app for details**
Basil Binns, deputy director, Miami International Airport, USA

15:00 - **Concession redevelopment – where business planning and terminal development intersect**
Ingrid Hairston, chief revenue officer, Birmingham Airport Authority, USA

15:30 - 15:50 - BREAK

15:50 - **Beyond the building: Transforming place, people and experience at JFKT4**
Belinda Jain, vice president – customer experience and commercial, JFKIAT, USA
Jeroen van Nistelrooij, director of commercial development, JFKIAT, USA

16:20 - 17:05 - **Panel discussion: Reimagining lounges – guest experience, brand value and performance**
Halil İbrahim Anasoy, head of non-aviation commerce, Istanbul Airport, Turkey
Jonathan De Oliveira, director - customer experience, Azerbaijan Airlines, Azerbaijan
Bora Isbulan, deputy CEO, Plaza Premium Group, Hong Kong
PANEL MODERATOR:
Janis Tse, CEO, Lounge by Yates+, Yates+, Hong Kong

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

13:30 - 17:15 CUSTOMER EXPERIENCE

ROOM 10

SPONSORS:

ethos farm · ink · Uber · serve first. Bringing feedback to life.

INTRODUCTION BY CONFERENCE CHAIRS
Jerry Angrave, customer experience director, Empathyce, UK

13:35 - Intelligent personalization: Elevating hospitality and value across the airport ecosystem
Aude Ferrand, TAV Holding chief commercial officer (CCO) and TAV Operation Services CEO, TAV Airports Holding, Turkey

14:05 - Enhancing the passenger experience
Dr Jan-Henrik Andersson, chief commercial officer, Munich Airport, Germany

14:35 - 15:15 - Panel discussion: Revolutionizing passenger experience through balancing AI-driven and human-centered innovations
Stacey Stegman, senior vice president, communications, marketing and customer experience, Denver International Airport (DEN), USA
Ioanna Papadopoulou, director – communications and marketing, Athens International Airport, Greece

PANEL MODERATOR:
Tod Yankee, principal, Yankee & Associates, USA

15:15 - 15:35 - BREAK

15:35 - From customer service to customer care (I-Care) using AI
Elena Selva, digital and customer experience manager, Bologna Airport, Italy
Alberto Bini, innovation manager, Bologna Airport, Italy

16:05 - Plan, discover, relax: Your digital airport journey at BRU
Bernd Bries, product owner app, Brussels Airport Company, Belgium

16:35 - 17:15 - Panel discussion: Do passengers actually care about airports' digital channels?
Belinda Jain, vice president – customer experience and commercial, JFKIAT, USA
Efrat Heyde Olsen, head of customer service, Copenhagen Airport, Denmark

PANEL MODERATOR:
Robbert van Vliet, head of customer care, Royal Schiphol Group, Netherlands

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15 ENVIRONMENT AND SUSTAINABILITY

ROOM 1

INTRODUCTION BY CONFERENCE CHAIRS
Emanuel Fleuti, vice president sustainability, Zurich Airport, Switzerland
Dr Mary Kerins, assistant professor of aviation management, Dublin City University Business School, Ireland

09:05 - The quiet revolution: Futureproofing airports for climate and community
Fiona Smith, sustainability director, AGS Airports, UK
Ana Luisa Maldonado, senior acoustician, Arup, UK

09:35 - Net zero terminals: Designing human comfort with minimal carbon footprint
Giambattista Brizzi, building physics expert, Deerns, Italy

10:05 - 10:50 - Panel discussion: Noise management – implementing the Balanced Approach regulation across Europe
Alexandre de Joybert, director of sustainability, ACI Europe, Belgium
Mattia Grampella, noise and air quality manager, SEA Milan Airports, Italy
Thomas Vanwing, public affairs manager, Brussels Airport Company, Belgium

PANEL MODERATOR:
Ella Soltani, commercial lead Europe/managing director Belgium, To70, Netherlands

10:50 - 11:10 - BREAK

11:10 - Nature-positive transitions: Boosting biodiversity and resilience at Schiphol
Denise Pronk, head of sustainability, Royal Schiphol Group, Netherlands
Faiza Oulahsen, director of sustainability, KPMG the Netherlands, Netherlands

11:40 - PFAS – an emerging topic at airports
Emanuel Fleuti, vice president sustainability, Zurich Airport, Switzerland

12:10 - Redefining net zero: Integrating sustainability from design to operation
Keshav Singhal, head – environment and sustainability, Noida International Airport, India

12:40 - 13:45 - LUNCH

13:45 - 14:30 - Panel discussion: PIT's path to energy resilience and independence
Chad Willis, vice president – planning, environmental and sustainability, Pittsburgh International Airport, USA
Jeffrey Bezek, director of engineering, Pittsburgh International Airport, USA

PANEL MODERATOR:
Vince Gastgeb, chief government and corporate affairs officer, Pittsburgh International Airport, USA

14:30 - Airports of tomorrow: Sustainable multimodality and holistic energy use approach
John Nilsson, strategy manager, Swedavia Airports, Sweden
Jan Eklund, strategy manager – intermodality, Swedavia Airports, Sweden

15:00 - Airports of the future: Where tech meets circularity
Nick Gabriel, senior environmental sustainability manager, Heathrow Airport Limited, UK
Sara Solis, circular economy lead, Royal Schiphol Group, Netherlands

15:30 - 15:45 - BREAK

15:45 - Building a sustainable and resilient airport for tomorrow
Hoi Wen Au Yong, environment and sustainability senior manager, Changi Airport Group, Singapore

16:15 - Climate adaptation at Malpensa: A resilient airport for a sustainable future
Giorgio Medici, environment and funded initiatives director, SEA Milan Airports, Italy
Davide Canuti, head of the Environmental Assessment and Certifications Office, SEA Milan Airports, Italy

16:45 - Airports' double materiality assessment – ESG
J Jaime Martín Gurrea, MSc aeronautic engineer - Sustainability, Aena, Spain
Eduardo Milanés, head of ESG reporting, Aena, Spain

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15 FUTURE MOBILITY – AAM, UAM AND VERTIPORTS

ROOM 17

INTRODUCTION BY CONFERENCE CHAIRS
Dr Vassilis Agouridas, co-chair, IDI platform, ERTICO – ITS Europe, Belgium
Velissarios Eleftheriou, CEO, TotalCDM, Greece

09:05 - Scaling advanced air mobility: Infrastructure, vertiports and global UAM
Jose Ignacio Rexach, CCO, Europe and Latin America, EHang, Spain

09:35 - Vertiport collaborative traffic management – enabling innovative air mobility
Alberto Mangas Pita, innovation project manager, ISDEFE (representing Aena), Spain

10:00 - Urban design considerations for AAM and UAS operations
Asim Rizwan, senior ATM consultant, EGIS, United Arab Emirates

10:25 - AAM reality check
Dr Fethi Chebil, CEO and founder, VPorts, United Arab Emirates

10:50 - 11:10 - BREAK

11:10 - From airport to vertiport: Preparing regions for intermodal AAM
Dr Jeffrey DeCarlo, president and chief executive officer, MassAutonomy, USA
Robin Grace, chief of AAM integration and strategy, MassAutonomy, USA

11:35 - Vertiport infrastructure – the backbone of innovative air mobility
Dr Samiksha R Nagrare, researcher, German Aerospace Center (DLR), Germany

12:00 - Roadmap to advanced air mobility infrastructure integration
Maria Krylova, senior consultant, M2P Consulting, Germany

12:25 - 13:10 - Panel discussion: AAM challenges in the context of the future of transportation – focus on passenger transportation
Dr Jeffrey DeCarlo, president and chief executive officer, MassAutonomy, USA
Maria Krylova, senior consultant, M2P Consulting, Germany
Dr Samiksha R Nagrare, researcher, German Aerospace Center (DLR), Germany
Sunil Budhdeo, transport innovation manager, Coventry City Council, UK

PANEL MODERATOR:
Vassilis Agouridas, co-chair, IDI platform, ERTICO – ITS Europe, Belgium

13:10 - 14:15 - LUNCH

14:15 - AAM in London: Bringing the benefits and the buy-in
Shamal Ratnayaka, aviation strategy lead, Transport for London, UK

14:40 - Disruption of air logistics through advanced air mobility
Dr Uwe Gross, CEO, Nex Aero, Germany

15:05 - 15:50 - Panel discussion: AAM challenges in the context of the future of transportation – beyond passenger transportation
Dilan Uzunkodalak Aksoy, aviation planning chief, iGA Istanbul Airport, Turkey
Darius Mikulenas, technical strategy specialist, UK Civil Aviation Authority, UK
Robin Grace, chief of AAM integration and strategy, MassAutonomy, USA
Dr Uwe Gross, CEO, Nex Aero, Germany

PANEL MODERATOR:
Vassilis Agouridas, co-chair, IDI platform, ERTICO – ITS Europe, Belgium

15:50 - 16:10 - BREAK

16:10 - OPEN AAM ORG, in collaboration with the wider community
Amad Malik, chief technology officer, Adaptech AI/ATOS/ Eurocontrol, Spain

16:35 - Defining the market for eVTOLs: Turning possibility into demand
Steven Derengowski, director of innovation, InterVistas Consulting, USA

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

09:00 - 17:15 TECHNOVATION

ROOM 14

INTRODUCTION BY CONFERENCE CHAIRS
Catherine Mayer, CEO, MayViation, USA
Maurice Jenkins, IAP AAE, chief innovation officer, Miami International Airport, USA
Samuel Ingalls, principal, Barich, USA

09:05 - 09:45 - Panel discussion: Rewiring airport operations for a digital, performance-driven future

Lennert l'Amie, CIO, Royal Schiphol Group, Netherlands
Michael Christensen, assistant general manager – chief airport development officer, Los Angeles World Airports, USA
Mohamed Charkas, executive vice president chief infrastructure and development officer, Dallas Fort Worth International Airport, USA

PANEL MODERATOR:
Amir Ganaba, managing director and partner, Boston Consulting Group, USA

09:45 - 10:30 - Panel discussion: Beyond the queue: The future of passenger flow intelligence

Martha Edge, innovation and experience director, CLT Airport, USA
Steven Woods, vice president, information technology, Metropolitan Nashville Airport Authority, USA
Joel Peach, director – data insights, Ricondo, USA

PANEL MODERATOR:
Danny Peleg, VP for sales and business development, Beonic, USA

10:30 - AODB transplant: Replacing the beating heart of an airport

Gilles Brentini, head of airport systems and projects, Geneva Airport (GVA), Switzerland

11:00 - 11:20 - BREAK

11:20 - The schedule never flies: Extraordinary journeys in capacity constrained environments

Diogene De Souza, senior ATM and punctuality manager, Heathrow, UK
Kemal Ahmed, head of solutions and product management, NATS, UK

11:50 - 12:35 - Panel discussion: Turnaround wins – how empowering the golden triangle drives real change

Albert Van Veen, vice president of innovation and chief information officer, Vancouver Airport Authority, Canada
Linda Veenstra, airport operations and contract manager, easyJet, Netherlands
Laura Buying, service delivery manager, Menzies Aviation, Netherlands

PANEL MODERATOR:
Jeffrey Schäfer, process owner aircraft turnaround, Royal Schiphol Group, Netherlands

12:35 - 13:45 - LUNCH

13:45 - 14:30 - Panel discussion: Harnessing AI-driven insights to optimize POBT and enhance A-CDM collaboration

Fabrizio Magliocca, director of business transformation, innovation and quality, Aeroporti di Roma, Italy
Holger Wieck, SVP aviation/airside operations, Flughafen Berlin Brandenburg, Germany
Klemens Krys, head of quality and process management, Flughafen Berlin Brandenburg, Germany

PANEL MODERATOR:
Jan Kappes, CCO, Assaia International, Germany

14:30 - Introducing automation on the ramp

Stuart Holdstock, head of projects, processes – operations, Deutsche Lufthansa, Germany

14:55 - Future-ready digital operations: Lessons from Salzburg Airport

Barbara Horner, station manager, Salzburger Flughafen, Austria
Felix Piper, managing consultant, Lufthansa Consulting, Germany

15:25 - 15:45 - BREAK

15:45 - The Smart Ramp innovation program: Reinventing ramp operations

Harvey Tate, head of airport innovation, IAG, UK
Manuel van Lijf, director – travel and transportation, NLMTD (Unlimited), Netherlands

16:15 - 16:45 - Panel discussion: Precision in motion – unlocking efficiency through micro-location intelligence

Michael Bettua, CEO, Volan Technology, USA
Peter Knudsen, general manager, Americas, Veovo, Denmark

PANEL MODERATOR:
Brian Cobb, chief innovation officer, Cincinnati/Northern Kentucky International Airport (CVG), USA

16:45 - Changi Airport advanced simulation: Operational efficiencies and strategic airport planning

Hon Wei Lim, senior manager, Changi Airport Group Singapore Pte Ltd, Singapore
Eric Miller, vice president, BNP Associates, USA

SKYTRAX WORLD AIRPORT AWARDS 2026 CEREMONY AND CELEBRATION AT 17:30 IN THE EXHIBITION HALL AFTER THE CONFERENCE

DAY 3, THURSDAY, MARCH 19

09:00 - 13:30
AIRPORT CAPACITY AND FLEXIBILITY

ROOM 9

SPONSOR:

TAV TECHNOLOGIES

INTRODUCTION BY CONFERENCE CHAIR
Arturo Garcia, COO, Avports, USA

09:05 - 180 days ahead: Orchestrating the airport ecosystem by DCB
Martijn van Boven, product manager, Amsterdam Airport Schiphol, Netherlands

09:30 - Developing a multiplayer self-bag-drop environment at Athens International Airport
Alexios Sioris, manager ground handling and cargo development, Athens International Airport, Greece

09:55 - Swedavia's off-airport bag-drop journey (so far)
Mats Berglind, innovation manager, Swedavia, Sweden

10:20 - Empowering airlines to achieve digital passenger processing
Tracie Baldock, senior technology manager, easyJet, UK
Drew Wilby, senior business development manager, SITA, UK

10:45 - 11:10 - Fireside chat: Future global gateways – human-centered, data-driven, sustainable airport design vision
Kelly Stone, head of design and engineering – long-term growth, London Heathrow, UK
Yvonne Bilshausen, global head of aviation architecture and engineering, AECOM, USA

11:10 - 11:30 - BREAK

11:30 - Enhancing Ireland's connectivity with Europe's newest runway
Simon Fagan, head of capacity planning and economic regulation, DAA (Dublin Airport), Ireland

11:55 - 12:35 - Panel discussion: STN and ONT – finding their niche in a multi-airport ecosystem
Atif Elkadi, chief executive officer, Ontario International Airport, USA
Jamaal Avilez, senior vice president – administration, Ontario International Airport Authority, USA
Mike Hardaker, chief asset and development officer, Stansted Airport, UK

PANEL MODERATOR:
Jonathan Massey, managing principal, Corgan, USA

12:35 - Redesigning Blaise Diagne Airport – turning challenges into opportunities
Yacine Kebe, director – safety quality environment, LAS - Dakar Blaise Diagne Airport, Senegal
Mohamed Gorel Soumaré, technical director, Limak-Aibd-Summa (LAS), Senegal

13:00 - Flexible terminal assets
Silke Devacht, senior product development manager, Brussels Airport Company, Belgium
Dieter Scheltjens, head of mobility and passenger services, Brussels Airport Company, Belgium

13:30 - 15:00 - LUNCH

09:00 - 13:30
AIRPORT DESIGN, PLANNING AND DEVELOPMENT

SHOW FLOOR CONFERENCE THEATRE

SPONSORS:

ARCADIS LYNX

INTRODUCTION BY CONFERENCE CHAIR
Mark Wolfe, director, aviation, WSP, UK

09:05 - New obstacle limitation surfaces (OLS) – are you ready?
Matt Roberts, policy principal – aerodromes, UK CAA, UK
Malte Karger, director – business development, Airsight, Germany

09:35 - 10:20 - Panel discussion: Power play – rethinking energy and data for aviation's next frontier
Brian Cobb, chief innovation officer, Cincinnati/Northern Kentucky International Airport (CVG), USA
George Hannah, enterprise account manager, Siemens, UK
Tim Donovan, founder and CEO, Donovan Energy, USA

PANEL MODERATOR:
Geoffrey Ax, principal/director, USA

10:20 - Expansion of Terminal 1, Munich Airport
Katrin Hennig, vice president owner representation for large-scale projects, Flughafen München GmbH, Germany

10:50 - 11:10 - BREAK

11:10 - Developing Kinshasa International Airport as a gateway to the world
Sanjeev Guness, CEO, Infrarose, UK
Jordan Pierce, associate principal, Skidmore Owings & Merrill – SOM, USA

11:40 - Airports as catalysts: Unlocking Greenland's economic and social potential
Christian Dyrbjerg Andersen, project director, Greenland Airports International, Greenland
Kelly Nelson, partner, director of aviation, Zeso Architects, Denmark

12:10 - One month until Europe's next-level terminal opens
Sascha König, senior vice president of aviation passenger process, Fraport, Germany
Esther Nitsche, vice president – operational excellence, Fraport, Germany

12:40 - 13:25 - **Panel discussion: Controlling landside access – intelligent transportation systems (ITS) to relieve congestion**
Robert Walker, managing director – corporate real estate, United Airlines, USA
Ellis Kim, airport landside traffic lead, TYLin Group, USA
Dominick Trupia, senior vice president, VRX, USA

PANEL MODERATOR:
Jeff Mechlem, aviation market sector leader, Page now Stantec, USA

13:30 - 15:00 - LUNCH

09:00 - 13:30 AIRPORT FACILITIES MANAGEMENT

ROOM 3

INTRODUCTION BY CONFERENCE CHAIRS
Michael Jahn, senior specialist facility management, Fraport AG, Germany
Ralph Struck, senior vice president – facility management/ technical director, BER Airport Berlin Brandenburg, Germany

09:05 - **Smart phasing at airside, aligned with ADM's finances and operations**
Jerome Conraud, assistant VP, strategy, governance and airport planning, ADM – Aéroports de Montréal, Canada
Steven Wanders, senior project manager, NACO, Netherlands Airport Consultants, Netherlands

09:30 - **Breathing new life into JFK's Terminal 4**
Roel Huinink, chief executive officer, JFK International Air Terminal, USA
David Powell, associate principal, Arup, USA

10:00 - 10:45 - **Panel discussion: Transforming gate operations through autonomous docking systems**
Max Kling, lead automation technician, Delta Air Lines Inc., USA
Scott Goodwin, assistant vice president – airport operations, Greater Orlando Aviation Authority, USA
Atif Rizvi, project director, apron systems, BNP Associates, Inc., USA

PANEL MODERATOR:
Kevin Wilcox, president, CLX Engineering, USA

10:45 - **Gen Z decodes airport FM: Organization, processes and digital vibes**
Lisa Braun, senior manager of facility management, BER Airport Berlin Brandenburg (Flughafen Berlin Brandenburg), Germany
Paul Klonowsky, expert for special projects and policies in facility management, BER Airport Berlin Brandenburg (Flughafen Berlin Brandenburg GmbH), Germany

11:10 - 11:30 - BREAK

11:30 - 12:15 - **Panel discussion: Demographic and technological change in facility management**
Tatsuya Izumi, deputy general manager, Narita International Airport Corporation, Japan
Michael Jahn, senior specialist facility management, Fraport AG, Germany
Roberto Castiglioni, aviation accessibility expert, Reduced Mobility Rights Limited, UK
Speaker to be announced – see website or app for details

PANEL MODERATOR:
Ralph Struck, senior vice president – facility management | technical director, BER Airport Berlin Brandenburg, Germany

12:15 - **Immersive Innovation: Haptic and VR solutions for airport workforce development**
Jennifer Fermoselle, innovation specialist, airport and venture initiatives, Aena, Spain

12:40 - **How to make IoT projects lift off? Fraport's LoRaWAN journey**
Stefan Thomanek, senior specialist, FM, Fraport AG, Germany
Leo Putz, head of product management, Avelon AG, Switzerland

13:05 - **Electrifying airside at Amsterdam Airport Schiphol**
Dennis de Cock, expert electrification, Amsterdam Airport Schiphol, Netherlands
Ivar Bal, engineer, special airport systems, Deerns, Netherlands

13:30 - 15:00 - LUNCH

09:00 - 13:30 BARRIER-FREE AND INCLUSIVE TRAVEL

ROOM 7

INTRODUCTION BY CONFERENCE CHAIRS
Emily Yates, head of accessibility and inclusive design, Mima, UK
Dr Kirk Goodlet, vice president, InterVistas Consulting, Canada

09:05 - 09:50 - **Panel discussion: The end-to-end inclusive passenger experience – King Salman International Airport**
Mark Van Doorne, VP airport masterplanning and strategy, King Salman International Airport Development Company, Saudi Arabia
Nuala O'Sullivan, principal accessibility and inclusive design consultant, Mima, UK
Suzan Ucmakliolgu, associate partner and inclusive design specialist, Foster + Partners, UK

PANEL MODERATOR:
Emily Yates, head of accessibility and inclusive design, Mima, UK

09:50 - **Accessible aviation project – Brazil**
Prof Luiz Tonin, professor, Federal University of São Carlos (UFSCar), Brazil

10:20 - 11:00 - **Panel discussion: Staff experience – what's it like working at an airport?**
Anna-Ruth Cockerham, accessibility and inclusion consultant, Freelance, UK
Atif Choudhury, CEO, Calling All Minds, UK
Speaker to be announced – see website or app for details

PANEL MODERATOR:
Jenny McLaughlin, inclusion lead – solutions, Heathrow Airport, UK

11:00 - 11:20 - BREAK

11:20 - 12:00 - **Panel discussion: Understanding the lived experiences of disabled passengers**
Jessie Buckle, inclusive design and neuroclimate specialist, PhD researcher and London City Airport accessibility chair, People, Place & Planet, London City Airport and UCL, UK
Joshua Wintersgill, director, ableMove, UK
Neil Barnfather, chief commercial officer, GoodMaps, UK

PANEL MODERATOR:
Anna-Ruth Cockerham, accessibility and inclusion consultant, Freelance, UK

12:00 - 12:40 - **Panel discussion: From wayfinding to in-flight comfort: New approaches to access on the ground and in the air**
Kerianne Wilson, director – customer accessibility, Air Canada, Canada
Maurice Jenkins, IAP AAE, chief innovation officer, Miami International Airport, USA

PANEL MODERATOR:
Kirk Goodlet, vice president, InterVistas Consulting, Canada

12:40 - 13:20 - **Panel discussion: Best practices in accessibility at US airports**
Alan Howell, senior airport architect, Metropolitan Airports Commission, USA
Marc Godzina, senior project architect, Mead & Hunt, USA
Laurel Van Horn, director of research and design, Open Doors Organization, USA

PANEL MODERATOR:
Mark Cheminant, airport operations manager – ADA coordinator, Salt Lake City International Airport, USA

13:30 - 15:00 - LUNCH

09:00 - 13:30 BEYOND THE DASHBOARD: DATA STRATEGY AND CULTURE

ROOM 17

INTRODUCTION BY CONFERENCE CHAIRS
Bert Dijk, manager, M2P Consulting GmbH, Germany
Ricardo Roth, head of IT, Flughafen Berlin Brandenburg, Germany

09:05 - **The journey toward a data-driven airport: From legacy to intelligence**
Tenna Ørum Kristensen, director, data and AI, Copenhagen Airports, Denmark

09:35 - **Achieving business value through data and artificial intelligence in aviation**
Mateo Guzmán-Urbano, enterprise architect, Avinor, Norway
Dr Thomas Qureishy, data scientist, Avinor, Norway

10:05 - **The unknown IT behind BER Airport – that isn't IT**
Sina Hauff, head of data, AI and collaboration applications, Flughafen Berlin Brandenburg, Germany
Marcus Schreyer, head of IT applications, BER – Flughafen Berlin Brandenburg, Germany

10:35 - **Unlocking the full potential of AI at Frankfurt Airport**
Verena Dollberg, program director corporate strategy and digitalization, Fraport, Germany

11:00 - 11:20 - BREAK

11:20 - 12:05 - **Panel discussion: Data in the organization, how to achieve governance and ownership**
Alberto Bini, innovation manager, Bologna Airport, Italy
Christian Wrobel, chief data and analytics architect, Fraport, Germany
Ricardo Roth, head of IT, Flughafen Berlin Brandenburg, Germany

PANEL MODERATOR:
Bert Dijk, manager, M2P Consulting GmbH, Germany

12:05 - **Our open innovation model and entrepreneurship program**
Giovanni Gennaro, head of open innovation, Aeroporti di Roma, Italy

12:30 - **Airport operational data insights from JFK NTO**
Simon Franceschi, director of airport IT digital and innovation, JFK New Terminal One, USA
Stephen Saunders, senior airport digital modernization lead, ICF, USA

13:00 - **The fine print for resilience: Futureproofing airport RFPs for the digital era**
Shakti Mitra, head – digital transformation projects, Bangalore International Airport, India

13:30 - 15:00 - LUNCH

09:00 - 13:30 CUSTOMER AND WORKFORCE EXPERIENCE

ROOM 10

SPONSORS:

ethos farm · ink · Uber · serve first. Bringing feedback to life.

INTRODUCTION BY CONFERENCE CHAIRS
Claire Donnellan, director, Customer Centric Consulting, Australia
Jerry Angrave, customer experience director, Empathyce, UK

09:05 - Planning for disruption: Anticipating redevelopment impacts
Brendan Goodrich, manager, infrastructure planning, JetBlue Airways Corporation, USA
Brendan Smith, lead civil aviation engineer, WSP USA, USA

09:35 - Transforming CLE: CLEvolution supports construction through engagement and experience
Dennis Kramer, assistant director – airport development, City of Cleveland Department of Port Control, USA

10:05 - Delighting passengers in the world's most connected airport
Daniel Edwards, director of services, Heathrow Airport, UK
Sally Alington, founder and CEO, Ethos Farm, UK

10:35 - Fireside chat: PIT's people-first approach to designing the workplace and passenger experience
Deepak Nayyar, executive vice president and chief information officer, Pittsburgh International Airport, USA
Siri Betts-Sonstegard, senior vice president, experience and design, Pittsburgh International Airport, USA

11:05 - 11:25 - BREAK

11:25 - Fireside chat: Building tomorrow's aviation workforce – collaborative strategies for success
Gina Stough, vice president – human resources, CVG Airport Authority/Cincinnati Northern Kentucky Airport, USA
Peter Gargiulo, president, 4QD Strategy Consulting, USA

11:55 - X marks the spot – where EX meets CX!
Jamie Carter, interim director of customer experience and brand strategy, Seattle-Tacoma International Airport, USA

12:25 - Scaling everyday innovation and AI readiness: Inside DFW Airport's playbook
Paul Drury, VP of product development and innovation, DFW International Airport, USA
David Dabscheck, CEO, Giant Innovation, USA

12:55 - How Munich Airport empowers operations specialists of the future
Fabiola Pfauser, vice president – learning and development, Munich Airport Academy, Germany

13:30 - 15:00 - LUNCH

PTEWORLD
PASSENGER TERMINAL EXPO

Emergency evacuation procedure

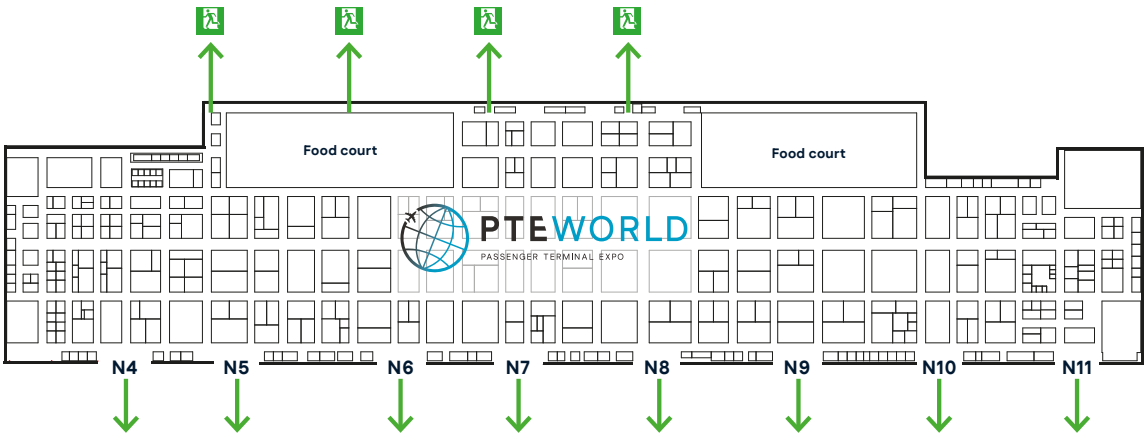

Excel London, Halls N4 - N11

If an evacuation is necessary you will hear the following announcement broadcast over the public address system:

"Attention please, attention please. Here is an important announcement. It is necessary to ask everyone to leave the building. Please make your way calmly to the nearest exit. Do not return to your vehicles. Everyone will be readmitted as soon as possible."

Use the nearest available emergency exit to the appropriate assembly point. In the unlikely event that an evacuation is necessary, please remember to take your visitors with you.

To call from an external line, add the prefix 020 7069 followed by these extension numbers:
In any emergency i.e. medical, fire, security, unattended package, dial 4444;
security inquiries, dial 4445; medical inquiries, dial 5556.
